THE GREAT STORE.

THE GREAT STORE

"WE MAY LIVE WITHOUT FRIENDS, WE MAY LIVE WITHOUT BOOKS; BUT CIVILIZED MAN CANNOT LIVE WITHOUT COOKS."

The Great store---engine of progress; the pivot around which all merchandise movements swing, announces an exhibition, the like of which has never been held outside of the World's Fair. Nothing to equal an event of this magnitude has ever been conceived in the mercantile world, and only is it possible here, because of the great expanse of floor space in the Big Basement.

It Will Eclipse in Grandeur and Magnificence Any Event of Modern Times.

We propose that the city of Scranton shall be recognize as the leading city of industry and enterprise in this country, by holding a Grand Carnival of Pure Foods. The opening of this stupendous event---which has been a long time in preparation---will positively take place on

Afternoon at 2 O'Clock Sharp. Saturday

We want every man, woman and child within sound of this invitation to be present some time during this exhibit---if not on Saturday, any day during February, as the great carnival will last an entire month. Come every day, if you like---you'll be heartily welcome.

EVERY MOMENT SPENT HERE WILL BE ONE OF EDUCATION AND PLEASURE.

You will see a score of experienced demonstrators showing how foods and relishes are made---how best to prepare them and serve them. You will see the greatest, most complete and best grocery store between New York and Chicago, with goods at prices which challenge comparison even in those cities.

SYMPHONY CLUB ECHOES.

Confirmation of a Scientific Theory.

Herr Hoch's 56th Birthday. About all the two hundred persons who heard the Mozart Symphony club Wednesday evening did yesterday, was to talk about the music. Talk, however, falls far short of conveying any All concede that Wednesday evening's was the finest musical attraction with which this city has ever been favored and those who enjoyed it feel duly indebted to the Cycle club for providing

LET THE CONTRACT.

The Speri Henter Company Will Equip Dr. Wheeler's New House. Yesterday Dr. H. C. Wheeler let the contract for equipping his new house with heating apparatus to the Sperl Heater company. The plan by which the residence will be heated is different from anything in the city and will be of interest to a great many people. It was made by Agent Dowe, of the aforementioned company, and provides for hot water heating by the single pipe system and indirect radiation. The radiators will be under the floors and to any room that may become oppressively warm. Besides having the ra-diators out of the sight and way, the York, is an event that will be welcomthought to belong to the furnace alone over the country.
