"When time has done his perfect work. Stephen Girard, mariner and merchant, may be found to have come nearer immortality than the long procession of kings and cardinals, nobles and statesmen whose power was mighty in their own days, but who are only on their way to oblivion. I am well aware that this college of orphans, where in the wisdom of the founder requires facts and things to be taught rather than words and signs can as yet make no claim to that higher learning so essential to the ultimate progress of the world, but it has a mission as great and as high, and one which connects itself more nearly with the prac-

tical elevation of mankind. "Mr. Chard gave more than his money. He put into his enterprise his wown powerful brain, and like the ships he sent to sea, long after his death, the adventure came home laden not with the results of his capital alone. but of his forethought and his genius. He builded for so many years that the stars will be cold before his work

Supreme Court Affirms the Verdict

Given Against Von Der Ahe. Philadelphia, Jan. 3.-The judgment of the common pleas court of Pittsbarg in the damage suit of Pitcher Mark Baldwin against Chris Von Der Abe, owner of the St. Louis baseball club, was today affirmed by the supreme court. The suit was the result of charges of conspiracy by Ven-Der Ahe against Baldwin, when the latter was playing with the Pittsburg team in the spring of 1892. Baldwin. according to Von Der Ahe, attempted to get Silver King, then a nitcher on the St. Louis team, to sign a contract

with Pittsburg. Baldwin was arrested and locked up, but later brought a civil suit for \$10,000 damages for false arrest. Two Pittsburg juries decided in Baldwin's favor in the sum of \$2,500. Today's decision allows him that amount from Von Der

HUNTING FOR BURIED GOLD.

Trensure Belonged to Indians, and White Men Are Now After it.

Maryville, Mo., Jan. 3 .- Northwest Missouri is much interested in a search for gold, which has been secretly in progress for three months near Clear-Dave, John and Bill Bains, brothers, who live near the Iowa-Missouri line, declare that on a small strip of land two and a half miles north of Clearmont is a buried treasure in gold. Alexander Gray, a harnessmaker, owns the tract. The Bains boys assert that the secret was disclosed to them by some Indians of the Sac and Fox tribe who themselves made a search for the

gold several years ago. In 1837 congress extended Missouri's boundary lines so as to include six counties now in northwest Missouri. The Sac and Fox and Iowa Indians owned the land, and after much dif-ficulty it was purchased from them. Part of the price was \$7,500 in gold. delivered to Chief Cahaqua (Red Fox) at Liberty. Mo. He and his party were set upon and murdered by a band of Omahas. Chief Red Fox died without revealing the hiding place of the \$7,500 in gold and other tribal treasures in

his custody. The Sac and Fox Indians were taken to Kansas, and a tradition among them is that the treasure was deposited in a hellow log and sunk to the bottom of a small lake near where Clearmont now is. But the Nodaway River has since filled the lake with sand, and its position is doubtful. A stock com-pany of Clearmont business men has been organized to gid the Bains broth-

BIG COAL MINE

Dissatisfaction Among the Miners on HELP WANTED. the increase.

The Miners Intimate That the Suspension is Due to the Operator's Desire to Get Rid ot a Number of Labor Agitators -- Over Six Hundred Men Are Affected by the Closing

Dubois, Pa., Jan. 3.—The Rochester mine at this place was today closed indefinitely, the result of which has been to increase considerably the dissatisfaction which has prevailed among the miners in this section. The miners claim that the shut-down is due to the operators' desire to get rid of a number of miners who have been active in organizing since the recent strike. The company; however, claims that the closing of the mine is because of a misunderstanding with the land owners over the question of royalties, the mines being operated on the percentage plan. The dissatisfaction apparent here is also noticeable at Reynoldsville, where the mines are operated by the same company. At the latter place trouble is brewing over the collection of the check weighman's funds.

The miners at both points are well organized, and there is a strong possibility that a midwinter strike may be inaugurated before long. Over six hundred men are affected by the shut down at Rochester, of which but a small number will be able to get work at other holdings. At Reynoldsville about 1,000 men were idle today. Should a strike be ordered there will be much suffering among the miners, as there s a foot of snow on the ground and the thermometer has fallen to almost zero.

DORA CLAY TURNED BACK.

Started to Go to Her Aged Husband. But the Wenther Was Too Severe.

Valley View, Ky., Jan. 3.-Dora Clay tried to visit her aged and sick husbund, General Cassius M. Clay, today, but failed. She was told yesterday that he was ill with cold and had insomnia. She had just recovered from the results of a fall from John Giggerstuff's horse. Her physician had warned her to be careful and told her she would not be entirely well for a month. For this reason her brother, Clell, tried to persuade her to defer her visit to a more favorable time, but she insisted on going. Her brother sent his wife with her in the buggy.

The road, which is hilly and badly kept, was in a wretched condition, the weather was the coldest experienced in Kentucky this winter, and the snow was flying thickly. They got about half way when a farmer took them in to get warm. He told them the roads were worse further on, and persuaded them to turn back.

Dora says she will try to go to Whitehall tomorrow, or as soon as the doctor will allow her.

RUN OVER CHILCOOT PASS.

Electric Road Expected to Be in Operation in Three Months. San Francisco, Jan. 3.-W. K. Burk-

holder, of this city, has gone to Alaska to erect an electric transmission plant to operate an electric road over the Chilcoot pass, Electricity will be generated at Dyes

and transmitted twenty miles to the point where it is to be used. At the pass the telepherage system will be used. In addition to the electric wires, the poles will support cables from which heavy cars will be suspended The motors will be stationary and the cars will be propelled up the incline by cables on a drum.

The machinery has already been shipped and the plant is expected to be in working order in about three months, when, it is asserted, that Chiloot pass will lose all of its terrors.

HE WEDDED A WIDOW AT 75.

The Curious Matrimonial Experience of William Jones.

Milton, Del., Jan. 3.-William W. Jones, aged 75, and a veteran of the war, and Mrs. Mary J. Seed, aged 65, were married near here recently. This is Mr. Jones' third venture in matrimony. About two years ago, while a widower, he was attracted by the story of Jennie West, the actress, who had attempted suicide and was in distress in Philadelphia.

He went to that city and married the woman, bringing his bride here to live. But rural life did not suit Jennie, and she disappeared, after giving banjo entertainments in local shows, and at the last session of the legislature Jones was divorced, presenting a petition may properly come before the meeting.
