NORTHEASTERN PENNSYLVANIA

FACTORYVILLE.

The annual meeting and election of officers of the Winola Oil, Gas Develstockholders will be held at Reynolds' hall Saturday, Feb. 3, at 10 o'clock. Ray Barber, of Scranton, was looking after the wants of our physicians vesterday.

The second intermediate session of the Lackawanna and Wyoming Musical Alliance at Nicholson Jan. 28 to 29, inclusive, with grand concerts Thursday and Friday evenings, Mr. Alfred Wooler, of Scranton, will be the leading soloist for the concerts, Professor Llewellyn Shields will be the director, and Mrs. Frank Baker will be the accompanist.

Don't forget that today is Republican caucus, and come out and help nominate borough officers for the ensuing year.

We are under obligations to the editor of the Railway Employes Journal for a copy of the January issue. It is brim full of spicy reading matter, and is a credit to the editor. The Journal is a great favorite along the line of the Delaware, Lackawanna and Western railroad. May it ever pros-

per. The leading question-Did the squirrel go round the man? Or did the man go round the squirrell?

Our "Bowery" is fast gaining a reputation as business increases on it, and Uncle Sam's little humble cottage will soon have to be removed to more respectable and quiet quarters.

We would like to hear our mandolin and guitar club give an open air concert on the "Bowery" band pagoda. Only seven more days left to catch pike and pickerel. "Git there, Ed."

HONESDALE.

Master Zenas Russell entertained a company of his young friends at his home on Second street Thursday evening.

The Republican borough caucus will be held in the city hall this Saturday evening from 6 to 8 o'clock. Miss Curtis, a graduate of Mr. Mcody's training school, will speak before

well attended. A number of tickets have been sold and the entertainment will be worth the price of admission. The funeral of Mrs. Martin Dougher took place on Thursday afternoon from the family residence in Brownsville, Services were conducted in St. Mary's church. Interment was made in St. Mary's cemetery,

BUSINESS IMPROVING.

The Volume of Business Remarkable for This Time of the Year. Thirty-eight Per Cent, Larger Than Last Season.

New York, Jan, 21.-R, G, Dun & Co.'s weekly review of trade will say tomorrow;

With a volume of business remarkable for the time of the year, 38 per cent. larger than a year ago and 1.14 per cent. larger than in 1892 in pryments through clearing houses, it is liscouraging that one or two industries are lagging. The demand for tost goods is more heavy for the season, manufacturing works are better employed and business orders booked and prospects for the future are more encouraging, than at this season in any other year of which equally definite ontinue surprisingly heavy in spite of ome rise in prices. The treasury receipts from customs were larger in twenty days of January than in the entire month of October or November, and apprehension regarding the monetary future is no longer felt outside of opement and Improvement company executative circles. Failures are con-

siderably smaller than were ever known at this season, both manufacturing and trading less than half last year's. Railroad earnings in January thus far reported have been 17.6 per cent. larger than last year, and 10.3 per

cent. larger than in 1892. The rise of wheat above a dollar in regular sales was not accompanied by signs of speculative excitement. In fact, the continuance of extraordinary exports, 2,945,705 bushels, flour included, for the week from Atlantic ports, against 1,173,215 last year, besides 4,036,-340 from Pacific ports for three weeks, would give excuse for high prices, even if the corn exports were not enough to if the corn exports were not enough to suggest great foreign need, amounting to 9,270,185 bushels against 10,774,293 for Recok. Rap. T. 294 three weeks. The fact that cargoes of corn were shipped during the week Canada Southern . 524 were shipped during the week both to Egypt and Russia, the very countries upon which Europe most relies for breadstuffs next to the United States, affected trade not unreasonably. Just when unprecedented production of pig iron was causing weakness, extraordinary demand for finished pro-dutes appears. For this season, at least, the general demand is beyond precedent, including 150,000 tons steel rails for the week and 1,200,000 already rails for the week and 1.200,000 already this year, orders for plates so large that Pittsburg works send away some Lehigh Valley 25 to other concerns, unable to fill all they receive, orders for bar such that many Mis. Pac. concerns are obliged to refuse more, an excelient demand for sheets, and fair for structural forms. Nor does this demand spring from efforts to combine makers of wire and its products, and makers of tin plates. Prices of all finished products are sustained by the demand, though Bessemer pig is five cents lower at Pittsburg, but pig at Chicago is strong with some production of finished forms delayed by its scarcity, the great strike of oper-atives in cotton mills of New England seems as convenient to mill owners with their heavy stocks unsold as if they had ordered it. Probably it will last long enough to work off stocks, and the print cloth market is already about 1 per cent, stronger, while a slight advance is noted in some other cotton goods. With very stagnant markets for wool, sales amounting to only 5,395,200 pounds at the three chief July cities, which reported over 18,600,000 in CORN. May one week of September, and 60,500,000 July in four weeks, the inquiry for sound lots is mainly for three-eights and May quarter blood, suitable for cheviots, July but have resulted in little dealing. The mills have taken satisfactory orders for May LARD. such goods, probably not without knowing where they could get the wool, and the goods movement is distinctly encouraging, though quotations of the higher priced heavyweights are still deferred. But a very large business for the coming season is already assured, according to reliable accounts entitled to confidence. Failures for the week have been 374 in the United States against 409 last year, and 52 in Canada against 65 last

York, Jan. 21.-Substantial fraconal losses were the rule on the Stock other year of which equally definite Exchange today. Sugar and Metropoli-records exist. Exports of products tan were notable exceptions, showing gains of ½a2 points respectively. Sugar's strength was attributable to Washington advices that Hawaiian annexation was improbable, and Metropolitan Street Railway advanced on talk of further extension. A disturbing element in specylation was the grave appearance of the Chinese situation with Japan mobilizing her forces and France reinforcing her Pacific fleet. Another matter that at-tracted considerable attention was the nnouncement from Wasnington that a vote would be taken next Thursday on the Teller resolution. Commission houses seemed the principal sellers during the day and there were large realizations m Northern Pacific Preferred, which receded one point. The total sales were 292,000

From the Detroit Free Press. He is a very young boy. His is the age when a lefty contempt for the opposite sex manifests itself; the contempt which usu-ally finds merciless retribution in later years. His task of watching the baby was not as distressing as it might have been. He had utilized the baby carriage as a cradle and had found a place where the floor sloped a little. Echind the ve-hicle he extended himself, and with head on hand proceeded to read a story paper. An occasional pull at a string frastened to the rear axis imparted the motion neces-sary to keep the slumberer from waking. But the baby soon had its map out, and began to cry. The boy paid no attention to the noise, and after a while has sister came to investigate.

"Why don't you try to find out what's the matter with baby?" she asked. "There's no use," he answered, rolling

larily over and letting go of the string. "I suppose you are going to be there and walt for it to learn to talk so it can tell you what it's crying about?" "No," he answered, "being able to talk wouldn't make much difference." Why not?"

"fiecause it's a girl. Girls most always don't know what they're crying about, it just retries natural to them to do it."

ame to investigate.

A LITTLE SUFFERER

Face, Hands and Arms Covered With Scrotulous Humors-How a Cure Was Effected.

scrofula on his face, hands and arms. It was worst on his chin, although the sores on his cheeks and hands were very bad. It appeared in the form of red pimples which would fester, break open and run and then scab over. After disappearing they would break out again. They caused intense itching and the little sufferer had from scratching the sores. We became greatly alarmed at his condition. My wife's mother had had scrofula and the only medicine which had helpd her was Hood's Sarsaparilla. We decided to give it to our boy and we noted an improvement in his case very soon. After giving him four bottles of Hood's Sarsaparilla the humor had all been driven out of his blood and it has never since returned." WILLIAM BARTZ, 416 South Williams St., South Bend, Indiana.
