THE MARKETS.

Wall Street Review

New York, Sept. 17.—Today's market was strong and the average level of prices was considerably higher than yesterday's trading. It was a noticeable fact, however, that the greatest activity was confined to spots. The gains also were spasmodic in character and it could not be said that there was any simultaneous advance through the whole list. The Grangers, the Trunk lines, the Vanderbilts and the Rockwell interests, which have recently been checked on realizing sales invited by previous sharp gains showed recoveries today. The most conspicuous feature of the market was the lively demand for the coals. New Jersey Central was carried up an extreme 2 1/2 to 3 1/2 cents for the first time since February 3 of this year.

The Reading stocks all advanced a point or over during the day, but fell back just at the close. Lackawanna rose 2 1/2 and Delaware and Hudson 1 1/2. Atchafalaya, preferred, and Wash, preferred, gained a point or over net. The solution of the troubles of the soft coal industry was reflected in sharp advances in Toledo and Ohio Central and Hoeking Valley, preferred. Union Pacific was another conspicuous figure closing with a net gain of nearly 2 points. Manhattan, which sold today ex-dividend of 1 per cent, recovered the children and lower point besides. The Grangers were less than of late, but manifested strength, Chicago Great Western leading. The other leading roads, including Sugar, Tobacco, Leather, preferred, Lead and Rubber, showed a somewhat heavy tone and closed at small net changes except Tobacco, which lost over a point. Western Union gained over a point and the common and preferred stock of Pittsburg, Chicago, St. Paul and St. Louis over 2 points. Total sales, \$6,200 shares.
