poned -- Better Business Prospects. New Orleans, Sept. 28 .- T. F. Gill, formerly of Perry county, Mo., and proprietor of the Biloxi Manufacturing company, died today of ye low fever at Biloxi. Four new cases have been reported up to noon in this chy. The usual number of suspicious cases are under investigation, Dr. Guiteras says he is inclined to believe that the vellow fever was imported into New Orleans from the coast towns before it was discovered in Ocean Springs. This, he thinks, accounts for the num-

ber of cases here. He also says that the popular fallacy that negroes are immune has been thoroughly exploded. He thinks the negroes help largely to spread the disease. The death rate about equals that of the Jacksonville epidemic, and exceeds that of the Brunswick epidemic, the latter having been 8 per cent. Four cases of yellow fever from the Home for the Homeless were taken to the Beauregard Yellow Fever hospital. The Home has been closed.

There was no violence attempted last night by the people who have been

making threats against the Beaure gard school. The school board has decided on an indefinite postponement of the opening of the schools. 'Ten days' notice will be given, and those teachers who are out of the city are not asked to return until the fever is stamped out.

PLOT TO KILL

The Success of the Scheme Is Frustrated by an Accident -- A House

Undermined at Warsaw.

Warsaw, Sept. 25.-Though an official denial will be forthcoming, it has leaked out from official circles in such a manner as leaves no room for doubt that there was a deliberate and determined plot against Emperor Nicholas at the time of his recent visit to this city. Its success was only frustrated by accident.

Several weeks before the arrival of the imperial party a number of persons sup-posed to belong to the German socialist party undermined Norvy Sviat, the prin-cipal street in Warsaw, between the governor general's palace and the royal cas-

tle. As the tunnel, which had been under taken from the cellar, f om a beer house approached completion, he conspirators became apprehensive of a collapse of the roadway and called in several Polish masons to build supports. The masons, whose suspicions were aroused, notified the police, and 130 arrests followed.

Among those in custody are founded. Among those in custody are four dis-guised German officers, either on leave or belonging to the Landwehr, which had been active in the actual work of humpeling. DE LOME'S DENIAL.

The Spanish minister, Dupuy de Lome, makes official denial of the authenticity of an interview said to have taken place at Madrid with the Spanish premier, General Azcarvaga, and widely published in this country last Saturday. The minister has been advised that no such interview occurred and that the premier did not see the person claiming to have interviewed him. Under these circumstances a de-trotting meeting at Pimlico and fast time nial is made of all the statements attributed to the president of the council. The interview purported to give the premier's views of the call of Minister Woodford on the Spanish minister for foreign affairs.

ENGAGEMENT AT TRANQUILIDAD

"The facts regarding the reported exodus are that about 4,000 people out of the population of 40,000 have left town during the past two weeks. Very few are leaving. Very many people who could go have not been stampeded and are here now arranging their business. All stores and industrial establishments in town are

open. The reports of the depopulation are sensational in the extreme, As to there being 800 sick, that is untrue. There

are very few sick people. The number of yelow fever cases reported by the Assoclated Press is absolutely correct. The system now in vogue does not admit of

fire fighters, who went on duty at 3 o'clock in the afternoon. No one knew of the catastrophe until the accidental discovery of the bodies; no person heard any calls for assistance, if any were made; how long the men lay in the mine, dead, can only be conjectured, as not a man who was on the fatal "shift" escaped to tell the story. of the awful struggle 200 feet below the earth's surface.

The bodies were found about ten yards apart. In every instance the head pointes toward the mouth of the shaft and the face was buried in the dirt between the rails of the track, showing that the doomed band spent the last breath in trying to reach pure air and life.

AN ALARM GIVEN.

When the first body was discovered an alarm was given to the miners and mine workmen living in the neighboring villages-Mudtown, Rendham, Sibley, Pyne, Austin Heights-and in less than twenty minutes a crowd of over 1,000 people had assembled at the mouth of the shaft. Gaugs of men went into the mine as fast as the carriage could let them down, and at 6.30 o'clock the dead bodies were brought up-one in a stretcher and three laying side by side on a truck.
