BUNCOERS ABROAD: BEWARE

It is the trick of the Bryanized Democracy this fall to make false charges against Republican methods, raise a big dust, hire Republican malcontents to organize Republican bolts day and then coax individual Republicans to desert their party on the representation that "party ties needn't count for anything in an off year." By this trick, if it shall work, the Bryanites will get a foothold for a hopeful fight in national campaigns, and make just so much more trouble for McKinley, the Republican congress and the cause of sound roney.

You now see through this trick. Are you going to let it work?

Oneida Combination Underwear

Ladies who have once worn combination underwear will never think of going back to the ill-fitting and uncomfortable two-garment system. The reasons for this are obvious. The combination affords perfect comfort, without in any way marring symmetry of the figure, for there is not such a thing as a pleat or wrinkle from

the neck to the ankle, while the clasticity and perfect shaping

affords unlimited freedom of motion without the slightest inter-

ference. Perfection is not gained in a day, and the drawbacks

that at first marked the introduction of combination underwear have now been completely overcome in the newly Patented Oneida Underwear for Ladies

and Children. We have other combinations in stock besides the "Oneida" gooils, but nothing as good as "Oneidas," and there is no reason on earth why we should favor this make more than any other, were it not for the fact that it is better in every respect than any-
