### TRAFFIC DELAYED ON THE GRAVITY.

Yesterday morning the crank shaft of the No. 4 engine house on the gravity railroad broke down early in the day, so that all traffic was suspended for several hours. The early passenger train did not run to Honesdale. Some time after 1 o'clock the small narrow gauge engine, "Major Sykes,"

The physical existence of mankind is something like an account in a ledger. It starts with a debit on the debit side—disease on the other. All the pure air, good food, rational sleep on one side of the account. It sums up health and strength. On the other side, are bad air, poor food, overwork and worry. That foot up weakness and disease. When your appetite or sleep is disturbed; when the stomach and liver are not working properly; or the bowels are not in regular condition; you are losing vitality and strength; figures are going down on the wrong side of the ledger. The system is stopped and the other side of the account is built up, you'll soon be a physical bankrupt.

The most profitable account a sick man can open in his ledger of life is with Dr. Pierce's Golden Medical Discovery, a wonderful and most effective remedy in the world. His "Pleasant Pills" are the most perfect and scientific cure for constipation ever invented. They are not violent in their action, but perfectly sure, and at the same time comfortable. Their great reputation has called out a score of imitations, which druggists sometimes try to substitute, but there is nothing "just as good."

## FOOT BALL GAMES.

Superior Training of the Tigers Proves Effective—Other Important Contests Yesterday. Princeton, N. J., Oct. 12.—For ten minutes of the first half of the game between the Tigers and the Pennsylvania State college, every indication pointed to a repetition of last year's game with Lafayette, when Princeton could not score. The Pennsylvania men were giants, when compared with the variety in height and weight, and played splendidly for ten minutes, twice nearly making touchdowns on fumbles by the Tigers and downing the variety backs time and time again without gain. But the Tigers' superior training told after that. Throughout the game the state college gave Princeton the hardest practice and the full strength of the Tigers was needed. Princeton's touch-downs were secured by Wheeler, Barnard, Suter and Ayres. The score was 24 to 0. Brilliant runs were made by Kelly, Barnard, Ayres and Curtin, the feature of the game being a 165 yard run by Barnard for a touchdown. The line up:

## OLYPHANT.

The borough council met in regular session on Tuesday evening. The regular order of business was suspended to hear the suggestions of a committee from the school board, who asked council to furnish electric light to the First, Third and Fourth ward schools, and also place an arc light near the Central school building. The motion was referred to the light committee. Mr. Tinker, representing the Game-well fire alarm system, was present and explained the system in detail. The system works automatically and in an alarm the engine coming from the engine house is sounded immediately. Ten boxes he thought would be sufficient for this borough. The cost of the system will be \$1,500 to be paid in two years' time. A Wilkes-Barre firm was also represented, their system costing much less than the Game-wells. After some debate on the question the Game-well system was adopted, and the committee instructed to make arrangements and have it put in at once. Mr. Gaman moved that the borough bills be acted upon collectively. The motion passed. Three bills were read from officers of the board of health for services rendered. Mr. Patten objected to acting upon these. A vote was taken, however, which resulted in tie. The bills were all laid over till the next meeting. The deed for the lot recently purchased on Hill street, was ordered put on record by the attorney. An ordinance was introduced by Mr. Tinsley for the purpose of taxing poles and wires in the borough. It was handed to the borough solicitor for advice. Burgess McNulty made his quarterly report as follows: Collections, \$11,500; expenditures and services, \$39,500. He also reported that a number of licenses exist in the borough in regard to the unhealthy surroundings in some localities, particularly so in the Hungarian flats. The street committee will investigate. Secretary Schumehl made a partial report of the electric light account for the month of September the collections amounted to \$272, the number of lights in use being 795. Mr. Tinsley reported that the street committee had selected a fountain to be erected at Mahon's square at a cost of \$200. It was then adjourned to meet Friday night. Goodman & Weiss have purchased the property of John Taylor on Lackawanna street, which is at present occupied by J. E. Bruglar. Consideration.

The Newark School Shoes. We ought to sell ALL of the School Shoes that will be sold in Scranton this fall. But we won't. Some people are such poor judges of QUALITY that they would pay \$1.00 for a shoe that is nearly all shoddy, rather than pay \$1.25 for a really good shoe. These people's trade we won't get. We will get the trade of people who like to make sure of what they are buying. We are better prepared than anyone else to serve such people and we will sell them school shoes "for any other kid" that will prove cheaper than any other shoe they can buy.
