These facts were all reported in the official despatch from General Lague to General Weyler, received this morning by the captain general.

General Weyler has long had a grudge against General Lague. He replied to Lague's refusal by saying to the latter that it was not becoming in a military commander to broom himself for not going to a place of danger.

Among the friends of Lague it is said now that Weyler abandoned him purposely. Be that as it may, the brilliant victory of General Garcia will probably cost Weyler himself his office.
