OBITUARY.

Mrs. Ann Davies, aged 69 years, died

yesterday afternoon about 2 o'clock at the home of Mrs. Anna Owens, on West

Market street. She first came to North Scranton about eight weeks ago, and

made a living by selling dress goods and various articles. She was refined and appeared to have enjoyed high edu-

cational advantages. The many people whom she came in contact with were astonished by her learning, and approached her as to her past. She evaded all such questions, but some times would

say that she was a woman of much wealth at one time, but business reverses

caused her downfall. Those who were

in attendance at her death bed tried in vain to make her disclose some informa-

tion that would lead to her identity or the whereabouts of her relatives. She

died, however, without leaving any per-son know her former home. The suppo-

sition is that she originally came from

FIREMEN PREPARING.

Franklin Engine Company Will Entertain Huntingdon Company Friday. Programme for the Occasion.

Franklin Engine company, No. 1, and Columbia Chemical Engine company, No. 2, both of this side, are actively preparing for the parade on Friday next. Judging from the arrangements made thus far, West Scranton will be well represented. Both companies will decorate their respective engine houses

with bunting, flags, etc. On Friday morning the committee of arrangements of the Franklins, comprised as follows: Richard Davis, chairman; Bert Kime, Frank Hutchinson, Zeno Derby and Common Councilman Simon Thomas, will meet Huntingdon company, No. 1, the crack fire company from Huntingdon, Pa., at the Delaware and Hudson depot and escort them to the Franklin quarters, where they will be royally entertained as Franklin's guests. The visiting company will not bring their apparatus, but will come forty strong and be accompanied by a band of twenty-five Their company's leader will be Gilbert Greenburg, chief of the Huntingdon Fire department. Upon reaching quarters, the guests will be served light refreshments and later will be served dinner at Fairchild's hotel. In the afternoon both companies will march together in the parade. The guests will precede the Franklins, readed by their own band, while the Franklins with apparatus, spick and span, will march behind Crump's band. At the close of the parade the visitors will be entertained at the engine

egin at 5 o'clock, as the visitors must return to Wilkes-Barre that evening.

The Columbias, unfortunately handicapped by the non-arrival of their new chemical engine, have not decided yet whether to use the substitute apparatus, the old Neptune hose cart, or to attach the team to a barouche, for he officers. Chief Hickey kindly gave them permission to do either, as they were inclined. Though their engine has not materialized, the new uniforms will be ready and the company, twenty in number, will present a creditable appearance. In the evening the company ill conduct a fireman's ball at Music | field avenue, has returned from a visit hall, at which they expect to receive at Portland. all visiting firemen.

TO LOSE DRIVING PARK.

Owners of the Plot Propose to Have Grand Stand and Stables Removed and Cut It Into Lots.

Scranton is to lose its Driving park. The track and grandstand and other buildings are to be removed at once and the big plot cut into building lots for immediate sale.

Bids for removing the buildings and fences and grading the plot are now being solicited by the owners, the Williams Land company, and the contract will be let Oct, 15. The company is composed of J. J. Williams, of the Merchants' and Mechanics' bank, president; Thomas Moore, George D. and Morris D. Brown, H. B. Reynolds, C. H. Welles and Edward Jones. The latter resides in Olyphant.

The determination to follow the original building lot plan was reached on account of the forfelture of the lease of Wilbur A. Rice, who gained the credit this summer of giving Scranton the best horse races in its history Even with the forfeiting of the lease, George Brown and others of the company advocated the continued use of the property as a race course. They were outvoted, however, although several thousand dollars had been spent by the company in erecting the immense grandstand and new stables and in making the track one of the fastest half-mile courses in the east.

It is proposed to have the buildings removed at once and to begin the grading of streets at once, so that much of the work may be accomplished before severe cold weather. The proper survey of the plot was made three years ago, soon after the Williams company made its purchase and before it was intended to lease for drivng park purposes.

Scranton horsemen will regret the company's plan and it is not improbable that an effort will be made by influential admirers of "the sport of kings" to induce the company to restreet, took place yesterday afternoon.

Miss Nellie Ruane, of New York, is the
guest of Misses Lizzie and Bridget Jenconsider its determination. Failing is this, a company may be formed with sufficient financial bottom to pay cash or give a proper guarantee for a several years' lease. In such an event the company might agree to rent.

NOVEL FIRE ESCAPE.

Crawford, of 305 North Hyde Park avenue, this city, that you will escape injury. No matter what the height, Crawford's will make you think you struck a feather bed-if you happen to hit it.

The invention has the ear marks of novelty at least. Mr. Crawford has for many years read in the papers of appalling fatalities at fires where so many people met death by jumping from windows to the ground. capes" and "escapes" have been invented but most all were of the kind which not only add to the unsightliness of the buildings on which they cling like grape vines but in some emergencies it is very impracticable to walk down an iron stairs made golden by deadly flames.

Mr. Crawford's invention covers a point never touched before this time Crawford's "fire-escape" is simply a big box with two doors on the top which when open disclose a set of matresses under which are a series of springs. The doors when open presents a cushioned front and the inventor means that the person in jumping from a widow will strike the matresses of the box and these will break the The body may hit one of the doors but the cushions will propel it

to the interior of the box. Mr. Crawford intends that one or more boxes should be in possession of a city fire department or individuals nay purchas: and use the "escape" in time of fire. Mr. Crawford is seeking to have a test of the "escape" made in this city under Chief Hickey's direc-

Those desiring information concerning building operations or builders can apply there and be accom modated. A special meeting two weeks hence will be held for the purpose of ompleting the details.

The fact that there has been a profit destroying competition among the contractors has led to the present idea. Members of the Exchange will have an understanding about all big contracts and no member of the Exchange will figure on any work that a contractor not affiliated with the exchange is permitted to bid on. A builders' exhibit during the coming

BURLINGTON YOUNG LADY TELLS THE STORY OF HER RESCUE.

From the Clipper, Burlington, Vt.

A reporter called upon Miss Lillian Warner at her home, 415 St. Paul Street, Burlington, Vt., and begged the favor of an interview.

The young lady is a musician and a pianist of considerable renown, and has her time fully occupied by engagements to play at concerts and other entertainments that are constantly taking place in the city, and the strain upon the strength and nervous energy of the pianist can be easily imagined.

"I never could have stood it ence, but I have something now," said Miss Warner enthusiastically, "that braces me for my work. Some little time ago I was utterly unable to attend to my duties, owing to a disarrangement of the nervous system that effected my eyes with all the rest. They became so weak and troubled me so that I finally went away into the country to rest. The benefit obtained from the change of scene and freedom from care was, however, mercly temporary and upon my return to make the business part of the time being.

Dr. Williams' Pink Pills for Pale People are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' mercly temporary and upon my return to make the property of the country to rest.

ally went away into the country to rest. The benefit obtained from the change of scene and freedom from care was, however, merely temporary, and upon my return to work I rapidly lost all that I had gained and more."

"But did you consult a doctor?"

"O yes, indeed; I put myself under the care of several doctors, and even tried many remedies recommended for cases like mine, but the medicines had no lasting effect, and it looked as though nervous prostration was to be my portion.

"I was about ready to 'throw physic to the dogs' when I first heard of Dr. Williams' Pink Pills for Pale People are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, that tired feeling resulting from vous prostration, all diseases resulting from vitated humors in the blood, such as scrofula, chronic crysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and are sold only in boxes bearing the firm's trade-mark and wrapper at 50 cents a box or six boxes for \$2.50, and are never sold in bulk. They may be had of all druggists.
