Musical Cows.

From the New York Commercial Adver-Two summers ago, in Newport, a cerain wealthy woman astonished the guest the had invited to a lawn fete by having big white cow brought out and milked before the company. The milkinaid was, of course, a Watteau milkmaid, with buckled shoes, short skirt and panniers, and the cow were a collar of bells and due ribbon around her neck. The same district of Germany, and her fancy was captured by the melody of the bells that were attached to the necks of the cowin the meadow. The bells were of dif-ferent sizes, and when rung in unison produced the sweetest and most harmon-ious of sounds. Madame promptly or-dered some bells of a Hartz firm for her beloved American kine, and it is to be supposed that the wanderers in the direc ion of her "vacaerie" next summer will ton of her vacacie lext summer win be greeted by the same tinkling tunes that delight one's cars in the picturesque Hartz mountains,

THE MARKETS.

DUNN'S REVIEW OF TRADE

BOYAL BAKING POWDER CO., NEW YORK

Larger Consumption and Manufac ture in Iron Than Ever Before Woolen Mills Have Orders for Thre Months Ahend.

New York, Nov. 12.-R. G. Dun & Co,'s weekly review of trade will say in its issue tomorrow:

Colder and more stormy weather, s long needed to accelerate distribution of winter goods, has materially helped in some quarters, and the resulting im provement in retail trade is mentioned in nearly every northern dispatch thi week, so that orders to fill stocks hav been discouraging, and in some branches the multitude of demands for immediate delivery show that the dis tribution to the consumers has already roue beyond the expectations of deal ers. But this is not yet the genera rule, and many complaints of delaye trade from other quarters, and ther still remains the extensive shrinkag caused by fever and quarantine at the south. It is, therefore, the more sur prising that the volume of all pay ments through clearing houses contin ues about as large as in 1892, and 16. per cent. larger than last year. Railroad carnings also nearly equal those of 1892 for the first week of Nevember, and half the mileage in the United States show earnings in October of \$50,354,496, or \$.0 per cent, larger than last year, and 2.2 per cent, larger than in 1892. Speculative markets feel diswoman, who apparently has a penshant appointment because prices do not rise for cattle, has been visiting in the Hartz further and faster, but it is fortunate for producers and dealers that the experience of some past years in that respect has not been repeated. There is nothing to cause general reaction, the purchasing power of the people is gradually increasing, and after the Iuli which follows extensive replenishment of stocks, the trade should give ample evidence of that increase.

The output of iron furnaces Nov. 1 vas 213,159 tons weekly, against 200,129 on Oct. 1, against 36.5 per cent., and unsold stocks decreased 48,890 tons in October, indicating a larger consumption in manufacture than ever before, even when the output of pig was pushed by swiftly advancing prices to the highest point, 217,682 tons, on Nov. 1, 1895. Prices of iron products rose that year 55.3 per cent., but are now not four per cent, higher than June 9. Being Slaughtered to Affect Imme- The enormous output, with some more furnaces started in November, causes but a slight decline in Bessemer pig to Now for Clothing Bargains, Waste \$10.25 at Pittsburg, with no decline in other pig there, at the east, or Chicago, and no fall in prices of finished products, except a shade in angles. While most works have orders for the After being in business for forty rest of the year, and in sheets and trene other branches are far behind to Broadway, New York, was forced deliveries, new orders are few, but include one for 2,000 cars at Chicago sheriff. The Chicago Combination and one for 400 at Pittsburg; one for Clothing Co., of 211 Washington ave- an armored ship at Chester; many for small buildings, and for Saint Vincent's hospital and three school houses here; many for bridges, with some for the drainage canal at Chicago, with a lively demand for hoops, and a large export business, with a quantity of

Woolen mills generally have orders for three months ahead, and are not cking further engagements. Large sales of speculative lots of wool at prices not stated suggest that it may be lower before the mills need further orders. A year ago the price hegan to mount, with heavy speculation, and has risen 59 per cent, without reaction in quotations, while the rise in goods averages but 14 per cent. The dedine in cotton, and the slow demand for goods, owing in part to warm weather, have led cotton mills to confer about curtailment of production, and further reductions have been made in brown sheetings and drills, prints, and by jobbers in bleached goods, Cotton declined an eighth to 5.60 cents for middling uplands, and both exports and takings of spinners have been

Wheat dropped over two cents, but has since risen as much, with heavy buying for export. Western receipts continue heavy; in two weeks 14,028,007 bushels, against 10,581,192 last year, while Atlantic exports, flour included, have been 6.562,025 bushels, against 3, 921,231 last year. An English authority reckons the world's yilld at 161,000,000 bushels less than last year, which would mean a market for all this country has to spare. Corn exports are again larger than last year, and the price has risen 15c. Later prices of meats do not indicate that farmers have as yet much inducement to save corn for feeding.

Failures for the week have been 291 in the United States, against 276 last year, and 24 in Canada, against 46 last

Legislating Back His Character. From the Chicago Record, Sem Davis, in discussing the subject of

Indians, teld of the rehabilitation of Johnston Sides. Johnston Sides was a chief of the Nevada Indians who mode pulte a fame for himself as a temperance ecturer among his own people. But one day, "being sick," he took a drink of whiskey in the Magnelia saloon, and was observed by some wicked white men, who straightnway started the report in full circulation, and Mr. Sides's reputation bade fair to be gone. But he was an Indian of influence, and, appealing to his white friends, he represented that something must be done, else he would be come an outcast from his tribe. He ac-knowledge drinking the liquor, but told the sick-man story. Sides had always been a fair sort of an Indian so, as he pleaded and begged, two or three good fellows in the Legislature agreed to fix things so that he could go back to his people in pride of conquest. Accordingly this concurrent resolution was drawn up; "Resolved, by the Legislature of the State of Nevada, the Governor concur-State of Nevada, the Governor concurring. That the drink of whiskey taken by Johnston Sides in the Magnotia saloon, July 11, 1887, be and is hereby annulled."

Several speeches were made, and old Sides, surrounded by a big gathering of his tribe, sat in the lobby and heard all with profound interest. When the favorable vote was appropried the Judana support of the States. able vote was announced the Indians set up a wierd war cry, which was under-stood to be applause, and, headed by Johnston, the exculpated, they walked out into a sunshine of great happiness,

Wall Street Review.

New York, Nov. 12.-Today's stock nurket was entirely without animation at any time. The preliminary drive at Sugar and one or two subsequent raids against that stock failed to dislodge any large offerings, and the subsequent dealings in that stock showed greatly diminished activity and firmness of tone. Its lesses were all recovered and the close

We have been in Scranton over 16 years; we are here now—we intend to stay here. Our business is not a more experience. We will not do work today that you can call us to account for tomorrow. We compete with the cheap advertising dentis is who are here today and gone tomorrow, but we do not compare—our work is a contrast. So do not make a mistake; all our operators are experts of skill and experience, and not mere sudents. Still our prices are lower than the lowest. Heware of imposters and charintans who can afford to rain your teeth because they are not financially responsible. How can we do better than they? The answer is easy: We have a dental office in nearly every city in the United States, and we buy our supplies at wholesale for cost. No wonder we can give better prices than anyone else, therefore. Experience counts also, and we have the experience besides our diplomas. Don't be buncoed; get the best, the most reliable, the most comfortable and the most durable. The newest methods the latest applications, the best materials. These are attractions worth considering. Besides nervous people and those with heart weakness can have their teeth filled or crowned with absolute safety and positively without pain. We are the only really up-to-date Dental Establishment in Northeastern Pennsylvania. Teeth extracting in the morning and a new set furnished in the afternoon in the afternoon is an of original. All others are mere initiators.
