Boston Won with Ease.

Brooklyn, Sept. 29.—The Bostons and Brooklyns began a series of three games at Eastern park this afternoon, on which much depends for both teams. Winning all the games will give the Bostons the championship no matter what Baltimore does. A majority of the games for Brook-lyn means a cinch on the only place still left in the first division—sixth. The management had managed to handle a large crowd, but the cranks failed to materialize, and when the game began only about 3,600 persons were present. It was Kennedy against Lewis; and for six innings it was nip and tuck, Lewis hav-ing a shade the better of the argument In the seventh inning Kennedy took a ride in the "air ship" and before he came back to earth he was hit for one three bagger, four singles and a sacrifice, which brought in four runs. This was more than Captain Griffin would stand, and so be called on Payne in the eighth inning. He looked like Kennedy to the Bostons and three more runs were the re-sult, thus elinching the victory. The game was called at the end of the eighth inning on account of darkness. Score

Close Call for Baltimore.

Baltimore, Sept. 29.-Washington went down before the Champions today in a well played contest. The game was characterized by the sharpest kind of ficiling on both sides, Wrigley and Jennings bear-ing off the palm, Nops, while hit for double figures, was very effective in tight places, whereas McJames' six passes to first, two hit batsmen and a wild pitch belped the Orioles to victory. Today's attendance was in marked contrast to that of Monday, the reaction seems to have set in and, though the faithful local 'rooters" are full of hope, the enthusiasm of Monday last was conspicuous by its absence. They Will Box Ten Rounds for a De-

reached here on Tuesday, and his old and new admirers will give him plenty of encouragement at Music Hall, where the two lightweights are to meet in a ten-round bout for a decision. Mc-Auliffe has been lionized by the fra-ternity and has hobnobbed with the city's best known men about town during the two days he has been here. In all this time he has uttered no word of comment on the gamey young Phila-

To day his only work will be an easy walk this morning, a stroll after the noon meal and then a rest in bed and absolute quiet until the hour of the

battle. The prospective demand for seats has been greater than was anticipated. New York, Philadelphia and nearby cities will have delegations at the ringside and this city will undoubtedly be represented by the best audience in quality and quantity that ever gath-

ered at a similar entertainment. A troublesome dispute has arisen between McAuliffe's and Ryan's representatives as to the choice of referee, but the question will be definitey settled during today. The event of the evening will be preceded by several preliminary bouts.

Strange Actions of Farmer Woodward's Carp -- A Few Notes of Inter-

Special to the Scranton Tribune. Susquehanna, Sept. 28.—Farmer Peter Hazen, of Cascade Valley, has a two-headed cow. The unique animal, except as regards cranial peculiarity, is of normal appearance. It is well kept, and has a well-developed body. The left head is, as regards its exter-nal function, inferior to the other. It eats and drinks with the right hand mouth, having full command of the jaw. The jaw of the other head has hardly any power or motion, as it is embedded in the neck. It has three good eyes, and, but for an accident, would possess four. Although the left head is comparatively passive, yet under certain circum-stances, as when the animal is eating, the mouth belonging to that head emits saliva. Although it cannot eat, this mouth can "water," as the epi-cures say. In the center of the forehead of the right head is a deep depression that does not appear in the left head. This would seem to indicate a deficiency of the brain on that side. All speculation on the inner structure cannot well pass the limits of confecture until a post mortem examination is some time held. The bony front in the region of the back of the horns is continuous, apparently, from both sides. In its entirety the animal is myn Press, would call a bloomin' laloo.

They were seen the next year, but no attention was paid to Ryan was on the ground a day earlier them and they were forgotten. Last than his famous contestant and has week some telegraph line repairers been hard at work in Judge's gym- passed through the ravine and unearthed the pumpkins. They had become petrified and turned to stone. Some of them retained their original shape in a marked degree, even to the stubs feft from the vine. Some of the pumpkins weighed fifty pounds. They will be forwarded to the agricultural department of Cornell university.

PREDATORY CARP.

Four years ago Farmer Woodward, of Starrucca, obtained some fine specimens of food carp from the Pennsylvania fish commissions. He made a nice pond in his pasture, placed the carp therein, and waited for fine fishing. He had not long to wait. In two years he was catching two and three pound specimens, and last year city cousins carried home six-pounders. Farmer Woodward had fish to give to his neighbors and to the poor. The carp multiplied and grew rapidly. They soon devoured all of the animal and vegetable matter in the pond, and at night made incursion into the nearby garden, appropriating unto themselves everything green. Farmer Woodward was perplexed, but he consoled himself with the thought that he had the finest carp pond in seven counties. Last week he took advan-
