CAPTAIN PAXTON'S **GOOD SUGGESTIONS**

War Department.

The Want of an Annual Encampment Is Shown as Well as the Necessity use of our citizen soldlery." of Concentration of Forces .- Suggestions Concerning Target Prac-

Harrisburg, Nov. 26,-The report of Captain Alexis R. Paxton, of the Fifteenth United States infantry, which was published yesterday, has caused wide comment in military circles, as it is the general sentiment that the praise bestowed upon the guard was deserved. more extended review of Captain Paxton's report reveals many other good suggestions.

The staff officers of Pennsylvania's well-organized division," says Captain Paxton, "should have thorough and frequent practice in their duties. The active, organized militia of the United States is the nucleus of the volunteer armies upon which the country must rely in defending it from attack by a foreign power. It follows that the active militia of each state should be disciplined, exercised and trained in all its faculties as fully as the time and money allowed for its maintenance and encampment will permit. An annual concentration of the division would furnish it an opportunity to advance rapidly instructions in field manouevers on such a scale as would put each brigade on its mettle.

THE ENCAMPMENT GROUNDS. "With a yearly concentration of the cavalry and artillery the functions of those arms could be ilustrated systematically with some approximation to the realities of actual service. The ground for divisional encampments should be adapted to formations for marches of large bodies of treops, as of hostilities; to manocuvres for taking up a position for battle, and to the development and following up of an attack by the whole division. Pennsylvania is rich enough to afford to own a military reservation large enough and of sufficient topographical features to answer the high purpose of such instruction, as well as

the proper needs of castramentation, "The mountain lands of the state afford a wide range of selection for such a reservation, which should contain 2000 or 3000 acres and be accessible by railway. An annual encampment of Pennsylvania's division on a per-mantently owned and wide extent of ground, where perfect freedom of movement for the troops could be had without interference with private rights, would give a tremendous impetus to the military education of the Guard. The annual carefully prepared plans made for manoeuvres on such ground would make the divisional encampment there the most important school of applied military instruction in the whole country, and could not fail to redound to the advancement and fame of the citizens soldiery of

EXTENDED ORDER DRILL.

Captain Paxton states that extendsuspension was ordered an early publication by authority of the War De. partment, of the improved regulations for infantry, in both close and extended order, was looked forward to for the use of the army and militia of the United States. This expectation has not been realized.

The Guard is today in a state of uncertainty as to what it shall do with regard to extended order drill. At the neampment this year of the first Brigade, experiments of an interesting character with a scheme for the development and reinforcement of infatry attack were made by authority of the Major General commanding the division. The scheme of this attack formation is published in the last annual report of Adjutant General Stewart, a copy of which has been for warded to Secretary Alger by Captain

TARGET PRACTICE.

Captain Paxton reports that in relation to target practice this department of instruction has undergone great improvement in the past few years, "The rules and regulations for practice are rigidly enforced, and wherever any looseness in their application is indicated or changed the matter is made the subject of a thorough investigation. The inspector general of rifle practice Colonel Asher Miner, takes a deep interest in his duties, and he has established a standard of honest work which is looked up to with respect by the guard in general. "Colonel Miner is warmly supported

of the guard in the use of its small arms by the adjutant general of the state. To this end great improvements have been made at the permanent target grounds at Mt. Gretna, where, within this year a special set of targets. eleven in number, manufactured at the state arsenal and of a pattern designed by First Lieutenant William F. ltichardson, quartermaster of the Eighth regiment, have been set up for exclusive use at a special 800-yard This separation of the short range from the mid range targets has added greatly to the facilities of practice and competition. Every appliance for prompt work on the range is sup-

in his efforts to increase the efficiency

UNITED STATES ARMY REGULA-TIONS USED.

"The United States army regulations are used as far as the conditions of service in the National guard will allow."

Captain Paxton concudes, "the exceptions to their use being provided for either by statute laws of the state or by general orders issued by authority Further Review of the Report to the ry C. Groome, assistant adjutant general of the First brigade, has just been sublished and is now being distributed to the guard. It is a most valuable RESERVATION NEEDED and systematically compiled selection of the most essential regulations of the United States army applicable to the and of other subjects apposite to the

A SLY FOX THIS ONE.

Got Off Without a Chase by Digging Out of His Pen.

Phoenixville, Pa., Nov. 26.-The chase rranged for today by the Birchrimville Hunt had to be postponed for the want of a fox. A fine specimen was in keeping, but last night dug out of his pen, and this morning the dogs were unable to find the trail. Two foxes less sly, however, afforded amusement for the hunters of this vicinity, and for a time paralleled each other in the chase, within hearing distance of the riders of both hunts.

A fox dropped at the Perklomer Bridge hotel led riders and hounds a two hours' chase, and took to earth in time to save his brush. Darlington Davis was master of hounds.

The hills of historic Valley Forge esounded with the baying of fifty ounds, following a fox dropped at the Valley Forge hotel by the Washington Hunt. Reynard gave riders and dogs a short, stiff chase, which he terminated by unexpectedly taking to earth. The master of hounds was John properly. The lesson applies to the

CLEMMER CONFESSES COMMITTING MURDER

After Being Tracked to Newark, He Acknowledges Having Killed Mrs. Emma Kaiser.

Newark, N. J., Nov. 26.-James A. lemmer, of Norristown, Pa., was arrested here this afternoon on the charge of murder, and after being taken to police headquarters he admit-

On Oct. 26, 1896, Mrs. Emma P. Kalser went driving in company with her husband, Charles O. Kaiser, James A. Clemmer and Elizabeth L. DeKalb. The start was made from the Kaiser homestead early in the morning and that was the last seen alive of Mrs. Kaiser in Norristown. Mrs. Kaiser had not lived with her husband for some time previously, but she had placed a \$10,000 insurance policy on her life, and this accounted later to the police for the interest her husband took in her. On the same day Kaiser, Clemmer and the DeKalb woman returned with Mrs. Kaiser's dead body. They told a story of having been waylaid by highway men, Mrs. Kaiser being shot dead, and Kaiser himself being slightly wounded in the arm. The story was not believed, and Kaiser was arrested and Clemmer and the woman made their escape. Kaiser was eventually tried, convicted and sentenced to death. The DeKalb woman was arrested two weeks ago and will have a hearing on Decem-

district attorney of Columbia county, pened for nearly a year. When this Pa., to arrest him. A personal had been inserted in a New York paper purporting to be from the DeKath woman. Clemmer was a victim of the decoy and responded with a letter which fell into the hands of the district attorney. Clemmer was then easily located. When he was arrested he took matters calmly and denied his guilt. He claimed that his name was Harry E. Youngs and that he knew nothing of the Norristown affair. After being taken to police headquarters he was searched and the police found on him a roll of clippings from newspapers containing a full account of the Kaiser murder, including the trial and conviction of Kaiser. Clemmer weakened then and said:

"I'm the man you want: I might as well admit it,"

He offered to go to Pennsylvania without waiting requisition papers, but he will be held until the proper steps have been taken for his extradition.

ADAMS' SENTENCE.

Tunkhannock Murderer Gets Sixteen Years and Six Months.

Tunkhannock, Pa., Nov 26 .- Carleton D. Adams, who was convicted last week of murder in the second degree for shooting his wife, was sentenced by Judge Dunham today to sixteen years and six months in the Eastern enitentiary.

Mrs. Adams was Miss Ida Tichener, a Virginia girl.

The Law a Hardship.

Harrisburg, Nov. 26,-Secretary of Internal Affairs Latta has directed Deputy Secretary Brown not to enforce legislature, providing for the collection of unpaid purchase money on land bought from the state. The secretary says the attempt to collect has developed so many instances of real hardship that he thinks the next legislature will afford relief. The state can lose nothing by the delay, as the next

Philadelphia and Reading Earnings.

Philadelphia, Nov. 21.—The statement of the Philadelphia and Reading Railroad ompany for Ocetober last shows re-lepts of \$2,184.453.56, an increase of \$91, 523.32 over the same month of 1896. Net earnings, \$1,679.339.59, an increase of \$61, 913.13. The receipts of the Coal and Iron ompany were \$2,505,170.48, n de-Ext.681.99. Not earnings, \$24.624.69, an increase of \$2,507.79. The not earnings of the whole Reading company were \$1.567, 670.17, and the surplus for the month \$622, 220.17.

Paster Resigns.

Easton, Pa., Nov. 26.—The pastoral rela-tions existing between Rev. G. W. Re-mangen and the church at Bangor were dissolved today at a special meeting of the East Pennsylvania classis of the Re-formed church. The Rev. Remangen was assigned to Wichita classis synod of the Missouri and will take charge of the mis-sion at Emporia, Kan. Rev. M. L. Kersh-ner of Parroyallis charge was assigned. ner, of Parryville charge, was assigned to the North Carolina classis synod of the

Pennsylvania Postmasters.

Washington, Nov. 26.-Among the fourth lass postmasters appointed today were these for Pennsylvania: Florence, L. F. Graham; Hickok, Mrs. S. L. Hackett; Scenery Hill, W. H. Hopkins; Stevens, D. M. Bertolet; Strongstown, W. H. Altemus; Wind Gap, Joseph J. Delp; Woolrich, W. F. Rich.

CONVENTION AT MONTROSE

[Concluded from Page 1.]

ent, to the one thing. His many early experiments and machinery failed. Engineers said his scheme was impractiable. Just so, demonstrations of the impossible in Christian work amount to nothing. Edison's assistant, Mr. Mallory, says his chief experimented thousands of times and made as many failares, but was determined to succeed, To succeed, he was willing to fail. It should be so with the Christian work

"To do it,' man has all the power of God for assistance, Edison had three great aiding forces in his material work, gravitation, momentum, magnetism. He built a crusher which pulverizes seven tons of rock in three seconds. A worker can accomplish the so-called impossible. He can do it by putting himself in line with infinite forces. The successful worker is not a 'strained' worker; God's aldes work easily; the work is divinely wrought,

"In doing the work of God we may expect to be assisted by what seem to be hostile forces. Things in opposition become helpers. In Edison's crushing machinery there were 4,200 bearings which, it was thought could not be lubricated on account of the fine iron dust which penetrated everything about the plant. This seeming opposition was turned to an advantage by spiritual worker."

After the evening session there was an informal reception at the Young Men's Christian association rooms, where the delegates were welcomed by the mayor, Attorney A. B. Smith.

Tomorrow there will be three meetings. In the morning there will be addresses by Charles E. Hurlburt, superintendent of the Pennsylvania Bible institute, Philadelphia: by J. M. Chance, of Scranton, who will discuss music and its relation to Young Men's Christian association work, and by F. H. Beldin, of the Railroad association, of Scranton, who will deal with the "Yoke Fellows' Band" idea. Mr. Huriburt, Dr. R. S. Meixell, of Wilkes-Barre, and Clarence E. Cook, of Keystone academy, will take a prominent part in the afternoon session and Mr. Hurlburt will deliver an address in the

SPECIAL SINGING. A feature of the meetings will be tette: George C. Hoffman, first tenor: D. Van Gorder, second tenor; Fritz J. Frank, first bass, and C. A. Mong. second bags, and the cornet playing of W. H. Stanton, ir., also of the Scranclation, and all under the direction of Mr. Chance.

Among those attending the convention as delegates, speakers or spectators, are: Rev. Dr. I. A. Lansing, J. A. Lansing, George G. Mahy, F. W. Pearsall, G. L. Barnard, Fred Behling, Philip Haendiges, jr., Professor W. E. Plumley, R. M. Brown, H. M. Brewer, of Scranton; C. W. Tiffany and Clarence E. Cook, of Factoryville; T. W. Davies, of Pittston; J. W. Raeder, Dr. R. S. Melxell, T. H. Atherton, Dr. F. C. Johnson, and H. Captain Paxton states that extended order, as prescribed in the United States infantry drill regulations, is in a state of official and indefinite supension in the National Guard of Pennsylvania, and have been so sus.

ber 29.

The first the Newark authorities knew of the presence of Clemmer in this city was when they received instructions from James A. Strasburger, Pennsylvania, and have been so sus. Herman A. Dean, of Wilkes-Barre; C. W. Harvey, Harrisburg.

J. W. Raeder, of Wilkes-Barre, chairman of the district committee, is ill and unable to attend the convention. Assisting Carl Shafer, the Montross secretary is Thomas Thorburn, who is to be employed in a new line of state work. He is a former secretary of the Sharpsburg and Aetna associations, and is to be given charge of general religious movements in districts to be limited to a county or counties. The work, which is to be an experiment, has not been fully planned Mr. Thorburn's duties will be to organize Pible class. es and aid their officers in their study and work. The idea has not been tried but it will be started soon in Peckville Priceburg, Dickson City, Jermyn and the upper Lackawanna valley.

NAME OF PEARLS,

Abort Five Thousand Small Ones Can Be Bought for 89. From the Philadelphia Times.

Pearls are named according to their size. The very large are called paragon pearls; when the size of a cherry, therry pearls; medium are called piece pearls; smallest, dust pearls. The oval and long are termed pear pearls, while padly formed specimens are known as baroques. The value of pearls varies, of course, with the quality and general colors, but the piece, seed and dust pearls always have a market

The cherry and paragon are sold on an entirely different basis. If many fine ones are on the market at a time, they may be had at reasonable rates. Some years they bring almost any The last two years, especially, the dealers say, there has been a great scarcity of fine pearls, although there the land lien law passed by the last is no falling off in the supply of the small stuff.

When a pearl exceeds one karat in weight it is sold separately. Under that weight they are sold in parcels, and become less valuable as they become smaller. The smallest pearls collected average about 5,000 to the troy ounce, and are at present legislature will doubtless repeal the rated at about \$9 per ounce. If, on the contrary, one paragon weighing an (or 150 karats) was on sale, it would bring any amount from \$30,000 to \$200,000, according to quality.

TROLLEY CARS USED TO CHURN Way an Ingenious Kansas Milkman Makes His Butter.

From the Philadelphia Press. A unique utilization of railway car vibrations is reported from a packing house center in Kanzas. The roadbed of the local trolley line is not of the best and it occurred to the milkman who had been pretty well banged about by the lively oscillation of the car on which he was riding, that there was enough power going to waste to work set of capacious churns. He tried be experiment and found that it worked to a charm.

Now, the owners of the cows in the elcinity of packing houses in the city set their churns on the front end of a car. One round trip is almost more than enough to do the work, and the meterman takes buttermilk in paynent for the mechanical agitation imparted to the cream.

Foot Ball at Bethichem.

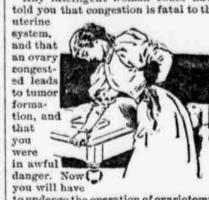

Bethlehem, Pa., Nov. 26.-The Lehigh oot ball eleven today elected James Cuthbert Holderness, of Cambridge, Mass., captain of next year's team. Holderness is a member of the class of '99 and has played full back on Lehigh's

WOMEN! DON'T WAIT.

If You Have Any of These Symptoms Act at Once.

Do you know the reason why you will go to the hospital, my poor friend? Because you have allowed yourself to go from bad to worse. You did not know that that heat, swelling and tenderness in your left side were all signs of congestion of the ovary.

Any intelligent woman could have told you that congestion is fatal to the

to undergo the operation of ovariotomy, the cutting out of the ovary.

Yes, you will recover, at least I hope you will; but you will never be quite the same woman again. Congestion of the ovaries is fatal to health. If you have any such symptoms be advised in time; take a medicine of specific powers! You can find none better than Lydia E. Pinkham's Vegetable Compound, prepared especially to meet the needs of woman's sexual system. You can get it at any good druggist's. Following we publish a letter from

a woman in Milwaukee, which relates how she was cured of ovarian trouble: Dear Mrs. Pinkham:-I suffered with congestion of the ovaries and inflammation of the womb. I had been troubled with suppressed and painful menstruation from a girl. The doctors told me the ovaries would have to be removed. I took treatment two years to escape an operation, but still remained in miserable health in both body and mind, expecting to part with my reason each coming month. After using one bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash I was very much relieved. I continued to use your remedies until cured. The last nine months have been passed in perfect good health. This, I know, I owe entirely to the Vegetable Compound My gratitude is great, indeed, to the one to whom so many women owe their health and happiness."-Mrs. F. M. KNAPP, 563 Wentworth Ave., Milwac
