### DISCLAIMER FROM SPAIN

Not Responsible for the Utterances of De Lome.

NOTE TO MR. WOODFORD

The Government Sincerely Laments the Incident.

Abstracts from the Communication Andicate That the Spanish Officials Are in Enruest in Their Disapproon of the sentiments Expressed by De Lome .- Official Announcement of the Selection of Senor Polo de Bernabe as Successor to De Lome.

Washington, Fet. 17.-Spain has officially disclaimed in positive manner the reflections contained in the de Lome letter and as officially announced by the state-department today the incident s satisfactorily closed. The statement given out is as follows:

The following is an abstract of a note serit last evening by the Spanish government to Minister Woodford at Mad-

The Spanish government has learnof the incident in which Minister Dunity de Lome was concerned, and being advised of his objectionable communication, with entire sincerity laincident which was the enuse of the interview with the min-ister. States that minister de Lome had presented his resignation and it had been accepted before the presentation of the matter by Minister Wood-That Spanish ministry, in accepting the resignation of a functionary whose services they have been utilizing and valuing up to that time, leaves it perfectly well established that they do not share, and rather, on the contrary, disauthorize the criticlems tending to offend or censure the chief of a friendly state, although such criticisms had been written within the field of friendship and had reached publicity by artful and criminal means. That this meaning had taken shape in a resolution by the council of ministers before General Woodford had presented the note from his government and at the time when the Spanish government had only vague telegraphic reports con cerning the sentiment alluded to. That the Spanish nation, with equal and greater reason, affirms its view and decision, after reading the words contained in the letter reflecting upon the president of the United States.

### TREATY OF COMMERCE.

"As to the paragraph concerning the desirability of negotiations of commercial relations, if even for effect and importance of using a representative for the purpose stated in Senor de Lome's letter, the government expresses concern that in the light of its conduct, long after the writing of the letter and in view of the unanswerable testimony of simultaneous and subsequent facts, any doubt should exist that the Spanish government has given proof of its real desire and of its innermest convictions with respect to the new commercial system and the projected treaty of commerce.

The Spanish government does now consider it necessary to lay stress upon or to demonstrate anew the truth and sincerity of its purpose and the unstained good faith of its intentions.

That publicly and solemnly, the government of Spain contracted before the mother country and its colonies responsibility for the political and tarin changes which it has inaugurated in both Antilles the natural ends of which in domestic and international spheres it pursues with firmness, which will ever inspire its conduct."

The following dispatches announcing the appointment of a minister from Spain were received at the state de-Madrid, Feb. 17.

Secretary Shorm u: Have just received official communica

tion from Spanish minister of foreign at fairs that the queen regent his today signed decree appointing Senor Polo de Bernabe minister from Spain to the 'ulted States. He is son of Admiral Polo, formerly

minister; is chief of the commercial bu-reau in Spanish state department, speaks English, and is familiar with commercial affairs; was secretary of legation at Washington when his father was min-ister. (Signed) Woodford.

She refused, and told him she did not care for him, and

As Ella and her little brothers were alking along the country road yeserday Grigg suddenly sprang up from behind the hedge, drew a pistol and fired, the shot taking effect in the girl's heart. Debate in Senate Over Kansas Pacific Railroad.

REFERENCE TO THE MAINE DISASTER

Mr. Allen's Resolution Regarding an Immediate Investigation of the Catastrophe Is Objected to by Mr. Chandler, of New Hampshire -- All Quiet in the House.

Washington, Feb. 17 .- After a spiritd debate occupying more than two hours, the senate today by a vote of M to 29 agreed to the resolution of Mr. Turple, of Indiana, declaring the senate's opposition to the confirmation of the sale of the Kansas Pacific railroad. It was developed by the discussion that the government would receive from the sale of the Union and Kansas Pacific something more than \$65,000,000, 91 per cent, of the entire indebtedness of the roads to the United States, the basis of settlement being about \$20,000,-000 better for the government than that proposed by the Cleveland administraion. After the disposition of the resolution the Corbett case was discussed by Mr. Pettus, Alabama, and Mr. Hoar, Massachusetts, an agreement having first been reached to take a final vote upon the case on Monday, Feb. 28. The only reference thus far made to the disaster to the battleship Maine was in the form of the following resolution introduced by Mr. Allen, Ne-

braska: "Resolved, That the committee on naval affairs be directed to make an immediate and thorough investigation into the cause of the disaster to the battleship Maine in the harbor of Hav-

senate. Mr. Hale, Maine, chairman of the naval affairs committee, said he had no objection to the reference of the to proceed with an investigation of the melancholy affair in Havana harbor. The executive department of the government was even now engaged in making an investigation of the disaster The secretary of the navy was engaged in the work and was employing all the means in his power to ascertain the truth. If the matter was taken up by the naval affairs committee, Mr. Hale said, the best the could do would be to act through the navy department, he was satisfied that as soon as the secretary of the navy obtained definite information concerning the explosion and its details he would communicate the facts to con-

Mr. Allen objected to having the resolution sent to the committee on naval affairs. "We of us," said he. "who are not members of the naval affairs committee, or of the foreign relations committee cannot get information from the departments about these things. We are shut out as completely as if we were private citizens. I think I ought to get my information, and I am deeply interested in the matter, through the committee on naval affairs of the senate. I do not care to debate this matter or to indulge in any extended discussion of it. What I want is action by the committee that will give us information."

Mr. Chandler, New Hampshire, objected to the resolution and it went

over until tomorrow. The debate on the bankruptcy bill dragged along listlessly in the house today, interest in it being overshadowed as on yesterday by the Maine disaster. The speeches on the floor attracted almost no attention and were Classified Specials delivered in most instances to a handful of members.

### MEASURES FOR KLONDIKE.

Powers of the Governor of Alaska to Be Enlarged.

Washington, Feb. 17 .- Senator Carter, from the senate committee on pubcaliroads and extending the homestead laws in Alaska, with amendments made by the senate committee. The amendments of the senate limits to forty acres the amount of land to be taken, unless the land is distinctly agricultural, the object being to prevent a monopoly of valuable sites by any individual.

Senator Carter has introduced a bill or the government of Alaska. The bill has been before the committee for some time and was re-introduced with amendments which have been suggested. The committee on territories will report it.

The bill provides for enlarging the powers of the governor in some respects, and especially in regard to caring for the insane, by allowing him to send them to asylums in states west of the Rocky Mountains. Three courts are to be established, each under a judge holding for four years, with the usual court of officers. The judge of the court may appoint United States ommissioners, who shall have the powers of justices of the peace in Oregen with jurisdiction in cases up to 1.000; the commissioners and deputy marshals are under the fee system with

louble the fees allowed in Oregon. The theory of the commissioners and deputy marshals is that government is to be provided for every mining camp. The judges are required to divide their districts into three recording districts, over which the court has supervision, and a commissioner must be designated to act. The right is reserved to the miners in organized mining districts to make rules for recording of mining locations not to conflict with law; notices of location of mining claims must be recorded within ninety days after location. Town or city governments may be organized as provided by law in Oregon, where not less than 500 permanent residents are located upon a regular town site. Taxes shall be limited to 2 per cent. of the assessed valuation and indebtedness shall not exceed 2 per cent, of the valuation.

Efforts were made to have some regulation in the latter till or in the right of way bill licensing the sale of li quor in the Territory, but it is not provided for in either measure.

### TWO MORE BATTLESHIPS

Congressmen Disposed to Liberal Appropriations.

Washington, Feb. 17 .- The disaster to the Maine has arvised a feeling among members of the house in favor of extreme liberality in appropriations for the naval and military establishments, the practical result of which is likely to be the acceptance by the house with little centest of the senate amendment, increasing the appropriation for fortifications about \$4,000,000, the authorization in the naval appropriation bill of

two battleships instead of one, and cossibly the authorization of the entire dry dock scheme recommended by the dry dock board appointed by the

secretary of the navy. The recommendation of the secretary of the pavy was for only one addition to the navy this year, a first class battleship.
