NUMERAL CHART INVENTED.

Rending Citizen Has Produced Some-

thing to Fill the Long Felt Want. Factoryville, Pa., Dec. 29.-A new device known as the "Automatic Nu-meral Chart," has been invented by Moses Zwelzig, of Rending, Pa. Mr. Zweizig, who is an experienced teacher, has long felt the need of something erfor to the old time primary muluplication and division.

The invention consists of a sheet of zine perforated with 144 squares, in each of which appears the picture of

The number work of the multiplication and division tables is printed on · sheets attached to rollers, and is so arranged that every movement will preduce a new combination of figures with their corresponding number of object pictures.

This proves a great saving of time and labor to the teacher, as no other objects are needed to illustrate the

tion; they are eager to know what combination and result each successive move will produce.

The inventor claims that by the means of the automatic association of objects, a child will learn the tabics in about half the time required by any other method.

The "chart" is highly recommended by educators. It is beautifully mounted in a frame of convenient size for the school room, as well as similar size for private use.

Mr. Jahn K. Zweizig, of this place. and a brother of the inventor, has er, and the "charts" will be placed upon the market the first of the year, and headquarters and the factory will either be located here or in Scranton.

### AVCCA.

night at 8 o'clock

The Christian Alliance meeting will held tonight at the home of Miss Mary Hastie. This meeting will be one of unusual interest. Miss Speece, Miss Nichols and Miss Dimmick from the Missionary Institute of Wyack, N. Y., will speak on Missionary work and the higher Christian life. Leon Schrager is seriously ill of ap-

Miss Jennie Deeble, of West Side, is spending a few days with Wilkes-Barre

friends. Rev. P. J. Golden, of Williamsport, spent Monday at the Golden residence. A scheme is on foot to light Durout by electricity. Scranton capitalists are interested in the project with the privilege of allowing the citizens a certain amount of shares.

Inspector Gorman, of the postoffice department, Philadelphia, called upon Postmaster Deeble on Monday. His business was in connection with the recent robbery.

John Christian was seriously injured yesterday while at his work in the Central breaker of the Pennsylvania Conl company. He was engaged in oiling machinery, when he missed his footing and fell into the chute, sustaining broken ribs and other injuries. David Rosser, of Cedar Ridge, Ia. is spending the holidays with friends

spending the holidays with his son, Rev. J. Jones, pastor of the Primitive Methodist church.

Mrs. Alexander and son, James, of Plainfield, N. J., are guests of Mrs. John Morgan.

Miss B. Quinn, a teacher in the Elmira public schools, is spending the holidays with her parents on the West

### HALLSTEAD.

Spencer Tiffany, of Montrose, is visiting friends in town.

Rev. R. N. Ives, of Binghamton, was

in town on Wednesday. The dry goods store of B. C. Raitt, of Great Bend, was closed by Sheriff Ward Diel on Tuesday. Ford Dixon, of Hickory, was in town

Wednesday. Frank W. Swigert, who has been visiting his parents in Carbondale, has

returned home. F. H. Johnston, of Montrose, was in wn on Wednesday.

Fred. Davis, of Syracuse, was in own on Wednesday. Remember the "Amet" magnascope at Y. M. C. A. hall tonight.

There was a slight wreck in the Delaware, Lackawanna and Western yard at this place Wednesday morning. The rear car of an Elmira train collided with the caboose. No serious damage

Miss Blanche Douglass, of Binghamon, is visiting friends in town.

### AS TO LEAP YEAR.

How "ope Gregory Reformed the Wasteful Julian Calendar. From the Philadelphia Times.

Every year that is divisible by 4 is a leap-year, except the closing year of a century, which is a leap-year only when it is divisible by 400. The year 1900, therefore, will not be a leap-year, but the year 2000 will be. After 2000 the closing year of the century will be a leap-year at intervals of 400 years-2400, 2800, 3200, 3600, etc., but the closing year of the intermediate centuries will not be a leap-year, in spite of the fact that the year may be divisible

To explain this arrangement, let us tell you how we came to change from the Julian to the Gregorian calendar. According to the Julian calendar, the year consisted of 365 days, with one The manipulation of the chart ex-cites the pupils interest and atten-345 days and 6 hours, whereas the true solar year consists of 365 days, 5 hours, 18 minutes, and 50 seconds.

In adding one day to every fourth year, therefore, an excess of about 11 minutes was given to each day; and though the excess was comparatively small, it had amounted, in 1582, when Gregory XIII, was Pope, to ten complete days. So great was the disturbance caused by this shifting of days in unfixing the times of the celebration of Easter, and of all other movable feasts, that Gregory determined to reconstruct the calendar, so as to make the civil year accord more nearly with the solar year. He therefore ordained that ten days

should be deducted from the year 1582. which was done by calling what wou have been the 5th of October, the 15 of October; and to prevent such an e cess of civil time over solar time the future, it was further ordain The contest for a gold watch, the that the extra day-the leap-year day proceeds of which will be for the bene-it of John T. Blease, jr., will take year of any century except such place in the Albian band rooms to- were divisible by 400. By this arrang ment the difference between the ci year and the solar year will not amoun to one day in 5,000 years.

### CONVEIENT FIRE EXTINGUISI ER.

One of the most useful things for the extinction of inciplent fires is the hand grenade. These can be made as follows: Twenty pounds of comomn salt and ten pounds of sal ammoniac should be dissolved in seven gallons of water. Quart bottles of thin glass, should be filled with the solution, corked tightly and sealed, to prevent evaporation. In case of fire the bottle should be thrown so as to break in or near the flame. If the fire is in such a place as to prevent the bottle from breaking, as in wool or cotton, the neck of the bottle should be knocked off and the contents scattered .- Popular Sci

### NEW USE FOR PEANUTS.

Peanut butter answers in the place of ordinary butter for table use and is said to be excellent for shortening purposes. and for gravies, sauces, etc. In point of purity it is superior to the best dairy but-ter. It is well designed for the use of vegetarians who strenuously object anything animal. There is already considerable demand for this butter sul stitute, and it is very probable there will be an enlarged markel for the nuts. At present the product of the l'nited States is about 500,000 bags annually and that of the world is 600,000,000 pounds,-West John Jones, of Wilmington, Del., is Coast Trade.

## Begin the New Year By Buying Something

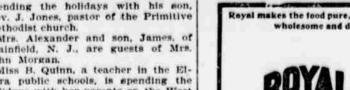

For the ones who were forgotten at Christmas. We have a number of Odds and Ends which we will close out at regular

## THE MARKETS.

Wall Street Review.

New York, Dec. 29.-Sugar was the only one of the leading stocks of the list to show any aggressive strength today, and after rising at one time almost two points it was overcome by the general heaviness in the rest of the market and closed with only a small fractional net gain. It was a profes-sional trader's market throughout and the industrial stocks which had been recent favorites with the bull clique showed the effect of realizing today. All of the local traction stocks were heavy but the selling was not coupled with any news and the declines were wholly technical. Total sales were 219,100 shares.
