SELECT COUNCIL AT WORK.

R. D. Stuart, esq., appeared before the select council on Monday evening in behalf of Mr. Atkinson, who wished to be released from the Spring street sewer contract because not having been able to get the terms of the contract he could not attempt to work so late in the season. After some discussion as to getting it upon the records. a resolution was drawn, read, referred to the committee, reported and then passed in the regular order of business. The controller addressed the council and explained some features of his report read last week. A correction was made showing \$795 rents to be added to the revenue of the city. The deficit will thus be about \$2,000. The opinion was expressed that bonds should be issued in order to meet this deficit. The communication was referred to the finance committee. A resolution was adopted, passing the South Washington street grade over the veto of the mayor. Various matters were considered and referred to their proper committees.

MEETING OF COLUMBIAS.

At their last meeting Columbia Hose company considered plans for the purchase of another team of horses. It appears desirable that the city should join with them in carrying out their plan. A committee to present the subject to the select council was appointed as follows: W. J. Klipatrick, Abe Sahm and William Peel.

BUNCOERS ABROAD : BEWARE

It is the trick of the Bryanized Democracy this fall to make false charges against Republican methods, raise a big dust, hire Republican maicontents to organize Republican bolts and then coax individual Republicans to desert their party on the representation what "party ties needn't count for anything in an off year." By this trick, if it shall work, the Bryanites will get a foothold for a hopeful fight in national campaigns, and make just so much more trouble for McKinley, the Ropublican congress and the cause

of sound money. You now see through this trick. Are you going to let it work?

JERMYN.

A PECULIAR REMEDY. Something About the New Discovery

for Curing Dyspensin. The Rev. F. I. Bell, a highly esteemd minister residing in Weedsport, Cayuga Co., N. Y., in a recent latter writes as follows: "There has never been anything that I have taken that

has relieved the Dyspepsia from which have suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating and again after long years CAN SLEEP WELL, Rev. F. I. Bell, Weedsport, N. Y., formerly Idalia, Colo." Stuart's Dyspepsia Tablets is a re-markable remedy, not only because b is a certain cure for all forms of indi-

gestion, but because it seems to act as thoroughly in old chronic cases of Dyspepsia as well as in mild attacks of indigestion or biliousness. A person has dyspepsia simply because the stomach is overworked, all it wants is a harm-

less, vegetable remedy to digest the food and thus give it the much needed rest. This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets will digest the food whether the stomach works or not. New life and energy is given not only to the stomach but to every organ and herve in the body. A trial of this spfendid medicine will convince the most skeptical that Dyspepsia and all stomach troubles can be cured. The tablets are prepared by the Stuart Chemical Co.,

of Marshall, Mich., but so popular has the remedy become that Stuart's Dyspepsia Tablets can now be obtained at any drug store at 50 cents per package.

THE WORLD'S CAPITAL. The most interesting station on the betrothal journey is the capital of the orld, Andropolis, founded in 2501 and inhabited by 10,000,000 persons. site is at the foot of the Himalayas. In this city every family, every spinster, every isolated bachelor, every widow has a separate house. Such apparent extravagance is possible because in the year 3000 houses do not cost much they are no longer built, but are merecast out of a new-fangled metal pretty much as a plaster of Paris bust is cast nowadays. The city is built in squares; every street is seventy feet wide; and-evidently Mantegazza has in mind here some vexatious nineteenth century restrictions on wheelbidden ground for the bicyclist. In

the whole capital there is neither policeman, judge, nor soldier. The few public officials always at the capital have charge of the distribution of light. heat, water and power from the central stations. Prisoners are unknown to the people of the capital. In their stead there are a few moral reformatories, whose inmates are marked, upon release, with cloth strips on the arm indicating by their color the nature of each mans offense. These strips must be worn until the friends of the offenders agree that the reformation is com-Mantegazzi dwells at length plete. also on the laws which make comput sory the culture of the beautiful in trees, flowers, sculpture and painting.

The consequence of these laws in th year 3000 is a paradise of flowers and statues through Andropolis. The government of the future, as ex-

emplified in Andropolis, is too easy to need much explanation. The "Paucrates," chosen, as are the representatives of the world, for one year, lives in the one paince left on the face of this earth.
