Children Solve Mystery From PARALYSIS AND SIX YEARS OF CONVULSIONS.

Little Fannie Adams, of Umatilla, Cured of a Dreadful Malady A Cure of Unusual Interest—A Reporter Investigates.

From the Lake Region, East, Fla.

For some time past the Lake Region has been receiving reports from Umatilla, Fla., of an almost miraculous cure that had been effected in the case of Fannie Adams, a daughter of A. J. Adams, of that place, and last Saturday a representative of this paper made a trip to Umatilla for the purpose of determining the authenticity of the same.

The family live a short distance from the village, where it was found by some persons were cognizant of the cure which had been effected, and were rejoicing with the family in their new found happiness.

Fannie, the youngest child, was born in east Tennessee, and was seven years old on the third day of February, 1897.

She was stricken with paralysis, which affected the entire left side. The stroke of paralysis was caused by convulsions, and from the time Little Fannie was ten months old until February, 1897, there was not a single day in which she did not have spasms of the most distressing nature.

The family was all broken down with care, and Mrs. Adams states that for one year she did not get into her kitchen to superintend her household work.
