DISSATISFIED MINERS.

Those of Stanton No. 7 Held a Meeting Testerday.

Wilkes-Barre, Sept. 20,-The miners employed at the No. 7 colliery of the Lehigh and Wilkes-Barre Coal company have for some time been dissatisfied with their treatment by the mine officials who, they claim, have been docking them excessively. They also claim they are compelled to crect brattice work and receive no compensation for their work. With the idea of formulating a list

of grievances to be presented to the company several hundred of the employes held a meeting yesterday morning, and discussed the questions under consideration and later a committee of seven was appointed to wait on Wil-Ham Thomas, the mine foreman, and ing stands was completed by the paypresent their grievances. Mr. Thomas committee anite cordially

reived the

Wall Street Review New York, Sept. 30 .- There was no

sign of anything in today's stock market to give encouragement to the hope of those who profess to believe that the market has run its course so far as reaction is concerned and is ready to esume its upward course. The character of the dealings did not differ in iny respect from those of yesterday. Prices were raided down with great facility and the declines invited large offerings. The slight rallies which occurred a few times, on the contrary, ed to an almost total cessation of activity and the upward course of prices was halting and difficult. The net decline achieved today is very much greater than that of yesterday only because the bears reserved their greatest efforts for the last half hour of trading, leaving no opportunity for re-covery before the close. This was apparently owing to an excess of confidence on the part of the bears, who

were content to leave their short con-

but said he was unable to grant their request, as in the first place he did not consider the dockage exorbitant, as tract. out of 618 cars of coal hoisted out of the shaft yesterday, only six quarters had been docked for light loading, and the remainder of the dockage was on account of slate and dirt. As the men's grievance was that they had been docked for light loading, this part of their grievance was met and set aside, The men, however, claim they are being excessively docked and complain of the docking boss. Regarding the second article of the

men's grievance, Mr. Thomas said that was a matter in which he could not help them. He said: "We have been and still are paying you for setting props, and as the only reason we have for placing props is to furnish you with something to nail the brattice to I think we are doing all that can be expected, and if you refuse to place brattice or props at the same rates as at present I can see only one way out of the difficulty and that is to declare your chambers idle whenever gas is found and have them remain idle until I can send company men to do the work.

This ended the interview and the ommitte returned to the Empire base ball grounds, where the meeting had been held and where the majority of the miners were still waiting to hear the report. It was agreed that the grievances be

put in writing and presented to Superintendent Lawall with a request that he give the matter his personal attention and have the grievances adjusted. The men are of the opinion that Mr. Lawall will see that justice is done.

FIRE BOSS KILLED.

Evan Pugh, of Pittston, Struck on the Head by a Small Rock.

Pittston, Sept. 30 .- By the sudden and unexpected falling of a piece of rock, which weighed but little more than fifteen pounds, Evan Pugh, one of the fire boss s in the Clear Spring mine, near Pittston, was instantly killed about noon today. Pugh was superintending the erection of a set of timbers in No. 4 lift, when the rock feil and struck bim on the back of the head and he dropped to the ground Even his associates did not think him seriously hurt, but on examination he was found to be dead.

The rock was very sharp on one of its edges and it is thought to have fractured Pugh's skull. The deceased G. C. Miller's on Wednesday even fire boss was considered one of the most competent men in the employ of tian Temperance union, was a sucthe Clear Spring company and was
