THE MARKETS. Wall Street Review. New York, Jan. 19.—The market for stocks today improved in tone and activity as the day wore on and at the close the general list showed fractional improvement, while in some cases there was a rise of from 1 to 2 1/2 points. The close was strong at the best prices of the day. The extreme ease of money, call loans being made as low as 1/8, was a potential influence in the market's late strength. There were several other beneficial features in the news of the day; the weekly earnings of railroads in nearly every case were net increases running up to \$2,000,000 in Chesapeake and Ohio, and \$3,000,000 in Louisville and Nashville. The \$2,000,000 Illinois Central terminal bonds were considerably over-subscribed. These facts together with the action of the house of representatives at Washington in support of the tariff against Cuban resolutions caused a rising tide in quotations, the traders taking the view that legislative action in behalf of Cuba for a long time was improbable. The total sales were 287,000 shares.
