### CAUGHT BY BUMPERS.

#### Serious Injuries Received by Dwight Rhinevalet.

While Dwight Rhinevalet was engaged in coupling cars at the foot of Davis' plane, on Thursday afternoon, he received serious injuries. He attempted to couple some cars for the trip, when his arm was caught between them. It was more than fifteen minutes before the men who ran to his assistance could extricate him from his position, where he was suffering great pain. When taken at last from the track and brought to his home, Drs. S. and A. Niles found the collar bone fractured, also the left arm below the elbow. The little finger of the hand was so injured that its amputation was necessary. The bones are not yet set, but the surgeons hope to save the arm.

All who witnessed the accident speak of his fortitude in bearing the terrible pain while in the awful position, before he could be relieved.

## Try Grain-O!

It takes the place of Coffee at about 1-4 the cost. There has recently been placed in all grocery stores the whole some table beverage called GRAIN-O, which completely takes the place of coffee. IT IS A FOOD DRINK, full of health, and can be given to the children as well as the adult with great benefit. It is made of pure grains and looks and tastes like the finest grade of Mocha or Java coffee. It satisfies everyone. A cup of GRAIN-O is better for the system than a tonic, because its benefit is permanent. What coffee breaks down Grain-O builds up. Avoid cheap bran imitations claiming to be the only original. Weigh a package of Grain-O and you will see that it is solid grain. Ask your grocer for Grain-O. 15c. and 25c. per package.

### ARCHIBALD.

The outside employees of the Delaware and Hudson White Oak breaker gave substantial tokens of their admiration for Foreman Thomas Law, who recently resigned by presenting Mr. Law a gold medal and a case of medicine. The case is as follows: "Presented to Thomas Law by D. & H. employes on his retiring from foremanship. The medal contains the following: 'A token of esteem and respect to Thomas Law from employes at White Oak breaker, year 1897 to 1897.' The gifts were accompanied by a letter from the men giving evidence of the esteem in which the retiring foreman is held by the men who thus expressed their gratitude for his great acts of kindness and consideration that has marked his official career of nearly twenty-seven years. Mrs. Lillian Hale, of Scranton, is visiting her sister, Mrs. R. J. Uren."

When a woman falls overboard she sometimes drowns when there is a life buoy just within a few strokes of her--all because she doesn't happen to see it. Such people often perish in the same way. Help is within reach, but they don't know just where it is. They become discouraged and disheartened and die taking medicine and give up in despair. Mrs. Mary J. Stewart, of Saratoga, Santa Clara Co., Cal., in a letter to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., says: "I suffered for fourteen years with female weakness, nervousness and general debility trying everything I could find to help me--all to no avail. Although I was thoroughly discouraged and disgusted with taking medicine I heard of Dr. Pierce's medicine, I thought I would try once more to find relief. I took the 'Golden Medical Discovery' and 'Favorite Prescription' and to my great praise cannot be given for the rapid relief they gave me. I am now free from the former troubles, and may God bless Dr. Pierce in all his undertakings to cure suffering humanity. Thousands who had reached this forlorn and hopeless condition of body and mind have found new hope and rescue in the use of these marvelous remedies. Dr. Pierce's great thousand-page book, 'The People's Common Sense Medical Adviser' is sent free in paper covers for 21 one-cent stamps to post cost of mailing only, or cloth-bound for \$1 stamps. Address, Dr. R. V. Pierce, Buffalo, N. Y."

Rev. E. Thompson, of Cataleis, Washington Co. Vt., writes concerning this great work: "I am charmed with the style and general subject matter of the 'Common Sense Medical Adviser' and highly recommend it as a valuable addition to any carefully selected library. The purpose of this little book is to make one who is also pleased with the refined and at the same time fearless way in which you handle those delicate subjects pertaining to biology, thus making the work admirably fitted for the young."
