### Big Republican Meeting only in national elections and is willing at other time to keep them company, is Held at the Lenox Lyceum.

#### SECRETARY BLISS SPEAKS

### An Audience of Over 1500 Listen.

General Tracy and Governor Frank Black Also Address the Audience. General Tracy in His Speech Dwelt Largely Upon Brooklyn Politics, Henry George at the Brooklyn Academy of Music .- Seth Low Talks at Plushing.

New York, Oct. 20.-General Benjamin F. Tracy, candidate for mayor; Secretary of the Interior Cornelius N. Bliss, and Governor Frank Black ad-dressed an audience of 1,500 persons at a Republican meeting held tonight in the Lenox Lyceum here. The speakers and their speeches were enthusiastically applauded. This is the first time Secretary Bliss has spoken in the great municipal campaign.

ductory remarks, said: Situated as I am, separated somewhat from the political activities of the town, I have had an opportunity to look over the ground from a distance. I have seen the Republican party-my jurty and your party-with the doors wide open all the time to make arrangements to give all who desire good government a chance to combine for one great success. I have seen their efforts despised, until you have risen in your majesty and made your own nominations. In my soul and heart I approve what you have done, and I am with you and with your noble candidate for mayor as against all the world. Why should this be so? I remember

Secretary Bloss, after a few Intro-

twelve months ago when men came to my office in this city, with pale faces. Taey said: "Is it possible that the Bryan busdoubted; they feared. When election came it was all right, but over six million votes were cast in support of the Chicago platform. That light is not over. That light is continuing all over the country, and it seems to be expected by our some time friends that we are to submit and let these people get their way. There are two candidates in this town standing on the Chicago platform—one squarely, the other not saying much about it but stand

ing there just the same.

The state of Kansas is raising money for George's campaign. A fund to elect George is being contributed by Kansas Populists. I can say that I hear from all over the country, "what is New York go-ing to do?" They ask, "are the people of New York going back on what they did last year?" That is the question. There s but one thing for the great Republicar party in this state to do. It is to get behind Benjamin F. Tracy, elect him mayor of this great city and guarantee for four years honest government in every way and concurrence with the country in hon-est money and the killing of anarchism

### OVATION TO GENERAL TRACY.

When General Tracy rose to speak was not so lasting as the one he got on Brooklyn politics and made an argument against the Citizens' union. Governor Frank Black, of New York was the next speaker. He said, in

This is no time for honest men to keep their faces from the light. We are just but emerging from a period so critical that its full significance will not be seen for many years. We have only passed the point where dispeter seemed almost cer-tain; we are slowly gaining, but are still within reach of that disaster if through erence or design we invite it to re-If this year we relax a single effort or do but little where we might do more, we are no wiser than he who, stricken with fever, yields himself to folly and improdence at the first sign of returning

Less than a year ago the whole country was engaged in a political contest almost the gravest in its history. Mon were then aroused are only war had ever aroused The menace attered at Chiugo in July had before November driven thousands from the associations of a lift time, and had forced them with new alli-ances to meet the peril then impending. They had heard all their lives of issues in political campaigns, but those of last year were not questions of policies or of men, as they had been mainly heretofore but issues that involved the permanenof government, the safety of society; and when these things are reached and lost the true friends of the republic may well be fearful of its future. The heresies that were loud and defiant last year have not been converted or subdued. They are active, hopeful and determined, and descrtions from their ranks are few. Those who are now falling down or retiring from the fight or interpreting visitons of their own come mainly from the ranks of those who then tought for order and the supremacy of law. It is a strange element hose who pursue an evil object while the riends of a just cause will soon grow weak and scatter.

### THE SAME OLD ENEMY.

Contests are now waging in many states and cities of this country. The same army that threatened us last fall is again abroad under the same commander, in he same cause, with the same purposes, but moving in smaller groups. Every victory they win now in separate companies, ev-ery element of strength you permit them to acquire in detachments, will be used against you in every contest hereafter, when their forces are n assed again in one complete and perchance victorious army The issues now are the issues of last year. There has been no attempt to change them, and they are not even disguised by phraseology. In every spot where the fight is on, it is waged on the lines of St. Louis and Chicago. Socialism, anarchy, Junk money and every wild-eyed hybrid that stared through the Chi-

himself a dangerous citizen and unworthy of his privileges. You cannot divorce a city from the size, a state from the country, any more than you can drive a citizen from his community. All are interwoven and dependent. A man who does not realize this fundamental truth, self-evident and so necessary to our presentation and so necessary the source of the source servation and our growth, does not un-lerstand the basis of the government un-ler which we live. And yet in these times we are told that political contests should be fought upon non-political lines. I utterly repudiate that doctrine, I be-

lieve in the principles of the Republican party not for a day or a year; not with inrmittent and varying fidelity, but for all time, as the best expression of a pohose who, enjoying the marvelous rights of citizenship, would prepare themselves to mee, its grave demands. I believe in partisanship always, for when devoted to noble purposes, it attains the plane of pa-triotism. It should never fall into disuso brough indifference of those who would vercome us when they have lulled us to

#### HENRY GEORGE'S MEETING.

A Henry George meeting in the Brooklyn Academy of Music tonight called forth an audience which filled the big building to overflowing. The principal attraction was the appearance of Henry George in Brooklyn for the first time during the campaign. Mr. George was received with tremendous cheering, at the conclusion of which he began an address that was interrupted repeatedly by prolonged applause. He made his customary appeal to the "true Democracy" in the name of Thomas Jefferson.

A second meeting was held in the Clermont avenue rink, Brooklyn, where in immense audience was addressed by Mr. George.

Seth Low addressed a large meeting n Flushing tonight. The executive committee of the Manhattan Democracy-so-called Steckler Democracy-unanimously indorsed the Citizens' union ticket tonight and issued an address to the people giving

the reason for so doing. The breach in the Henry George ranks caused by the refusal of the United Democracy to indorse the Citizens' union end of the Jeffersonian Democracy ticket and later Henry George's refusal to allow his name to appear at the head of the United Democracy ticket, was healed tonight in a conference between the United Democracy and the Henry George caminess is to succeed, that disorder, social-ism, anarchy are to be the fate of this great country? People were pale. They Democracy.

#### Council Votes Against the Treaty of Dawes and Creek Commissioners.

Muskogee, I. T., Oct. 20,-The Creek council, in session at Okmulgee, I. T., vesterday evening rejected the treaty recently agreed to by the Dawes and Creek commissioners. The vote in the lower house of the

council was unanimous against the treaty and only eight members of the house of kings voted in favor of it. The councilmen objected to the treaty principally on the ground that it favored the non citizens and the railroad companies, to the detriment of the Creeks, and did not give each citizen pro rata of all lands in the Creek na-

An endless amount of litigation will toubtless be the result of the council's rejection of the treaty, as the act of congress which takes effect on Jan. 1. 1898, abolishes the Creek courts, places the members of the tribe under the jurisdiction of the United States courts and makes their acts of council of no force until approved by the president of the United States.

### WORLD'S PACING RECORD REDUCED

#### Patchen's Wonderful Feat a Joe

BEFORE A FOUR-WHEEL SULKY The Big Black Takes the Place of Star Pointer and Paces Against Wagon and High Wheel Sulky Records .- Former Time Held by W. W. P. at Terre Haute Lowered.

Joliet, Ill., Oct. 30 .- Without any preparation for such a trial, Joe Patchen, the black pacing stallion, this afternoon reduced the world's pacing record to a four-wheeled sulky by nearly four seconds. The record was established at Ingalls' park track, this city, before 2,700 people, who had been attracted by the announcement that Star FOUND HIS SON A CONVICT. Pointer would go against both the wagon and high wheel sulky records, and that Joe Patchen would try and beat

horse take Star Pointer's place and go against the wagon and high-whee sulky records. Previous to this, about 3 o'clock the reat son of Patchen Wilkes had again made a remarkable time in attempting to beat his own record of 2,01%. Driven by Atkinson, he went the circuit in 2.02%, lowering the Ingall's park

his own record of 2011/4. Star Pointer

was lame, however, and Owner Mur-

phy refused to let him fulfill his en-

gagement, But Mr. Marks, the owner

of Joe Patchen, agreed to let the black

13214, 2.02%, Several watches caught the time in 2.021/2. The horse was urged a great deal this heat, but he did not appear until 4.15 o'clock to make his trial against the wagon or four-wheel rec

record. The time by quarters was 31%,

After scoring once, Ames, who now brove; signalled for the word and away the big black went with the running mate trailing a length or two away. Ames rated his charge splendidly, covering the first quarter in 321/2, skimming along the back stretch with the stallion almost easily in 31%. The far turn the pacer faced the breeze, whatever there was of it, but it was here that Ames first urged him, with the running mate, too, running alongside, and, responding to the call, the noble Patchen sped over the third quarter in 01/2 seconds. It was now a foregone conclusion that the record would be broken, and outbursts of applause began before the horse was well straightened out for home. Ames knew the staying power of his horse and never relinquished, urging him by voice and an occasional sharp crack of the whip. The result was the last quarter was made in 3014 seconds, the time of the last half mile being 1.01% and the great pacer finished strong and true, nearly four seconds ahead of the rec-

P., having been made at Terre Haute in 1895. The announcement of the time elicited prolonged cheers. Joe Patchen appeared fairly tired

was taken to the stable, rubbed down and prepared for his trial again at the high wheeled sulky. The general verdict was that he would be able to re peat his record-breaking, although the high wheeled record, held by Jonston is 2.06%, and the black would not need to go as fast as his mile to the wagon in order to win.

After two scores, Ames signalled for the word and they were sent away the runner trailing as before. The quarter was reached in 3214, the same time as made in the trial with the wagon, but the second quarter showed a decrease of speed, the time being 1.03%. Three-quarters was reached in 1.35 flat, and the mile in 2.06%, half a second short of the record. This, however, beats the best efforts made by John R. Gentry this season against the same mark.

### LOUISVILLE RACES.

Louisville, Ky., Oct. 29 .- The postoned programme of yesterday furnished the sport for 5,000 people at the Louisville Driving and Fair association teday. First, 2.25 class, pacing; \$1,000-Sally Toler, b. m., by Ashland Wilkes (Hussey), won in three straight heats. Time,

Second, 2.28 class, trotting; \$1,000-Aives b. g., by Allerton (French), won second, third, fourth and fifth heats and race. Fourth heat declored off. No time Third, 2.40 class, pacing; \$1,900 (unfinished)—Joe Bailey, b. g., by Cyclone (Hukill), wen first and second heats. Time, 2.16%, 2.15%.

#### Brooklyn Obliged to Rescind an Award of Bonds.

New York, Oct. 20 .- Mayor Wurster and Comptroller Palmer, of Brooklyn. made the discovery today that the debt limit of the city had been exceeded by the recent issue of bonds to the amount of \$1,407,000; and as a consequence of this discovery it was necessary for them to rescind the award which was made to Blake Brothers and Harvey Fiske & Son, who were joint bidders and who offered to take the entire

This action on the part of the mayor and comptroller was made necessary because of the fact that it had been decided by Corporation Counsel Burr that the award of \$550,000 to the Long Island Water Supply company must be taken from money realized from the sale of city bonds and not from money in the sinking fund, as had been expected. It will now be necessary for the mayor and comptroller to re-advertise for bids for the sale of bonds to comply with the new condition of things.

### LUETGERT JURY IS STILL OUT

#### A Disagreement Is Looked For--It Is Rumored That the Jury Stands Eleven for Conviction and One for Acquittal.

Chicago, Oct. 20 .- At 8.30 tonight it was announced from the office of State's Attorney Deneen that there would be no announcement of a verdict in the Luetgert case before the opening of court tomorrow morning. Judge Tuthill went home early in the evening, leaving matters with State's Attorney Deneen, who was to send him word in case a verdict should be reached during the early part of the evening. The attorneys for the defense also left and went home to await any word that might come from the jury room. The state's attorney sat in his office until 8.20 and then gave orders that

his office be closed. For a time tenight it was rumored that if the jury had not agreed by tomorrow it will be discharged as soon as it reports its inability to reach a verdict. This, however, is not the case, It is the firm determination of Judge Tuthill to keep the jury until Satur-day night or late Saturday afternoon before he permits them to go with a disagreement.

The jury stands about where it stood twenty-four hours ago. Reports vary from nine for death to three for acquittal, to eleven for death and one for acquittal. The one juror holding out for Luetgert is Harley, and it is thought that if he would change front there ould be little time lost in arriving at verdiet. Juror Holabird is also credited with favoring the acquittal of the prisoner, but it is thought he will come around quickly if Harley can be induced to vote for conviction.

There is very little thought now of anything but a disagreement. It is the general opinion that Harley will prove firm to the end and he may keep Holabird with him. The state is now looking for a disagreement. It is said that a disagreement is the result of the trial the case will be tried again as soon as possible.

### BUNCOERS ABROAD : BEWARE !

It is the trick of the Brynnized Democracy this fall to make faise charges against Republican methods raise a big dust, hire Republican mal contents to organize Republican bolts and then coax individual Republicans to desert their party on the representation that "party ties needn't count for anything in an off year." By this trick, if it shall work, the Bryanites will get a foothold for a hopeful fight in national campaigns, and make jus so much more trouble for McKinley, the Republican congress and the cause of sound n.or ey.

You now see through this trick. Aryou going to let it work?

#### Spiritualists in Convention. Washington, Oct. 20 .- One hundred an fifty men and women, members of the Spiritualists Annual Association of the United States and Canada, constitute the onvention of that body which began three days' session here this morning. I his annual report President Barrett cited the National Anti-Spiritualist association as evidence of the fact that opponents o spiritualism were becoming alarmed at the increase of interest in it. He recom-

mended that a history of spiritualism from 1848 be undertaken by the associa-tion, and that the work be placed in the hands of Lyman C. Howe, of Fredonia, N. . The association will put two mis-onaries in the field to counteract the work of the anti-spiritualist organization Their Hunting Came High. Woodbury, N. J., Oct. 20.—Game War-den A. W. Berlin, Oct. 20 .- At the meeting of the Central Association of German Industrialists held on Monday to elect delegates to Prince Hohenlohe's committee for drafting new commercial treatles, Herr Buck, who was the chief speaker, denounced the Dingley tariff as "the most complicated, contradictory and uncertain tariff ever conceived." He declared that it was due to "capitalistic speculations, which are proving fatal to the industrial exist-

ence of the United States,"
At the same time, Herr Buck said, he felt bound to protest against the danger of a customs war. The sugar industry would suffer thereby; and Germany would not be in a position to support herself if the United States should retaliate with repressive duties on corn, cotton or petroleum.
