

Spain Regards the Affair of De Lome as Settled.

HIS RESIGNATION ACCEPTED

The Minister Out of Office in a Hurry.

De Lome's Resignation Filed and Accepted Before Minister Woodford Has Opportunity to Present the Request for His Recall--A Graceful Disclaimer on Part of Spain Will Be Received in a Kindly Spirit by Administration -- Canalejas the Discovered the Loss of His Letter but Was Afraid to Mention It.

Washington, Feb. 11 .-- The personal incident growing out of the publication of Senor de Lome's letter to Senor Canalejas may be regarded as settled. This has been brought about by the short cablegram sent by Minister Woodford from Madrid, in which he states that the minister had resigned and his resignation had been accepted before he (Mr. Woodford) presented the request of the United States that he be recalled. The officials here feel an interest in learning the details of the happenings in Madrid yesterday and are awaiting for Mr. Woodford's promised full report. But unless this should contain some statement that is not now expected, there is no disposition on the part of the government to protract the closing of this unpleasant incident, and it is not expected that anything in the nature of a demand for an apology will be made.

If a graceful disclaimer should come that will be taken in the spirit in which it is made; otherwise the matter will be dropped and the relations between the state department and the Spanish legation will run smoothly once more through the medium of Senor Du Bosice, the first secretary and now charge d'affaires. It can be said for the president that he shows little personal concern in the matter as it stands and is not disposed to pursue Mr. de Lome in any personal spirit, and with this spirit in the head of the administration, the end of the affair may be said to have been reached.

DECLARED INSOLVENT. Pattison's Smelting Company in the Hands of the Receiver. Trenton, N. J., Feb. 11.--Chancellor McGill today appointed a receiver for the Edgemont and Union Hill Smelting

company. This is one of the compan-ies in which Francis C. Grable is in-Savery Bradley, of Philadelphia, was named. At the meeting of the company last week it was decided that it

would be better for the protection of all the creditors to have the concern declared insolvent and a receiver appcinted. Mr. Jones' bill applying for the receiver said that the company was incorporated in January, 1897, with an authorized capital of \$3,500,000, which was afterwards increased to \$6,000,000. The company was formed to less than \$200,000 worth of stock was issued. In January, 1898, a bond issue of \$500,000 was authorized with the Mercantile Trust company as trustee. Ex-Governor Robert E. BIG CONFLAGRATION IN NEW YORK CITY

Levi Morton's Seven Story Office Building Completely Destroyed. Several Firemen Injured.

New York, Feb. 11.-Levi P. Morton's seven-story office building, an "L" shaped structure, with frontages on proclaimed president. The situation is Nassau and Ann streets, and known as the Nassau Chambers building, was becoming more complicated and the completely destroyed by fire tonight. The firemen had a hard battle for three hours, and there was every prospect of a great conflagration. Every fire company in the city from Fifty-ninth street to the battery was called out, and in a remarkably short time thousands of people had gathered in the contiguous streets and Broadway. The Derber Dask company occupied

both the Nassau and Ann street stores and the basement of the building, where the fire originated, was occupied by the Herald Cycle company. A high wind prevailed, and showers of sparks were carried on every direc-

tion From the Nassau chambers the fire spread to the four-story building adjoining, and the clothing store of Maduro Brothers, on the ground floor, was quickly in flames. The loss here also will be practically complete. While a group of firemen were at

work on the Ann street side of the fire there was a loud explosion and a por-tion of the building was blown out, Several of the firemen were badly cut by flying glass and debris,

The Murray stationary store occu pied a small frontage adjoining the Derby Desk company, on Nassau street, and the concern has very little, if anything, left. The upper part of the Nassau chamers were occupied by lawyers and as offices of a number of manufacturing concerns. Assemblyman Julius Harurger occupied offices on the second floor. He lost everything, including a valuable library. Assistant Corporation Counsel Lesser, the National Advertising company, Smith & Hass, the latter firm occupying the entire seventh floor; Saunders & Rosenstein, CUS. Johnson & Bailey, publishers; Simonson and Hudson, brokers, and the Hannoway company, publishers, are among others who suffered severely from the fire. Acting Captain Linderman, of the Oak street station, was on hand early with 100 policemen, who had great trouble in keeping back the vast crowds of people, who had congregated from all parts of the city. The entire reserve forces of the Old Slip and Oak street stations were called out to maintain order and assist the firemen. The Bennett building, at the southwest corner of Nassau and Ann streets, caught fire several times, but was extinguished by the firemen and employes of the building. A scaffolding on the new syndicate building on Park Row was ignited a number of times also, and the woodwork on the twentyfourth floor was blazing. Several of the men employed by the contractors hurried to the building and kept the flames under control. The loss at present is estimated at half a million and the fire is under control. The larger share of the loss will he borne by the Morton interest, although it was stated that they are well insured. The Derby Desk company and the Maduro Bros, are mentioned as the next heaviest losers.

Senate Considers the Indian Appropriation Bill--Hawaiian Annexation.

Thomas V. The meeting resulted from Senator

Teller's suggestion made in executive ession a few days since that the treaty should be abandoned as such because of the lack of votes to pass it and that annexation be accomplished through the means of direct legislation, There was a thorough discussion of the situation at today's meeting, the result of which was a decision to find an early method of determining the strength of the annexation sentiment. Accordingly Senator Davis will make an effort to get the treaty up in the

senate next week with the view of exhausting the speeches as soon as possible. He will then attempt to secure a test which will reveal the voting strength of the friends of the measure and locate the senators now considered

doubtful. The house conneittee on military afairs has favorably reported the senate bill authorizing the president to reappoint and retire General David McM, iregg as a captain in the army. Consideration of the Indian appro-

Harmony just now is out of joint-ushed out by divisions incident to faclons and their struggles for power. The condition is one of disease, in some re-spects far advanced to corruption. The worst phases have been manifested in ou great clifes, through attempts to plender franchises; a phase beyond precedent was manifested in the last legislature, which at the beginning of the session was largely dehauched by a moneyed and factional senatorial battle. Knowing men estimate that a round million was spent and with about equal freedom by the high contesting wings. What good result could come from such a begin-ning? TIME FOR ACTION.

Senator Foraker said today: "In my judgment, the time has come for something affirmative, positive and conclusive to be done by the United States. The conditions prevailing in Cuba are unparalleled for brutality, starvation, murder and all imaginable horrors. Hundreds of thousands have perished and tens of thousands are now starving to death. Christlanity, morality, humanity, patriotism and the spirit of liberty all combine to demand that we interfere and put an end to such an atroclous struggle. According to the Monroe doctrine we cannot allow any other nation to interfere. The responsibility is therefore all our own. We must answer for all the pillage, waste, rapine, butchery and starvation that may ensue from this time forward." Madrid, Feb. 11.-The decree accept-

CANALEJAS WAS FRIGHTENED. New York, Feb. 11.-At the Cuban Junta it was said today that the letter from Senor de Lome to Don Jose Canalejas was stolen from the latter and was not made public by him. It was said that the Junta received information from Washington that Mr. de Lome had written the letter. A man was sent to Havana who secured the letter without Canalejas' knowledge and brought it to this city. It was also said that when Canalejas discovered the loss he was afraid to mention it.

league and finally adopted. Resolved. That the executive commit te of the League oi Amercan Wheelmen will be instructed to investigate the

feasibility of turning over to some other organization or body the control of racing and to report its results at the next national assembly.

Mr. Harrison, a member of the goo roads bureau of the department of agriculture and a leaguer from New Jersey, told of the work that was being done under his direction. He said that he was sorely crippled for the want of funds to carry on the building of sample roads, because congress had thus far failed to appropriate a sufficient amount to do the work. Mr. Harrison asked the delegates to make such urgent demands on their respec-

tive congressmen to secure the building of sample roads as will awaken their interests in the bureau and cause them to make larger appropriations. This concluded the work of the assembly and it adjourned sine die.

WHAT THE GOVERNOR COULD DO.

As a remedy he suggests that a governor could recommend an act veying to all who desire limited liability, hedged with restrictions that would improve rather than impair business credit. Continuing, he says:

The interval between now and the state convention is short for the consideration of a new issue, but it can be bas-tened by correspondence, by discussion, private and public meetings, the naming of friendly delegates and appeals or in-structions to them. A limit upon time need not dissipate a natural hopefulness, and should not prevent proper effort upon the part of those willing to fight for equal usiness conditions.
