ness in women may be traced to weakness and disease of the delicate and important organs distinctly feminine. No other class of disorders so torture a wo-man's nerves or break them down so quickly and effectually. Dr. Pierce's Fa-vorite Prescription is a sure, speedy and permanent cure for all troubles of this decription. It acts directly on the sensitive organs concerned, making them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. It stops exhausting drains. It banishes the indispositions that precede maternity and makes baby's advent easy and almost pain-less. It insures the little new-comer's health and an ample supply of nonrish-ment. It transforms weak, nervous invament. It transforms weak, nervous inva-lids into strong, healthy, nerve-steady wo-men.
