Two Weeks Ago This Morning

The doors of our Scranton establishment were thrown open for business. The results have been phenomenal. They have been busy weeks here. Clerks have labored zealousy and intelligently. With incompleted store sys-tem, there has been much to contend with. Through it all, an ever indulgent public has accepted conditions as they were, and made the best of shopping opportunities.

To the thousands upon thousands who have made this store their holiday headquarters, and to the countless numbers who expect to be a part and parcel of our business during the future, we beg to express this morning our sincerest and heartiest best wishes for a

Merry, Merry Christmas

We feel obligated to the public of Scranton and vicinity who have so warmly welcomed and actively participated in the opening business of this great store, and earnestly advocated its success. We want you to become better acquainted with us and the store-to come and go, and feel at home. Wander through the aisles and feast your eyes at will, with no one to question your right to be here. Politeness and courtesy are prime factors in this business.

From day to day, we shall have stories to tell you of saving possibilities. We never advance prices—our motto is to reduce them. Always remember that! "A dollar saved is a dollar earned." We'll save you lots of them.

She was Divorced from John Ruskin to Marry the Artist.

From the Sun.

London, Dec. 24 .- Lady Millais, widow Sir John Millais, the eminent painter and late president of the Royal Academy, died today from cancer of the throat, the same disease which caused the death of her husband. Sun. Lady Millais was born Euphemia Chalmers Gray, of Bowerswell, Perthshire, and her first husband was John Ruskin. She was married to him in 1852, and it was only a few years late that he introduced the artist Millais into his home in order to paint a por

trait of Mrs. Ruskin. The romantic story which followed that meeting has been told in various ways, and one of

them dwelt on the sufferings which were caused by Mrs. Ruskin's actions, But more trustworthy accounts have made it appear that the writer was brug Manufacturing Company, Columsatisfied with the action of his wife and was, indeed, an active participant

Any Cold that hangs on may very properly be termed GRIP.

If it starts with headache, backache and Influenza, then it IS Grip. In either case the prompt use of "SEV-ENTY-SEVEN" is required to break it up. After a cure by "77" you feel almost vigorous; this is a strong point

to consider, when you think now completely a Cold, and especially La Grippe, exhaust the system.
