FIRE AT HAWLEY.

The Residence of Mrs. William Reynolds Entirely Destroyed -- A Narrow Escape from Cremation.

Special to the Scranton Tribune.

Hawley, Oct. 24.-Citizens of the low er part of the town were aroused at 3 o'clock this morning by a fire alarm sounded from "Silk Mill A," a locomotive. The fire was that of a twostory dwelling owned by Mrs. William Reynolds, a widow, residing on Bellmont avenue,

A kerosene lamp, which had been left burning in the hallway, exploded, and when Mrs. Reynolds, who was the only occupant, was aroused by the fumes, she found the entire ballway a mass of flames, and that her only chance of escaping was to climb out a window upon the roof of the porch and then jump to the ground. This feat she accomplished without injuries. The entire structure and contents were destroyed. Loss, \$2,000.

THE HAZLETON SHOOTING.

Effort to Halt Consideration of In

dictments Against Deputies. Wilkes-Barre, Oct. 24.-The grand jury will meet tomorrow and will be required to dispose of the indictments brought against Sheriff James Martin and his eighty odd deputies, who are charged with murder and felonious wounding in connection with the Lattimer shooting.

It is understood that some of the attornies for the prosecution will test the validity of this jury, claiming the drawing was illegel, from the fact that Sheriff Martin, one of the defendants was present at the time of the draw

An effort will probably be made on those grounds to have the jury set aside, as the law provides that when the sheriff is an interested party or defendant, he shall not have anything to do with the drawing of the jury and the coroner of the county is delegated to act in his stead.

Sheriff Martin says that he was fully alive to his duties in the matter, and was confident that the jury would not be found illegal. He states that he consulted the court, and his attorney before the drawing, and did not take any part in choosing the jurors.

A motion may be made to the court to have the jury dismissed or prevent the Lattimer shooting case from being presented, District Attorney Fell, who is a candidate for re-election, is placed in a peculiar situation. No one will be allowed in the jury room but himself and the jurors, and, if the cases are ignored, the opposition will very likely make capital of it to influence the foreign votes against him.

BUNCOERS ABROAD : BEWARE :

It is the trick of the Bryanized Demecracy this fall to make false charges against Republican methods, raise a big dust, hire Republican malcontents to organize Republican bolts and then coax individual Republicans to desert their party on the representation that "party ties needn't count for anything in an off year." By this trick, if it shall work, the Bryanites will get a foothold for a hopeful fight in national campaigns, and make just so much more trouble for McKinley, the Repullican congress and the cause of sound morey.

You now see through this trick. Are you going to let it work?

THE FILIBUSTERING ISSUE.

'rom the Washington Star. If Spain's reply to Minister Woodford's note lays any stress on filibustering, the way ought to be opened for a recognition by this government of at least the belligerent rights of the insurgents. Those rights should have been accorded long ago, and for two reasons. Sympathy in this country has been unmistakably with the insurgents from the first. And such being the case, the activity of the govseing the case, the activity of the government in trying to prevent any mani-destation of that sympathy has had the two-fold effect of offending sentiment at home and of creating suspicion as to the government's sincerity abroad. It is not unnatural that Spain should be a little accedulous on the point. This is a popu-ar government, and foreigners may not be expected easily to understand how it is possible for the people to lean to one side and official action serve the other side. But, as a matter of fact, with re-gard to Cuba such has been the case. Mr. Cleveland enforced the treaty obligations to Spain in the face of a de-mand from congress, the press, and the pulpit that the rights of the insurgents in Cuba be recognized. And the present administration, while showing an ardent desire for peace in Cuba, has still kept cruisers on gaard and customs officials instructed against the efforts of the sympathizers in this country with the Insurants of the second of the sympathizers in this country with the Insurants in special to the second of the sympathizers in this country with the Insurants in the second of the sympathizers in this country with the Insurants in the second of the second zents to succor their friends in the is-

In the second place the task is impossible of thorough execution. The coast line is too long. It cannot be patrolled with thoroughness. The opportunities for shipping in and out are too numerous. The government has done all that it could. Its coal bill alone, for keeping the fires burning on the vessels that have been doing duty for Snain, amounts have been doing duty for Snain, amounts have been doing duty for Spain, amounts to a good round sum. So that, "taking one consideration with another, the lot" of a government trying to maintain treaty stipulations against both the sentiment of its people and the possibilities of the case, "is not a happy one," If therefore Spain now takes her stand on the fill-bustering issue, the case of this gov-ornment will be strengthened in every way. The only proper reply will be the according of belligerent rights to the inaccording of beiligerent rights to the in-surgents, and that ought speedily to follow. It would bring the government and the people together and enable us to present a solid and altogether sincere front to Spain. As for any difficulties that might arise from a too free exer-cise of the right of search at sea by Spain for materials of war they would not be great. Spain would know her place then ouite as well as a be known in then quite as well as she knows it now. She would be very far from stopping everything affoat, on the hunt for guns and powder intended for the insurgents

WANAMAKER ON ADVERTISING.

Interview with Frank G. Carpenter. "Mr. Wanamaker, you are one of the Ar. Wanamaker, you are one of the largest advertisers of the country. I have noticed that you keep your advertisements running during the hard times. Many of the merchants have let them drep. Does it pay to advertise when times are hard?"

times are hard?"
"I certainly think so," replied Mr.
Wanamaker. "When the times are hard
and people are not buying is the very
time that advertising should be the heav est. You want to get the people in to see what you have to sell, and you must advertise to do that. When the times re good they will come of their own ab-ord. But I believe in advertising all the line. We never stop advertising.

"You use the newspapers almost at-ogether for advertising, do you not?" "Yes; I have tried all kinds, but I think newspaper advertising is by far the best. I used to spend a great deal of money in posters and bills, but I have given up that long ago."

"Can you see any immediate results from such advertising?" I asked, "I should think so," replied Mr. Wana-"I should think so," replied Mr. Wanamaker. "If you will come over here or
to our New York store some morning
when we have advertised a job to: of
bicycles or of some other things and
look at the long line of people who are
standing outside waiting for the doute
to open you will see how the advertisements in the newspapers are read."
"Then advertising is one of the chief
e-ements of business success, is it not."
"It is one of the elements, but not the
chief," replied the great merchant, "The
chief," replied the great merchant, when
chief element is getting what the people be of element is getting what the people want, in keeping your eyes on the parts of the world where new things are made and in giving them the best and the new. and in giving the lines of their real or fancied needs. Hyde Park Courier-Progress. The leaders of the Democratic party are centering their efforts to defeat Clarence centering their efforts to defeat Clarence E. Pryor, the Republican candidate for sheriff. Why? That is the office in Dem-ocratic hands, with its power and appoint-ments, that will do the most to strengthen the Democratic cause, weaken the Repub-lican party and help to defeat us in the future. Every effort is being made to create dissensions among Republicans for that purpose. That quebt to be clear to that purpose. That ought to be clear to every thinking man. We do not think they will succeed because their purpose s so apparent. What reasonable fault an be found with Mr. Pryor? He has made a most efficient prothonorary. Courteous and obliging to every one, no matter what his station in life, Mr. Pryor makes an ideal official, just such a one as we need in the sheriff's office. He has had enough, some say. What about Mr. Schudt? He made more last year as county treasurer than Mr. Pryor in his term of three years. THE MARKETS.

Wall Street Review

New York, Oct. 23.-Today's stock maronly business was done by professional traders and this included some selling for foreign account. The total sales were less than 20,000 shares, a figure lower than for any Saturday in months. The greater part of these sales were of shares of the industrial specialties, the railway list be-ing decidely neglected. Sugar displayed some strength during the day and closed with a small net gain. Chicago Gas and Union Pacific were the only stocks traded in to the extent of more than 10,000 shares. The latter was weak on the doubt cast upon the success of the reorganization plan by talk of an opposition syndicate, which continues to be talked of in an ill-defined way. Net losses are general but

reach a point or over in only a few cases.
Total sales were \$1,500 shares.
