The marriage of Miss Katle Quinn, daughter of Mr. and Mrs. Brian Quinn, of the West Side, to Francis J. Fadden, of Newport News, Va., was solemnized by Rev. M. F. Crane in St. garet McGeehan, of Hazleton, were charmingly attired in green cloth traveling suits, with fur trimmings, and looked very handsome. The groom was waited upon by Teddle Quinn, brother of the bride. A reception was tendered the immediate relatives of the wedded couple at the home of the bride's parents, after which Mr. and Mrs. Fadden left for Newport News, where they will reside. The groom was until recently a resident of this town, but has recently obtained a lucrative position in the south,

ANOTHER FLYING MACHINE. Artificial Wings Modted Like Those of the Flying Fox,

With the notable exception of M. Pe naud most experimenters on mechancal flight have worked with fixed aeroplanes driven by a screw propeller, A somewhat new departure has been made by Major R. F. Moore, who has selected the Indian flying fox (Pteropus edulis) as his pattern on which to construct models, From his experiments, Major Moore concludes that ar-

tificial wings can be constructed in imitation of those of the flying fox, and that the action of the pectoral muscles can be reproduced by spiral springs of suitable strength to hold the wings expanded, the up-and-down motion being accomplished by means of a light electric or other motor. Two or more pairs of wings, arranged tandem fashion, are found to be better than a single paira result fully in accordance with the conclusions formed by other observers. Major Moore considers it quite possible to construct a machine of this type capable of raising a man.

PROF. COLES FOR JANUARY.

The New Year, 1898, opens up with bright and promising prospects for the United States of America. be free from the shadow of the sun's eclipse, and from the evil influence of evil planets, which will make America the most prosperous nation on the earth; while the old country will be terribly afflicted by wars, pestilence, famine, earthquakes, tidal waves, dreadful massacres, unprecedented changes in the forms of government and assassination of rulers. The financial, social and political influencing planets will all be in position this year cast their greatest influence America and her industries; therefore let us all be up and doing the jump into the river of success while it is at High Flood. While the old country is being afflicted with pestilence, etc., America will be terribly storm beaten PENNSYLVANIA by the storm elements.

THE STORMS AND SIGNS. The sea of gaseous matter now passing over the face of the sun has so in-Today we begin the New Year and creased in bulk during the past four weeks that it can now be seen through a smoked glass with the naked eye, It throws the electric currents out of their the unsettled portions.

Mrs. Catelin, of London, the welling between us and the sun. These sur known revivalist, will begin revival spots will harm us in no other way services in the Primitive Methodist but by the storms that they produce church tomorrow morning. Devotions A full account and cause of these sur will be held every evening during her spots will be sent to any address for postage.

There will be two eclipses during the present month. The first, a partia clipse of the moon, on the 7th visible in most parts of the globe. It will be gin at 6,57 p. m. and end at 8.27 in th Eastern States. The second, a total eclipse of the sun on the 22d, not visible parts of the old country, and its dark path will be near the equator through Africa, India and China; this will b the means of sending thousands Chinamen to America, and unles Americans can read and heed the sign in the eclipse and take action at once America will have a plague of China men before the 20th century dawns America will be the "Klondike" of th whole world. Watch the awful afflic tions that will fall upon China, Indi and Africa during the year 1898.

EPIDEMICS.

The new and fatal epidemic that w predicted last month, would fail upo swine and cattle is now raging in man maler; M. of W. P. C., Nelson Ross; parts of this country. The planets are M. of A., Joseph Horn; I. G., William now in a position to produce fevers, Quotations.-All Quotations Based atmosphere seems to be filled with small and hideous appearing microbes What their mission is we do not know but we should pity the man-or beastupon whom they make an attack. Thos tormenting microbes (Flish Enters) Mary's church at noon yesterday. The that made their appearance last win-bride and her attendant, Miss Mar-ter in many sections of the country and caused so much suffering will ap pear again this month. They group into companies, and staking out their claims on human bodies, they at one begin to dig into the firsh, and soon cause a volcanic flesh eruption, similar to a boil.

Miners should be on their guard and watch for "cave-ins" this month, as the electric and magnetic currents are awfully unbalanced on account of sun's rays being thrown out of their natural channel by huge "sun spots. Just notice the increase of crimes this month.

During the middle and the latter part of the month watch out for hard storms, floods, high gales and blizzards Our "Sign Planting" instructions begin again next month.

THE MARKETS.

Wall Street Review. New York, Dec. 31,-Today s market for stocks was very dull and net changes for the most part are trivial and are divided amongst gains and losses, without much semblance of consistency or order. The local traction securities were the favor-ites as has been the case for many days past and they rose at one time sharply above last night's level under the beilef that they would benefit even if the pro-posed rapid transit project was consummated. There was considerable activity in the Grangers, with carry strength, Burlington crossing par, but later recessions carried prices below last night's level. Total sales were 156,700 shares. Oh, How Thankful

Pain Was Maddening and Hope Had Been Abandoned - Wonderful Results of Purifying the Blood.

"A very severe pain came in my left knee, which grew worse and worse, and finally a sore broke out above the knee. It discharged a great deal and the pain from my thigh down was maddening. Large, hard, purple spots appeared on my leg. I suffered in this way for years, and gave up all hope of ever being cured. My wife was reading of a case like mine cured by Hood's Sarsaparilla, and she advised me to try it. I began taking it and when I had used a few bottles I found relief from my suffering. Oh, how thankful I am for this relief! I am stronger than I have ever been in my life. I am in the best of health, have a good appetite and am a new man altogether." J. P. Moors, Lisbon Falls, Maine.
