### -----MANY CASES OF DIPHTHERIA.

### Disease Is Prevalent in All Parts of the City.

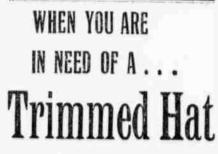

Twenty-two new cases of diphtheria were reported to the board of health last week. The disease prevails in all parts of the city, the North End and South Side in particular. The cause assigned is the frequent weather changes

Board of health officials attach no special significance to the prevalence of the malady. They say the number of new cases per week will drop to the normal as soon as there comes a spell of settled weather.

Thirty-four deaths, the usual rate, resulted during the week from all causes.

ABOUT FREIGHT RATES.

Apropos of the advertising discus-

sion Mr. Kemmerer criticized the man-

agement of the recent entertainment

Mr. Kemmerer and C. H. Pond were appointed a committee to go before the managers of the Trunk Line Traffic association and endeavor to secure more equitable freight rates to and from this city. It had appeared, according to reports of the transportation committee at previous meetings, that Scranton suffered from excessive rates from both New York city and the west when compared with the more favorable rates enjoyed by other points, It was remarked by Mr. Kemmeret that one Scranton establishment saved money on western shipments by ship ping its goods from New York city.

A complaint that there was an unecessary and unreasonable delay on the part of the street commissioner and the Barber Asphalt Paving company n the latter's failure to begin work on its asphalt repair contract was answered by Mr. Keller. It had not been determined by councils until two weeks ago that the street commissioner had sup rvision over repair work. Meanvomen. while the work had been at times pre-

vented by frequent and heavy rains, some repairing had been done, how-

Mr. Kemmerer said that inasmuch as properties selling for \$45,000 on Lackawanna avenue, and having frontages of 25 feet, had been assessed at only \$5.500, and in view of countless other ridiculously low assessments it be hooved the board to lend its influence toward a more proper assessment. Mr. Payne asserted that the board had at one time wasted much energy and had accomplished nothing in its agitation toward a reform and this, he thought, would be the result in the present instance

### MR. LANSING'S VIEWS.

An opposite view was held by Mr, Lansing. The earlier effort of the board had borne fruit as had the campaign for acquiring Nay Aug park. He believed the board could not lend its influence toward a better purpose. The present tax rate should not be increased, he contended, but the city was greatly in need of funds and the way to procure them was to bring about an increase in the assessments. The asphalt repair and the tax as-

ressment matters were referred to committee, the former to the committee on streets and the latter to the committee on legislation and taxes.

Approval of the bill of Mr. Hall, of New York city, amounting to \$1.500 for decorating the assembly room, was withheld until the claim of \$390 held by Conrad Schroeder against the decorator has been paid.

Secretary Atherton suggested that in lieu of the usual annual report of the secretary, that the minutes of the ten monthly meetings of the year and the financial statement be published. The matter was referred to the publications committee with power to act. On motion of Mr. Lansing the thanks

of the boar" were voted Hon. William Connell and the family of the late Colonel J. A. Price for the portraits of those gentlemen which have recently been hung in the assembly room. Eventually a portrait of each ex-president will be possessed by the board

Held a Meeting in Y. M. C. A. Parlors Last Night. was an interesting meeting of without authority or warrant of law and the city Christian Endeavor union in Y. M. C. A. parlors last night, at which report was made concerning "Trolley Day." It was shown that the union realized \$105.20 on the project. No reference was made in the report or by any of the members present to the opposition to the "Trolley Day" idea that was shown by some Endeavorers.

Reports were also heard from the ookout, public meeting and journal committees, all of which were encouraging and satisfactory. On account of the pressure of other duties, Miss Della P. Evans resigned her position as superintendent of missions. The meeting was presided over by Rev. George E. Guild, president of the city union.
