The case of Daniel Brogan, the boy who was arrested on a charge of incorrigibility made by his foster-parents, Mr. and Mrs. Anthony Brogan, of North Scranton, brief mention of which was made in The Tribune recently, was given a final hearing fore Alderman John T. Duggan, agent for the Board of Associated charities, believed that his departure from his adopted nome was justifiable, and for that reason Mrs. Duggan appeared yesterday in his defense

On the stand Brogan, who is 17 years old, repeated his story of the hardships heaped upon him by his fosterparents. It appears that when the boy's parents died the Brogans, by due process of law, adopted the son. He lived with them for eight years and two months ago, desperate to end his troubles, the boy left home. He went to the residence of Mrs. John Walsh, of River street, where his sister was staying, and to avoid being detected by the Brogans, who were looking for him, the boy changed his name to Hagen.

Last Wednesday, however, the Brogans heard of the boy's whereabouts and swore out a warrant for his arrest. The hearing was yesterday.

The boy said that he left home because his foster-parents ill-treated him. They would not permit him to ake a valuable tip from the action of his go to school but Mr. Brogan compelled him to work in a sand pit shoveling whereby the streets and crossings in the business section of the city were kept sand into wagons. One day while at work the sand bank caved in and the boy was covered up. TO CURE NERVOUS DYSPEPSIA

To Gain Plesh, to Sleep Well, to Know What Appetite and Cood Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets,

interesting Experience of an Indianapolis Gentleman.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame and are surprised that they are not cured by nerve medicine and spring remedies; the real seat of the mischief is lost sight of; the stom-

ach is the organ to be looked after. Nervous dyspeptics often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of sia shows itself not in the stomach so much as in nearly every other organ; in some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper, of No. 61 Prospect St., Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. L have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave tempor- , ary relief until the effects of the medicine wore off. I attribute this to my sedentary habits, being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better and am better in every way. The above is written not for notoriety, but is based on actual fact."

Respectfully yours,

A. W. Sharper, 61 Prospect St., Indianapolis, Ind. It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of stomach. Mr. Mitchell came to this country when a boy, and after residing in Pittston a few years he settled in Avoca, when there were but few houses in the neighborhood.
