PRESIDENT is still in her room, but will retire to rest at 1 o'clock if there is no change AT CANTON Mr. McKinley at the Bedside of His Dying Mother.

A DAY OF GREAT SUSPENSE

She Fails to Revive, Though Recognizing Her Son.

The President Will Be in Washington on Monday at the Opening of Congress Whatever the Result .- The Physicians Give No Ray of Hope and Announce That the Death of the Old Lady 1s Near.

Canton, O., Dec. 3 .- President Me-Kinley will be in Washington for the opening of congress next Monday, whatever may be the issue of his mother's illness. It is necessary for the president to be at the capital in person for the opening of a session of congress to receive the joint commit-tees from the two houses, and until this committee has waited on the president and received his communication. the regular business of congress cannot proceed.

Mother McKinley is unconscious, and the attending physician can give the family no hope that she will ever return to consciousness. The president can do absolutely nothing for her by remaining here. In view of these facts the president feels that it is his duty to return to Washington, so as not to delay the proper opening of congress at the regular time. He has arranged to leave Canton at 2.05 o'clock tomorrow afternoon in the special car provided for him attached to the regular Pennsylvania train which reaches Washington Sunday morning, Assistant Secretary of State Day, who accompanied the president from Washington, expects to return early next

Today was one of great suspense in the McKinley family. The nearness of death was realized, and that there could be no other than a fatal ending to the illness with which Mother Mc-Kinley was stricken Thursday. The attending physician could sive them no hope of a different result, and it is to the remarkable constitution of the woman who has reached the ripe age of nearly eighty-nine years without

Lasr, a saloonkeeper of this city, and TERRIBLE his wife were each held in \$5,000 ball today on the charge of having smuggled into this country \$100,000 worth of diamonds. They pleaded not guilty. The diamonds were seized on Wednes day night at the office of Max J. Lasar a diamond merchant in Maiden Lane. Collector Bidwell was very reluctant to give any information about the arrests, saying that he was afraid pub licity would interfere with other portant arrests that they expected to

GOVERNOR GRIGGS FOR ATTORNEY GENERAL

It Is Evident that He Will Succeed Mr. McKenna--His Appointment Urged by Vice-President Hobart.

Washington, Dec. 3 .- From such sources that the authority should not be doubted, it is learn-ed that the position of attorney general to succeed Mr. McKenna, who

will be nominated to the United States supreme bench to succeed Justice Fields, has been offered to Governor Griggs, of New Jersev, and that he has consented to accept. It is understood that his appointment was urged by Vice President Hobart. Owing to the absence of President McKinley it is impossible to confirm this statement

absolutely. Paterson, N. J., Dec. 3.-Governor John N. Griggs ard r-d home tonight from Wassington. He was seen room dier he reached his residence, but refused to talk about the report that he was to be the next attorney general. He would not say that the office had been offered to him; neither would he deny it

Close friends of the governor and Vice President Hobart, who was seen at the Hamilton club later, expressed the belief that the cabinet position has been tendered the governor, and added that he would probably accept it.

Governor John William Griggs was born in Newton, Sussex county, N. J., July 10, 1849. He was graduated from Lafayette college in 1868, and became a iw student in the office of Hon. Robert

Viamilton, at Newton. In 1871 he removed to Paterson where he entered the office of the late Socrates Tuttle He was admitted to the bar that year and together with Mr. Tuttle formed the firm of Tottle & Griggs. A few years later he opened an office on his own account. He was elected to the assembly in 1275 and was re-elected two years later. In the latter year the

Forty Thousand of the Unfortunate Concentrados Are Huddled in the Province of Pinar Del Rio--They Are Without Means of Existence and Are Starving--General Blanco Thinks It Unnecessary to Send More Troops.

Havana, Dec. 3.-Senor Canalejas, the special commissioner of the Spanish government, has returned here from his visit to the province of Pinar del Rio. He says there are in the province 40.000 "concentrados," peasants gathered in from the country in the neighbor hood of the towns for protection from the insurgents, or to prevent them from joining the enemy, and that the

are all in want. Of this number 15,000 are orphans and the majority are children of tender years. The commissloner adds that the "concentrados" are badly distributed. At Pinar del Rio the capitol for instance there are only 400 of these unfortunate people, while at towns like Consolacion and Candelaria there are over 4,000 of the sufferers. The municipal authorities of such places, the commissioner says, are

without resources, and therefore unable to do anything to relieve the destitution. There is great anxiety here to know the terms of the message of President McKinley to congress. The central committee of the Autonmist party has passed a vote of con-

fidence in its president as a result of the latter's negotiations with the Reformist party to bring about a union both parties.

It was officially announced today that the Spanish cavalry in pursuing the insurgents under General Ducasi, the is said to have been badly deeated recently in Pinar del Rio by the spanish forces under General Bernal as surprised an insurgent force, kill- clusion ing 19 of the enemy and capturing five

unted men Although the Reformists have anpointed a committee to negotiate with e Autonomists, it is believed that nothing definite will be decided upon until the arrival from Madrid of lead-

ing members of the party who have been appointed as delegates by the Cuban Reformists there and who are now on the way. The governor of Pinar del Rio is endeavoring to relieve the critical sit-

uation in that province where a majority of the inhabitants are identified with the toLacco trade. The crop this year is only half the normal, though some good judges have put it at about sixty per cent, of the usual yield,

The Streets of Prague Are Still Patrolled by Armed Men--Serious Excesses Are Reported to Have Been Committed at Koeniggmetz, Where Troops Have Already Been Despatched -- An Engagement at Pilsen .- Many Are Wounded.

> Prague, Dec. 2.-Reports from various places in Bohemia including New Bidschow, Melnik and Kralup, tell of disturbances during the last few days, the houses of Germans and Jews being attacked by the Czechs. The Germans of Fodenbach made reprisals in the neighboring Bohemian village of Kragolitz, where a school, two inns and a shop were attacked, a number of people

hadly injured despite the intervention of the police and burgomaster. The Germans also fomented riots at

The family surrounded the bedside all day watching intently for any rally from the comatose condition In which the patient has been almost from beginning of the illness, and at short intervals the doctor called. RECOGNIZED HER SON.

The enfeebled patient seemed to untend her hand, which was immaterfally grasped by the devoted son. He thought he felt a responsive tightening of her hand about his own as he did so, but the recognition was so slight as to be almost imperceptible. It was some time later that a second slight rally seemed to occur. A bunch of beautiful flowers was sent from the conservatory of the White House, and when they were taken into the room noted their arrival and seemed to make an effort to reach for one. The president quickly selected a beautiful her time among the poor and sick, and white hily and handed it to her. Low long her constitution will withstand the assaults of the disease, no one can tell, but it seems that it cannot be much longer. The president has scarcely been out of the house since his arrival this morning, and spent most of the day in his mother's room.

As soon as the special train which the Pennsylvania road provided from Philsburg reached the Canton station. the president hurried to the carriage which Charles R. Miller, Judge T. T.
