

A GREAT \$3.50 WORTH

The styles for Fall are well represented in our windows. This, our \$3.50 shoes are marvels at the price. Five dollars asked everywhere else for equal qualities. Fashionable shapes—slender—round—broader—round toes are the go.

BUSINESS LIKE MEETING OF SELECT

Mayor's Appointees for Park Commissioners Were Confirmed.

TO EXTEND THE TIME LIMIT

Resolution introduced fixing Nov. 1 as the time when penalty on City Taxes Will Begin—Committee Directed to Make Report With Reference to a Course to Be Adopted in Constructing Sewers—New Ordinances Introduced.

At last night's meeting of select court, P. J. McCann, A. P. Bedford and Hon. J. A. Scranton were confirmed as a board of park commissioners. Some weeks ago the appointments were made by Mayor Bailey and presented to council and after being read an unavailing attempt was made to have them confirmed forthwith. At the last meeting the appointments were laid on the table. Early at last night's meeting James Manley, of the Twelfth ward, moved that the appointments be taken from the table. This was done and he then moved that the nominations be confirmed. There was no objection and the motion passed unanimously.

An important item of business transacted last night was the passage of a resolution introduced by M. J. Burns, of the Eighteenth ward, extending the time for paying city taxes before a penalty is imposed until Nov. 1. At present the time limit expires Oct. 1.

The judiciary committee reported favorably on a resolution permitting Samuel Gress to connect his property with the Bromley avenue sewer. The report was adopted and the resolution passed. The same committee reported adversely on the claims of Owen Collier for damages for injuries sustained by falling into a culvert on Depot street, North Scranton. The committee based its report on the fact that the street had never been accepted by the city. After some debate the resolution was not adopted. It was vigorously opposed by P. F. McCann, who said the council should be positive the street had never been accepted by any of its acts before adopting such a report.

WILL HAVE THE PLACE CONDEMNED

Then Chief Robling Proposes to Nail Up the Providence Police Station.

NOT A FIT PLACE FOR CATTLE

It is One of the Most Unsanitary Holes in the City and Has Been Frequently Condemned by Health Authorities and City Officials, But Up to Date the Nuisance Has Not Been Abated Although Repeated Efforts Were Made in That Direction.

Chief of Police Frank Robling, Jr., last evening struck upon a good, solid method for ridding the North End of the shameful police station in that quarter of the city. It was born in a spirit of desperation.

A number of public officials were talking of this infamous hole-in-the-ground used to incarcerate prisoners. Mrs. Duggan, agent for the board of associated charities, who since she has received her officer's commission, may need the police stations to incarcerate prisoners, started the conversation. Officer Duggan visited the North End last night a few days ago. It is situated in a building on East Market street. The police officers eat their meals outside and directly overhead a horse company has its quarters. The intervening floor is made of wood and the tramp, tramp of the horses as they move restlessly about can be heard at all times.

Whatever refuse there is leaks through the floor and at every concussion falls into the police station. There is no loafing. When a policeman brings in a prisoner he shoves him into a cell, slams the door and makes his escape. When Mrs. Duggan visited the hole the stone-flag floor was wet.

"Have you been scrubbing?" she asked. The officers explained that that was the natural condition of the floor. When it rains, from two to twelve inches of water covers the floor. Lieutenant Spellman tries to make it a point to be in the open air as much as possible. In the winter a big-bellied stove is kept red-hot, but a man will freeze his back teeth while his incisors are baking. The water sometimes freezes on the floor of the police station.

Two drunken prisoners refused to take refuge on the banks one night and they slept in three inches of water. Suit for damages to health are feared.

Four years ago the board of health actually condemned the station as unfit for a human being. Chief Simpson called the attention of council to the place and Chief Robling in his last batch of recommendations said it was "not fit to keep cattle in." But council would not hearken.

PLAN SUGGESTED.

Last night as the officials talked Chief Robling suddenly exclaimed "Eureka!" which in the North End means "I have found the ball."

"I have it," continued the chief, "if councils does not act soon I'll have the board of health condemn the place and I'll then send out a squad and nail up the doors."

"What will you do with the prisoners?"

The chief was ready. "Why," he said, "We'll have them kept in the hose house with a man to guard them until the patrol wagon reaches the place."

AN INTERESTING ADDRESS.

Will Be Delivered by Hon. Freeman O. Willey Before Board of Trade.

The members of the Scranton Board of Trade will be given an opportunity to listen to an address on Monday evening next by Hon. Freeman O. Willey, of New York city. Secretary Artherton secured Mr. Willey's consent to address the board on that evening and he will speak upon the tariff from a non-partisan standpoint. Mr. Willey is the author of the now much talked work, "The Laborer and the Capitalist."

This work has placed him on a plane with some of our greatest economists and thinkers. His ability, power and personality materially add to the interest of his address. There is no doubt but this tariff subject will receive masterly attention and prove deeply instructive to those who attend. Each member of the board is entitled to bring a friend.
