CHIMNEYS RARELY STRUCK. A Column of Smoke is a Means of Protection Against Lighting. Many statistics show that of 10,000 smoke-stacks only three are struck by lightning during the year. One of 10,000 chimneys are struck by lightning annually. It has been endeavored to explain this condition by the fact that the smoke discharged from the smokestacks carries the electricity assembled around the building along and distributes it in the air, whereby the source of attraction for the electric spark of lightning is not only diminished, but almost disappears. This also explains why people in the country kindle a fire during the winter months when a thunder storm is approaching.

A WOMAN'S LETTER. Concerning Dr. Hartman's Free Treatment for Women. I received your book on Gynecology and commenced the use of your medicine at once. I took five bottles of Pe-ru-na and two of Man-a-nin. I feel like a new woman. When I commenced taking Pe-ru-na I could hardly walk across my room; now I am doing my own work. I can walk a mile and a half to church. I shall never cease to thank you for prescribing for me. I had been under the treatment of two doctors, but never received any benefit until I commenced taking your medicine. I am now well and able to do my own work. I wish every woman who was suffering as I was would send for one of your books on Gynecology. It is a God-send to suffering women. May God bless you and spare you many years to relieve women who are suffering as I was. I am anxious for every woman who is suffering as I was to know what your medicine did for me.

Mrs. H. D. Amoss, Greensboro, Ga. A free book written expressly for women by Dr. Hartman will be sent to any address by The Pe-ru-na Drug Manufacturing Co., Columbus, Ohio.

THE MARKETS.

New York, Oct. 8.—The bulls were apparently impressed with a belief at the opening of the stock market today that the beginning of the import movement of gold would effect a turn in the market and send prices upward again after the long sustained reaction. Their confidence was disappointed very soon after noon and the market became almost lifeless. Business was of the lightest possible description and fluctuations were narrow and unimportant, many prominent stocks being entirely neglected. The market seems to have swung to a standstill. Totals sales for the day were only 232,000 shares.
