SCHOOL BOARD MEETS.

All the school directors were present on Monday evening at the meeting of the board. Superintendent Forbes reported that with the permission of four members, he had transferred Miss Ella Boland from the central building to No. 3 building, as the accommodations in the central were not sufficient. It was desirable that pupils should be taken from the central building to the No. 3 school. The board, however, took no action upon the matter. The number of scholars was reported as numbering 2,200. As there are eighty-eight pupils in Miss Morrison's room at the Farview street school, and as another teacher was necessary, on motion of Mr. Coogan the board decided to furhish another room and to appoint a teacher. Miss Anna Lee, of Ashley, a normal school graduate, was nominated by Mr. Coogan and unanimously elected. Her salary, on motion of Mr. Alexander, was fixed at \$35.

PATH TO CRYSTAL LAKE.

It is thought that next spring a cinder path to Crystal lake will be made for the accommodation of wheelmen. The matter was discussed at the regular meeting of the Cycle club. President Munn has appointed the folowing committee on right of way: Andrew Mitchell, jr., Charles Moon and C. R. Smith. The president is a memper ex-officio. The committee will carefully examine the ground, consider the best localities, get estimates of the cost of construction and consult in regard to the right of way with property owners It is thought that three and one-half miles of path will be sufficient. There is already a good grade and surface to Scott street which intersects Fallbrook street a short distance this side of the "Falls." The main road will be left at Cole's hollow in order to avoid the Williams' hill. It is thought that work can begin early in the spring.

FIRE ON SOUTH SIDE.

At about midnight on Monday Adam Schaff, the watchman at the Delaware and Hudson No. 1 mule barn on the South Side, discovered flames in the upper story in the north end of the building. He immediately gave the Help was obtained in getting alarm. the mules from the burning building. The Mitchell and oCttage Hose companies came, but were not able to save the building. Many tons of hay were destroyed. Mr. Schaff lost a valuable watch while endeavoring to get out the mules. The loss will amount to several thousand dollars. The fire was the result of spontaneous combustion. The barn will be re-built as soon as possi-

A STITCH IN TIME SAVES NINE.

Heat, sense of tenderness and swelling of a part, are all indications that there is need of instant repair -the stitch in time. Where these symptoms exist on the left or the right side of the womb, disease of the ovary is setting in, and soon there will be, if there is not already established, a discharge, trifling at first, but later copious and irritating. Soon, also, there will be felt dull, dragging pains radiating from the ovary.

Do not, my sister, let your malady go so far, but those of you who are already suffering in this way should begin at once a course of treatment with Lydia E. Pinkham's Vegetable Compound. It will restore the organs to their normal condition.

In this connection MRS. E. L. MYERS, Quakake, Pa., says: "My ovaries were badly diseased, and for almost a year I suffered with se-

vere burning pains which were almost unendurable, and a dull, heavy pain in the lower portion of my back. If standing I was most relieved with my foot resting on a stool or chair. The doctor told me I would have to take my bed and keep quiet. I had not used half a bottle of Lydia E. Pinkham's Vege table Compound before it worked wonders with me. I now owe my health to the Compound. To those who are suffering from diseases peculiar to women, I would say that Lydia E. Pinkham's Vegetable Compound is just what they need.

Mrs. Pinkham wishes to befriend you, and if you will write her at Lynn, Mass., telling her just how you feel, she will give you the very best advice free of charge. Think what a privilege it is to be able to write to a woman who is learned in all these matters, and willing to advise you without charge.

The doctors report an unusual amount of sickness within the past few weeks. The nature of most of the cases is ma-laria, ome effort ought to be made if possible to present the screet back possible to prevent the prevalency of malaria, which is often times very great in this town. It is claimed that by the expenditure of a few thousand dollars

all the malaria epidemics would be prac-tically avoided. It would seem that to preserve health and prevent disease Arrows the officers of any town would be the best way to spend public money. Mr. and Mrs. W. J. Davies attended the funeral of the formet's aunt in Summing visiteday

DR. A. F. GILLIS BUILDING.

The plans for Dr. Gillis' new building on his Park place property have been drawn by the architect, J. E. Robinson, of this city. It will be of brick, three stories high. There will be two double stores on the lower floors and flats for dwellings in each story above. The building will be modern and attractive and cover a space of 44x60. It is expected that the building will be completed by the first of January. The contract has been given, though the name of the builder has not been announced.
