The Distinguished Visitor Comes Prepared to Take Up All the Questions and, if Possible, Include Them in One General Settlement.

Washington, Nev. 8 - The authorities here have been advised that the arrival tomorrow of Sir Wilfred Laurier, premier of Canada; Sir Louis Davies, minister of marine in the Laurier cabinet, and other officials of the dominion, is to have an important bearing not only on the Bering sea settlement, but also on the pending questions which have been sources of international complication between the United States and Canada, namely, the sage of alien laborers to and from Canada, the North Atlantic fisheries question, the presence of many Americans in the Klondike territory belonging to Canada and in the mining regions of British Columbia, the fisheries trouble along the great lakes, the bonding privilege granted Canadian railroads, the controversy over rights in the Frazer river, British Columbia and in the Puget sound, and also the question of a reciprocity arrangement

etween the United States and Canada. There is direct and definite information that Sir Wilfred comes prepared to take up all the questions and if possible include them in one general settlement whereby the constant friction they have engendered may be overcome. On some of these subjects ne will confer with President McKiney, and on at least one of them, that elating to allen laborers, crossing the border, he will suggest such mutual modification of present restrictions as n his opinion will be of material advantage to the thousands of Americans now in the Klondike and British Columbian mining country, and at the same time will be of advantage to Canada along the estern border.
