TROUBLE FOR MARK HANNA

Rumors of Plots on Foot for His Downfall.

Allen O. Meyers Announces That Hanna Will Never Be Elected to the Senate on the Close Joint Majority That Is Claimed in the Ohio Legislature .- Billy Bryan Finds Consolation in the Reduction of Republican Majorities .- Other Opinions.

New York, Nov. 3 .- Returns from the state and city elections received today do not change the result announced last night. Returns from all the counties in the state indicate a plurality of more than 58,000 for Alton B. Parker, Democrade candidate for chief judge of the court of appeals. His plurality in Greater New York is 123,058, Van Wyck, Tammany candidate for mayor of New York, has \$1,548 plurality over Low, and 118,401 over General Tracy.

The state legislature remains Republican. The senators hold over, and the new house of assembly stands 85 Republicans to 68 Democrats. Ten of the newly-elected Republican assemblymen are said to be anti-Platt.

RESULTS IN OHIO.

Republican Majority on Joint Ballot

in Legislature. Columbus, O., Nov. 3.-This has been dy of anxiety with the Ohio poli-It opened with the Republind Democrats both claiming the majority of the members of the legislature. Before noon the Democrats conceded the election of .ne Republican state ticket by la - pluralities than were given last night in these dispatches as the claims of the Republicans. Tonight the Democratic state committee announced no definite claims on the legislature, and the Reclaims to a majority of five on joint ballot as follows: Senate, 17 Republicans, 19 Democrats; house, 58 Republicans, 51 Democrats, Total, 75 Republicans, 70 Democrats.

Wood county had been conceded to the Democrats until tonight, when the complete returns caused the Republicans to claim it.

On the returns complete at Republican state headquarters the Demo-erats will have a majority of two in the senate, and the Republicans of seven in the house,

In these claims the Fusionists from Cincinnati are all counted as Demo cratic. The Republicans can organize the house without fusion. There is only one of the four senators elected on the Fusion ticket in Cincinnati, who is a Republican, and he now becomes a factor. If Senator Voight of Cincinnati, who is a Republican, elected on the Fusion ticket, should vote with the Republicans on the organization of the senate or on anything else, that body will be a tie, with Lieutenant Governor Jones, Republican, having the deciding vote. If the Democrats had secured a majority of legislature or the Fusionists held the balance of the power, it is said that the Fusionists would have voted

with the Democrats.

The Republicans expect two or more of the fusion Republicans to vote with them for senator, in which event, they claim a majority of seven on joint ballot, with 77 Republicans and 68 Democrats. None of the fusion votes for senator were counted on by the Republican managers in the event they would be needed by the Democrats to elect their nominee, but now many speculations are made about the fusion votes. When it was thought today that control of the legislature might depend upon one vote, there was apprehension of trouble in some counties. Emissarles were sent out from state headquarers to close counties to watch the counting. The Ohio law provides that 'not less than one nor more than five days from the date of election the deputy state supervisors in each county shall begin the official canvass of the vote and continue from day to day until completed." In event of protracted contests in

the close counties, the suspense of today might have continued till the legislature met next January.

IMPORTANT RUNNING. Since the change of the claims at Democratic state headquarters tonight on the completion of the legislature, two important rumors have been vigorously circulated. One is that John R. McLean will be proused by the Ohio Democracy for the nomination of president in 1969, and that Senator Hanna will have opposition in his own party for election to the senate. It is claimed advocating McLean for the presidential nomination that he de credit for the reduction of the Republican plurality to less than half of what it was last year, and of the Republican majority in the legislature from 80 on joint pallot to five. And the Demecrats claim that the majority on joint ballot would be five the other way if they had an equal chance on contests. There are 26 members of the state senate, and only one or two of these districts are so close or doubtful as admit of contests on which Republican senators could be unscated.

On the other hand there are 109 members of the house, in which the Republicans claim a majority of 7, while the Democrats have a majority of two the senate. And there are several counties so close that several seats ing of "Home, Sweet Home."

publicans would have such an advantage in the house over the Democrats in the senate that it is not likely that the latter will be aggressors in that matter. And this may allow the close margin of the Republicans on joint ballot for senator to go uncontested in any of the close counties or before the committees on elections in the general assembly.

PLOTTING AGAINST HANNA. There is another movement which is causing much comment, and that is the rumor that Governor Bushnell will be brought out for senator against Marcus A. Hanna, Allen O. Meyers, one of the managers of Democratic state headquarters, announced tonight that Senator Hanna would never lected to the senate on the close joint majority that is claimed, although Hanna had been endorsed for senator by the last Republican state convention, the same as Foraker was endorsed by the Republican state convention two years ago. Mr. Meyers said if the close call on the legislature went against the Democrats in the official count of the close counties, that the Democrats in the legislature

The attempt to secure internabimetallism has proved a failure and it is now more apparent than ever egislatite for themselves on the finan-ial uestion. Free and unlimited coinage at 1 to 1 is nearer now than it was a car ago. High tariff upon a gold basis has disappointed those Republicans who coked to it for relief. Taken as a whole, the returns are very encouraging. I think I voice the sentiments of Demo-crats, Populists and silver Republicans when I say the fight will be continued with even more earnestness until the gold monopoly is broken and the money trust overthrown.
