PAIN'S NEW ANNOYANCE

The Home Government Four Hundred Pamilies Receive Help Racked by a Cabinet Crisis.

EFFECT ON

The Subject Anxiously Discussed at Washington.

General Belief That Sagasta Will Form a Liberal Ministry -- Secretary Sherman Thinks the Conservatives HEARING IN THE Will Continue in Power -- He Confers with the President .- No Report from Woodford.

Madrid, Sept. 50 .- As a result of the terviews which General Azenrraga. e retlring premier, and General Polieja have had with the Queen Rent Her Majesty has become conthat it is impossible to rounite onservatives in order to form a t ministry. Therefore, she has ed the resignations of the min-

The opinion is general that Senor Sarasta, the liberal leader, will succeed

leneral Azenringa. Many of the prefects, under secretaries and director g-nerals of the departments have also resigned.

Washington, Sept. 38.—The fall of the Spanish cabinet excites no surprise at the state department, and it is discussed by its officials with the utmost Soon after President Me-Kinley reached the White House this morning, Secretary Sherman called and spent a few minutes in conversation with him. It is presumed that the Spanish crisis was discussed. At about 12 o'clock Judge Day, assistant secretary of state, went to the White House and was with Mr. McKinley for a short

It is believed here that the fall of the cabinet is the best thing that could happen for Cuba. It is expected genrally that the cabinet will be reor ganized by Senor Sagasta, the Liberal eader, and that, even if his party build see fit to resist somewhat the vances of the United States, his own trong belief that the war in Cuba has, on long enough would serve to en the way for this country to bring It the pacification of the island with | derman Clancy after a believed that in the present crisis eeded to permit the United States gently to lead Cuba from her difficulies and save what is left of American

Secretary Sherman meanwhile leans to the bellef that a conservative cabinet will be formed, and in that event, of course, the relations between Spain and the United States would not be changed materially.

AT WASHINGTON.

Washington, Sept. 30. - Minister Woodford up to noon today had not informed the state department of the Spanish cabinet crisis, and the department was still officially ignorant of yesterday's happenings at Madrid. The main point of interest here at present is the composition of the new cabinet and it is expected that Mr. Woodford will not neglect to obtain and cable to his government the earliest inormation possible on that point. administration circles today opinions are fairly divided as to the outcome whether the new cabinet will be Liberal or Conservative, and as that is the matter of gravest importance to our government, as influencing the line of pelicy to be followed as to Cuba. there is a strong desire to obtain inormation regarding it.

The president had scarcely reached the White house this morning before Secretary Sherman called to see him He was closely followed by Assistant Secretary Day, and, although it is understood that the latter's visit had largely to do with the state departent appointments, it is not doubted that there was a discussion of the latst Madrid developments.

In the absence of the Spanish min ister, Mr. Du Dose is the senior oficial here, but he has not called at the state department, and so far as can be learned, has not received official advices from Madrid, Diplomats familiar with Spanish affairs say the conditions point to one of two results: the complete collapse of the conservalive regime which has been responsible for the Cuban policy, and its succession by a liberal cabinet with pacific and conciliatory tendencies toward Cuba, or else a transition ministry, with Azcarraga again at the head as temporary expedient to tide over affairs until the Cortes can meet and a permanent and stable ministry be formed. Officials believe that a complete change of ministers and political parties, with Sagasta as the new eader, is the more probable. In that rould become minister of foreign afairs. Moret is best remembered in he United States from the fact that he was the first to recognize the Mora claim presented by the United States. They are at present regarded as the mainstay of the great national strike. Although Heavily Armed and Outnumbered by Strikers Ten to One, They Refrained from Shooting and Fought with Their Fists -- Several Deputies Are Severely Injured by the Mob.

STRIKERS BEAT

Edwardsville, Ills., Sept. 20,-The prudence of a body of sheriff's deputies who were willing to take a whipping rather than use gun powder, perhaps averted a repetition of the Lattimer, Pa., tragedy, here today. When the miners of the Madison Coal company went to work this morning, they were set upon by a mob of strikers, who were egged on by a score or more women sympathizers. Clubs, stones and cayenne pepper were used as weapons, and one miner had his skull crushed, many others were cut and bruised, and e clerk of the coal company was neary blinded by pepper.

The strikers, more than 300, with the comen, far outnumbered the workers, who were guarded by a force of deputy sheriffs on their way to the mine. W. McCue, a deputy in the escorting posse, was disarmed and dragged to one side where a crowd of irate strikers beat him with their fists and clubs until he was almost unconscious. Many more of the workers and deputy

sheriffs were injured, and several of the strikers, including the women accompanying them, received wounds. Though heavily armed, the sheriff's officers took their drubbing without making any attempt to use their guns. They were outnumbered ten to one, but they fought with their fists. Had a shot been fired, the consequence would have been fearful, as the strik-

ers were frenzied. CAUSE OF THE TROUBLE.

The riot resulted from a partially successful effort to work the Madison Last Friday Superintendent W. H. Glass promised protection to those who would go back to work. Evry morning for nearly a week the miners have marched to the mines under guard of Deputy Sheriff Dillon and a posse of ten men. Last night the

Edwardsville strikers were reinforced by men from Troy, Collinsville, Moundsville and Staunton, The deleresented by David Wilcox and David gation from Glen Carbon brought thirty women with them, and these were the leaders in the riot. It is rumored that more strikers will reach here during the night to help intimidate the non-union men. Superintendent Glass, of the mines, said today that the force of deputies would be increased tomorrted to the mines in safety

They express themselves as pleased with their treatment in Hawall, and interested in all they saw, Senator Morgan, of Alabama, will remain at Honolulu for several weeks

It is asserted in Honolulu that when the question of the annexation of the Hawalian Islands comes before the United States senate, England will make a protest. This protest will not be of a belligerent nature, and, it is alleged, is only the forerunner of a scheme to obtain use of Neckar Island for cable purposes. The island is almost a hear of volcanic rocks, nearly 300 feet high, with a few patches of coarse grass on its surface,

CHARGED WITH BLACKMAIL.

Former Pittsburg Strike Lender Arrested in New York.

New York, Sept. 30,-Colonel Robert A. Ammon, William Sweetzer and William Wood, lawyers, have been arrested, charged with blackmailing Samuel Keller, former manager of the E. S. Dean company, discretionary pool operators, who failed in March last. The arrests were made last night at Mr.

Keller's residence According to Captain McClusky, chief of the detective bureau of the New York police department, the evidence of the blackmall was found in Sweetzer's possession and detectives saw the money passed. Captain McClusky said that after the closing of the E. S. Dean company's offices, Keller was arrested on a civil order of arrest and later discharged. Ammon & Sweetzer were his lawyers in the case and after Keller's discharge the lawyers took Wood into partnership with them and, it is stated, began writing letters to Keller, declaring they held certain documents, the production of which would send Keller to jail for a long time. In these letters, Captain McClusky says, there was a declaration that the lawyers would

destroy these documents for \$39,000. Keller consulted with his lawyers, and the matter was laid before Captain McClusky. Keller was told to write a row to a number sufficient to protect letter acceding to the lawyer's demands the miners, and that the workers would and making an appointment of meeting them for the purpose of handing over a portion of the money. New York, Sept. 30 .- The Democratcity convention tonight nominated Robert A. Van Wyck, for mayor; Bird S. Coler, for comptroller, and Jacob C. Ruppert, jr., for president of the coun-

ral and inefficient administration." The "prodigality, inefficiency and hyprocisy" of the present city adminstration is condemned, and it is said to have produced "a corrupt, expensive, fractious, discordant, intolerant and inapable government, that has impaired the credit, increased and augmented the debt of the city." The platform declares for home rule

in city government and denounces the dictation of the state legislature in municipal affairs. Laws that "curtail the personal liberty of the citizen in the practice of innocent customs and in the pursuit of harmless pleasures" are condemned and their liberal administration is demanded until they are re-Opinion Is General That Sagasta Will peated. Sheehan, who nominated Congressman Amos J. Cummings for temporary chairman. In his speech on taking the chair, Mr. Cummings said:

This is an age in which associated wealth is marshalled, organized and equipped for municipal, state and national control. Gradually and steadily it has taken possession of the citadel, seized upon all its approaches, and new raises its brazen front to terrify all who venture to question its supremacy. Want, if it does not obey its mandates, is threatened with greater want. Destitution, humiliation and finally death follow in its wake. Millions in a day made by a government pawnbroker is halled as a great achievenent, while honest wages are deplored as an intolerable burden upon the sayings of the pawnbroker.
