WEDNESDAY, JANUARY 5, 1898.

DEPOSIT'S GROWING LARGER.

Savings Plan at No. 19 School is a

Growing Success. Monday is the regular weekly deposit day for the depositors in Public school 19's bank. Monday, Dec. 27, 1897, was a holiday and no deposits could be made. However, Monday, Jan. 3, 1898, was more than enough to equalize, The deposits for this day amounted to \$29.42. This is the fifth deposit day since the inception of the savings bank feature and already nearly all of the pupils are depositors. The next largest deposit was the second one amount-

Two reasons might be inferred why last Monday's deposit was so large. The first is that Santa Claus must have taken note of what the pupils of No. 19 were doing in co-operation with their teachers and instead of a toy, or some such gift, cold cash was substituted. Then again some of the children may have decided to save some of their Christmas spending money and

Either reason bespeaks the foothold the idea has gotten among the children primarily and as a consequence the parents. There seems to be left no doubt as to the "deposit" idea for a two weeks vacation at Christmas is ertainly crucial enough so far as a test is required to determine whether the publis will save or not.

CONGREGATIONAL MEETING.

Held by the Members of the Washburn Street Presbyterinn Church.

The members of the congregation of Washburn Street Presbyterian church met in annual session last evening at the church. C. R. Pitcher, esq., presided. Several reports were made which were very encouraging. The business to be disposed of was the election of two trustees for the threeyear term, renting of pews and the question of choir or no. The pews were easily rented, many of them being re-taken by the old holders. J. D. Williams and William Frink, whose terms as trustees expired, were succeeded by Joseph A. Mears and D. L. Morgan.

The matter of a choir was provocative of considerable discussion. It was finally referred to the music committre with power to act. The probabilities are that Professor C. B. Derman will be requested to select and build up a choir from among the church members. In addition the pastor, Rev. J. P. Moffatt, has assumed the task of raising \$3,600 towards the church's indebtedness before April 1, 1898. He reported that \$3,000 was already in sight and arrangements would soon be completed towards getting the remaining

JINGLING SLEIGE BELLS.

A large number of sleighing parties are being held from this side in order to reap all the pleasure possible from the fall of snow. There was so little of this pleasure last year that everyone seems determined to have a shy at it this time. A large party went to Elmhurst last evening. There the members of the party became the at the First Welsh Congregational guests of Mr. and Mrs. Byron Buck-church. Short services will be held at

ST. PAUL ASSOCIATION,

TO CURE NERVOUS DYSPEPSIA

To Gain Flesh, to Sleep Well, to Know What Appetite and Cood Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

Interesting Experience of an Indianapolis

Gentleman. No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves to blame and are surprised that they are not cured by nerve medicine and spring remedies; the real seat of the mischief is lost sight of; the stomach is the organ to be looked after. Nervous dyspeptics often do not have

any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach much as in nearly every other organ; n some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper, of No. 61 Pros-

ect St., Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave temporary relief until the effects of the mediine wore off. I attribute this to my sedentary habits, being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better and am better in every way. The above written not for notoriety, but is based on actual fact."

Respectfully yours, A. W. Sharper.

61 Prospect St., Indianapolis, Ind. It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache.

Send for valuable little book on tomach diseases by addressing Stuart Co., Marshall, Mich.

MINOOKA.

The Democratic conferrees of the town-ship will meet this afternoon at Lottus' hotel in the West district (Moosie). The result of the conference is awaited with much anxiety among the office seekers. A lively meeting is anticipated. In the Southwest district the fight for the school controllership is waxing warn. Thomas P. King, the present efficient controller, is seeking a r-election. He is opposed by Peter Mullin and P. F. Foley The contest will from present appearances, be worth watching, as each candidate is putting up a vigorous battle. There are candidates galore for the supervisorship in both districts.

The Republicans of the Southwest dis-

caucussed at the polling place in that district last evening. Frank Toole, the present incumbent, defeated C. W. the present incumbent, deteated C. W. Thompson for the supervisorship. F. R. Lovering was renominated for school di-rector. John Watkins was selected as the party's representative for auditor.

An exciting runaway enlivened the town early last evening. A team of horses attached to a truck sleigh owned by the Lackawanna Desiccating company took fright on North Main street and dashed along the main thoroughfare at a breakneck speed. All attempts to stop the team were fruitless and just what became of the outlit and its eargo is unknown. Driver Williams was thrown from the seat but he escaped uninjured. The Independent club harvest is ripening. Keep your weather eye open for the pre-election crank.

K. OF P. OFFICERS.

Installed Last Night at Scranton Conneils' Meeting.

Scranton council, No. 263, Knights of Pythias, met last evening and installed officers for the year. The officers are N. L. Griggs, chancellor commander; Fred Owens, vice chancellor commander: George Duval, master of work; Anderson Butzman, prelate; Richard Castner, master of finance; Mr. Tewksbury, master of the exchequer; William Lumley, keeper of records and seals; James G. Burnett, past chan-

The meeting was largely attended.

New Lutheran Church Dedicated. The new Lutheran Emanuel church, Rev. F. Kowala pastor, on Reese street, near Marvin shaft, will be consecrated with appropriate services Sunday, Jan. 16, at 2 p. m. Among the different speakers will be Rev. L. Linderstruth, president of this conference, and Dr. W. Spicker, of Philadelphia.

MOOSIC.

PREPARING FOR THE RACES.

of Cornell.

New Haven, Conn., Jan. 4.—An interview with Processor Huffcut, of Cornell a member of the athletic advisory board of that college, and inviting Yale to row at Lake Cayuga near Ithaca, and promis-ing the Yale crew that their expenses would be paid if they would row there,

has occasioned at me comment here. Bob Cook, Yale's coach, said today: "By the terms of the five years Yale-Harvard agreement, the two colleges are to row at New London this year. This is settled and Lake Cayuga is out of the

"I want to make one statement, how ever, relative to a remark sent out from Cornell in an interview. This declares that the first half mile of the course al New London is unfair, that the water is shallow and that the oar blades catch it the cel grass. The water is somewhat shallow, I grant that; but there is no cel grass whatever there and there is non whatever on the new course we have surveyed at New London. The water is not shallow enough there to bother the crews. I have the word of Coach Court-ney, of Cornell, that the New London course is perfectly good and fair, and his opinion ought to be of weight among Cor-nell men. That offer that I made the other day to give Cornell her choice of course, if she will row at New London, .. repeat. I do this simply to show that Yale is perfectly fair and that if there is any advantage to be found there, Cor-nell is welcome to it."

GOLD AT LABRADOR.

Deposits in Existence Equalled Only By Those of the Klondike.

Halifax. Jan. 4.-Representatives Canadian and American company who isited Labrador for the purpose of erecting saw mills, report that that country contains deposits of gold of great richess and is destined to be milning country. There exists strong evi-dence that the gold is to be obtained in partitles equalled only by the deposits of the Klondike. In fact it is asserted that the deposits in Labrador are on the me range as those on the Klondike Freliminary arrangements for a gold specition which is to start by vessel in Two he spring have sirendy been made

DURRANT CASE AGAIN.

Prospects of Another Stay in the Proceedings.

San Francisco, Jan. 4.—In the United States circuit court, before Judge W. W. Morrow and District Judge DeHaven, sitting en banc today, Attorney Eugene Duprey succeeded in obtaining leave to present and to file a petition for a writ of habeas corpus on behalf of W. H. T.

Durrant, confined at San Quentin. When the petition had been heard and Attorney Duprey had concluded his ar-gument, Judge Morrow in a low voice au-nounced that the matter would be taken under advisement by the court and that decision would be rendered at 11 o'clock emerrow merning.

POWDER EXPLOSION.

Seven Men Killed Outright and Many Are Injured.

Madrid, Jan. 4.—A dispatch from Oviedo, capital of the province of that name, in the Astrurias district, says that two hun. dred kilogrammes (about 440 pounds) of powder, exploded today at the San Wanjova factory. Seven were killed outright and many oadly injured. The buildings were completely destroyed.

Company Store Que tion. Harrisburg, Jan. 4.-Attorney General McCormick this afternoon granted the writ of quo warranto in the case of Frank Price vs. the McElhous & Co., Cambria county, accused of maintaining a company store in connection with a coal mine. The attorney general says that if there are any violations of the act and they are not brought to his atare invited to meet at the manse this afternoon at 3 o'clock to listen to Rev. tention, the persons possessing the knowledge have themselves to blame.

THE HEAT PLAGUE OF AUGUST, 1896.

an Interview With Professor Huffent. Mrs. Pinkham's Explanation of the Unusual Number of Deaths and Prostrations Among Women.

The great heat plague of August, 1896, was not without its lesson. One could not fail to notice in the long lists of the dead throughout this country, that so many of the victims were women in their thirties, and women between forty-five and fifty. The women who succumbed to the protracted heat were women whose energies

were exhausted by sufferings peculiar to their sex; women who, taking no thought of themselves, or who, attaching no importance to first symptoms, allowed their female system to become run down.

Constipation, capricious appetite, restlessness, forebodings of evil, vertigo, languor, and weakness, especially in the morning, an itching sensation which suddenly attacks one at night, or whenever the blood becomes overheated, are all warnings. Don't wait too long to build up your strength, that is now a positive necessity! Lydia E. Pinkham's Vegetable Compound has specific curative powers. You cannot do better than to commence a course of this grand

medicine. By the neglect of first symptoms you will see by the following letter what terrible suffering came to Mrs. Craig, and how she was cured: "I have taken Lydia E. Pinkham's Vegetable Compound and think it is the best medicine for women in the world. I was so weak and nervous that I thought I could not live from one day to the next. I had pro-

lapsus uteri and leucorrhœa and thought I was going into consumption. I would get so faint I thought I would die. I had dragging pains in my back, burning sensation down to my feet, and so many miserable feelings. People said that I looked like a dead feelings. People said that I looked like woman. Doctors tried to cure me, but failed. I had woman. I heard of the Pinkham medicine. I got a bottle. I did not have much faith in it, but

thought I would try it, and it made a new woman of me. I wish I could get every lady in the land to try it, for it did for me what doctors could not do."-Mrs. SALLEE CRAIG. Baker's Landing. Pa.

Them Have Been Installed in the Postoffice.

Two Bundy time recorders, one for

carriers and one for clerks, have been

placed by the government in the postoffice. They are manufactured by the Bundy Manufacturing company, of Binghamton, N. Y., and will keep tab on the hours of Uncle Sam's employes. The carriers' recorder has forty-one sets of four keys each for forty-one men. Carrier No. 1, for instance, has keys marked "1," "L1," "R1' and "E1." The first is used when the carrier reports for duty, the second when he leaves for his delivery or collection, the third when he returns, the fourth when he finishes work. When carrier No. 5, say, leaves for his route he inserts key "L5" in the recorder and turns it. A bell rings and "L5" is printed on a white roll of paper tape opposite "10.30 o'clock," or whatever hour at which the key was turned. All the keys hang on a board alongside the recorder.

The instrument looks like any good large wall clock. It has a dial showing the time of day. The ordinary clock mechanism is connected with a contrivance below the pendulum. The lower apparatus makes the record on the tape. The impression is made from the figures and letters contained on a die on the key.

The recorder for the clerks is simple: as it only records the time of duty and departure

The local postoffice officials have not received final instructions as to the use of the clocks. It is known however that the records made on the rolls of tape are to be copied in a book at regular periods, presumably for future reference in case it is necessary to know whether a clerk or carrier was on duty at a given time and for the ise of the executives of the office.

TWO SEWER ORDINANCES.

They Will Be Considered by Council Tomorrow Night.

A meeting of the sewers and drains emmittee of select council has been called for early tomorrow evening previous to the hour for calling the stated meeting of the council on that night. Two important sewer ordinances are now before the committee and, if reported upon, may be considered in the council meeting.

One is the select council ordinance which provides for a main sewer or North Main avenue, Providence road and Philo street. Expediency in disposing of it is urged because of the agitation for a system of paved thoroughfares between the Carbon street bridge to the city line and which may be via a route which includes the pro-

BUNDY TIME RECORDERS. posed sewers. According to the estimate of the city engineer the system will cost \$24,700, of which \$16,450 would be assessed against the city and \$7,050 against the property owners and \$1,200 for inspection, etc.

The second sewer ordinance has passed the common branch and provides for what would be known as the Nineteenth district. In this district is the whole of the Sixth. Fifteenth and Eighteenth wards and a part of the Fifth

ANOTHER STILL ALARM,

Chemicals Made a Quick Response Under Great Difficulties.

The Chemical company was summoned to the home of Louis Siebecker, at 432 Monroe avenue, at 10.59 o'clock yesterday morning by a still alarm. When the members of the company reached the house they found it filled with smoke from a small fire which had started under the kitchen sink. The fire was quickly extinguished and

the smoke cleared from the house Going to and from the fire with their engine the members of the Chemical company had a most exciting experience. They went by way of Lacka-wanna, Jefferson and Madison avenues to Vine street and out Vine to Monroe avenue. Madison avenue and Vine street hills were so slippery that it was with difficulty the horses could pull the heavy engine, the rear wheels

constantly slewing around. On the return trip down the Monroe avenue hill to Linden street the ride was exciting. The horses were unable to hold the heavy apparatus back and to prevent a runaway that might be attended with serious consequences Driver Campbell was compelled to constantly keep the wheels close to the curb stone. The experience of the Themicals vesterday emphas difficulty that would be met in fighting a big fire near the summit of the hill in cold weather when the pavements

are covered with ice,
