The most serious obstacle in the difficulty in securing a proper site and for which the company is willing to pay a market price. As long ago as 1894 the company secured an option on 200 acres of the Delaware and Hudson farm lands on the Dickinson City boulevard but the deal failed to materialize through an inability to agree on a change in the plot lines suggested by the manufac-

The facts were comnunicated to the manufacturing commany and its representatives are expected here at any time, Meanwhile President May and Secretary Atherton, of the board, are endeavoring to secure verbal options on other plots.
The company wants 15 acres for fac-

tory buildings and 200 acres for yardage room and company houses. Its officers have expresed their intention of giving away lots to employes who would have to be imported from New England, skilled workmen of a class which does not work in these regions. It was mapped out by two different surveys, one of them made nearly half a century ago and ion has been directed alone at the Re-mblican candidate for state treasurer, and this is not due to any valid objection the other some twenty-five years ago.

Both of these surveys had as their Mrs. W. S. Benbright, of Scranton, wil to Mr. Beacom personally, for he is admittedly an upright, honest man on whose record there is not the slightest stain. He is thus singled out for opposition because he has stood with Senator Quay in some of his faction contests. For anti-Quay Republicans to oppose Mr. Beacom on that account is to show the same hot factional spirit which they condemn in Senator Quay and his adherents. If Mr. Beacom were an unworthy or unfit man for the office that would be a defensible cause for opposing him, but no such starting station the bank of the Lackawanna river. That a survey made now does not jibe with either of these former surveys is not to be wondered at. This discrepancy leaves sixteen Mr. acres that both parties lay claim to.
