NEGLECTED COLDS.

A cold in the head, which a single bottle of Pe-r-u-na will cure, soon becomes a case of chronic catarrh, which will require bottles to entirely cure. A sore throat, which one bottle of Pe-r-u-na will cure, soon becomes chronic pharyngitis or enlarged tonsils, which will require many bottles. A slight cough, which, without a vesicle of doubt, would soon disappear with the use of Pe-r-u-na, becomes chronic bronchitis, which requires a persistent use of Pe-r-u-na for some time. Every practical physician sees many cases of consumption, which are due directly to a neglect of colds, coughs, etc., which, if Pe-r-u-na had been kept in the house, and used according to directions, would have been prevented.

Miss Eliza Heintze, of 196 Each Main Street, Cambridge, O., writes: "About a year ago I contracted a terrible cold, which settled on my lungs. I was on the verge of the grave. My husband and my friends had given me up. I thankfully attribute my present good health, and in fact my living at all, to the good effect of Pe-r-u-na."
