GOVERNMENT'S PURPOSE

The Warship Will Make a Friendly Visit.

Senor De Lome is Given Informa-White Squadron -- Senor Quesada's Opinion of the Situation.

States battleship Maine has been ordered to Havana

Within forty-eight hours, for the first time since the insurrection broke out in Cuba three years ago, the United States government will be represented in the harbor of Havana by a warship. The decision to send the Maine was finally reached at a special meeting at the White House this morning between the president, Secretary Long, Attorney General McKenna, Assistant Secretary Day and General Miles, and it s a striking fact that with the exception of the secretary of the navy and the attorney general, not a member of the cabinet knew of the president's intention to take this radical action. It is not denied, however, that some such move has been long in contemplation, as is evidenced in the following statement of Assistant Secretary Day made

this afternoon: "The sending of the Maine to Havana means simply the resumption of friendly naval relations with Spain. It the harbors of other countries with and German warships have recently visited Havana. This is no new move. The president has intended to do it for some time, but heretofore something has happened to postpone it.

"The orders to the Maine mean nothing more than I have said, and there is fession, charging Smith with the murnothing alarming or unfriendly in der. them. The Spanish minister here is fully informed of what is going on and so far as I know, has not made the slightest objection to it."
Further, Assistant Secretary Day

said that Consul General Lee had not

sent for a warship. This statement shows that the move was made deliberately, and that it could not have been taken if there were serious apprehension of its results in Havana. The general belief here, however, is that in Madrid, rather than in any Cuban town, is trouble to be looked for if there should be any misapprehension of the purpose of our government in sending the Maine to Havana. The temper of the opposition newspapers in the Spanish capital has been threatening for some time and it may require the strong hand of the news censor to repress utterances that would lead to rioting.

ORDERS NOT PUBLIC. Admiral Sicard's orders were not

made public in their text at the navy department, but it was stated that the substance of them was contained in the statement made by Secretary Long. The orders were not sent directly to the Maine for the reason that she is now attached to the squadron and the naval regulations require all such orders to go through the superior officer. There is some question whether the telegram reached the admiral before e sailed with his squadron from Key West for Tortugas harbor. The belief is that it did not, but this will make little difference in the programme, inasmuch as the telegram doubtless will be sent to the admiral by one of the torpedo boats or some other means of conveyance. The details of the Maine's movements are believed to be left for the arrangement of Admiral Sicard, but it is thought that the ship, which put to sea with the squadron, will return to Key West before going to Havana.

The German ships to which Assistant Secretary Day referred in his statement are the Charlotte and the Geyer, both training ships and not of the formidable type, though one sufficed to settle hastily the recent Haytien difficulty. Their touching at Havana is not believed to be significant, as their cruise was arranged in all details last September and the same ships are due at Charleston, S. C., early in Febru-

THE MAINE'S COMMANDER.

The commander of the Maine, Captain Sigsbee, is a favorite in the navy department. For four years he was chief of the hydrographic offices, and by his energy brought the office up to a high standard. He was lucky to get so unportant a ship as the Maine considering his actual rank, which is that of a commander, but immediately he justified the department's judgment in the selection by running his ship straight into a dock in New York har to avoid running down a packed excursion boat.

This was a display of quick judgment, nerve and pluck that pleased the department so highly that the captain was sent a complimentary letter. His officers are also a good lot, including Lieutenant Commander Richard Wain-wright, Lieutenant G. F. Holman, John Hood and C. W. Yungen, lieutenants (junior grade); G. W. Blow, J. T. Blandin, F. W. Jenkins; Cadets J. H. Hol-W. T. Cluverius, Amen Bronson and D. F. Boyd, jr.; Surgeon L. G. Heneberger, Paymaster C. W. Littlefield, Chief Engineer C. P. Howell, Past Assistant Engineer F. C. Bowers, Assistant Engineer J. R. Morris and

ant of Marines A. W. Catlin.

SECRETARY LONG'S MOVEMENT Secretary of the Navy Long said con-cerning the movement: "So far from there being any foundation for the rumors yesterday of trouble at Havana matters are now in such condition that our vessels are going to resume their friendly calls at Cuban forts and go in and out just as the vessels of other nations do. The Maine will go in a day or two on just such a visit. The department has issued orders for vessels to attend the pullic celebrations in Mobile and the Mardi Gras at New Orleans and for the torpedo boat Flotilla to visit Galveston, Tex."

Solemn Statement to Committee of the Reichstag.

Segotiations Between China and Germany Regarding the Kino-Chau of Ambassador White.

Berlin, Jan. 24.-The minister for foreign affairs, Baron von Buelow, made a solemn statement today before the budget committee of the Reichstag in regard to the Dreyfus affair. He declared most emphatically that there had never been relations of any kind between German representatives or agents and Dreyfus.

He also said that the negotiations with China now concluded had resulted, firstly, in the governor of Shan Tung being removed and forever deharred from holding high office; six high officials named by Germany had also been removed and punished, and proceedings had been instituted for the punishment of the actual perpetrators of the crime. Secondly, China had promised to pay 3,000 taels for the material loss of the mission. Thirdly, as atonement for the death of the mis-sionaries, three churches were to be erected, each provided with an imperial tablet, showing it to be under the pro-tection of the Chinese emperor, one at Tsin-Nig, another at Tsao-Chou-Fu, and a third at the place where the murders were committed. China grants 66,000 taels for each church and free sites. Another 24,000 taels is assigned for building seven secure residences for the Catholic prefecture of Tsao-Chou-Fu. Fourthly, a special imperial edict is issued for the protection of the Ger-

man missions. "China," Baron von Buelow explained, "has thus complied with all our demands. Bishop Anzer regards the imperial protection tablets as extremely advantageous. The privilege is rarely accorded, and will considerably heighten the prestige of the Catholie missionaries in the eyes of the

Chinese. "The German government believes it has done all that is necessary for the prevention of further outrages. The best guarantees, however, are the permanent presence, under the treaty, of every Tory sheet from Boston and New German men of war and a garrison at Klao-Chau, by which it is hoped the authorities and population of China will not again forget that no wrong done to German subjects will be allowed to pass unpunished."

Berlin, Jan. 24.-Besides his cable rose. The district attorney is said to message to Secretary Sherman. United have strong evidence against both men. States Ambassador White has written in detail, denying the statements that

Resolution on Behalf of Cubans Submitted.

Mr. Turpic Makes an Earnest Speech in Support of the Teller Resolution. Mr. Morgan Discussed the Hawaiian Struggle as Associated with Cleveland's Administration -- The Strike of the Cotton Mills Considered and Erroneous Reports Corrected in the

Washington, Jan. 24.—Proposed an-nexation of Hawaii was somewhat exensively reviewed by Mr. Morgan, of Alabama, today while speaking to a question of personal privilege. Alabama senator had been represented as saying in executive session substantially that ex-President Cleveland was in favor of Hawaiian annexation. This statement called out a denial from Mr. Cleveland in support of his original statement. Mr. Morgan addressed the

senate at great length. One of the features of the session was an elaborate speech by Mr. Tur-pie, of Indiana, in support of the Teller

resolution The pension appropriation bill was called up and debated for nearly three hours, but was not passed, the senate adjourning until tomorrow, pending the disposal of a point of order made against an amendment offered by Mr. Allen, of Nebraska, to the pending bill. Mr. Walthall presented a joint resolution adopted by the legislature of Mississippi, urging the United States government to intervene in the Cuban

war on behalf of the insurgents, "peaceably if it can, forcibly if it must." The resolution was read and referred to the committee on foreign relations, Mr. Turple, during his speech, denounced as a mendacious falsehood of the gold men the statement that the standard silver dollar was worth only half its face value and that some time in the future it would be worth still less. Mr. Turple analyzed the bill proposed by the monetary commission and sharply attacked the proposition that all debts should be payable in gold, inasmuch especially as that provision made the government obligations payable in gold. He suggested that this was an indirect method of discrediting the standard silver dollar, which by the enactment of that proposition would be left high and dry without its proper debt-paying ability. Mr. Turpie did not believe any such proposition would ever find public favor in the United States. Indeed he had, he said, a profound conviction that silver would finally be restored to its proper position, not by international agreement,

but by the honest individual action of the various countries of the world.

THE PRINCETON DISPATCH. Mr. Morgan in his statement referred to a dispatch from Princeton, N. J. published yesterday quoting ex-President Cleveland as denying a statement said to have been made by Mr. Morgan in an executive session of the senate to the effect that Mr. Cleveland was once in favor of the annexation of Hawaii. Mr. Morgan said that he could not discuss his own statements made in executive session.
