FOREST CITY.

Miss Helen Dummer gave a party to her young friends Monday evening at the home of her parents, Mr. and Mrs. E. C. Dummer.

Washington's birthday was observed with appropriate exercises at the Forest City graded school yesterday.

Stacy Deming has just returned from a visit among friends and relatives at Orson, Wayne county.

Miss Inez Weid, of Scranton, is visiting her father, Henry Weid, of Delaware street.

Superintendent Flynn and William Gordon, of the Carbonate and Forest City Electric railway, were in the borough yesterday, with a force of men talking measurements along Main street.

The funeral of William H. Eastbrook, an aged resident of Jackson township, occurred at Sunday from the Free Will Baptist church at Lake View.

They have been drilling for coal on the Somers' farm, near Crystal Lake. Finding no black diamonds, the drill has been moved Somers elsewhere.

By the way, whatever became of the Durdefitte missionaries? When the robins nest again, and the song of the turtle dove is heard in the land, I hope again to hear their gentle coo.

Ralph B. Little, esq., of Montrose, a leading candidate for district attorney, is looking for a residence near Montrose. Spru has arrived, but keep on your fingers!

SAW A WILD MAN. A farmer named Pettis recently went fox hunting over the range near Elk mountain. Hearing his dog barking loudly on the opposite side of the mountain, he went there, thinking he had bagged some large animal.

A district meeting of the Methodist ministers will be held in the Methodist church of this place on Monday evening and all day Tuesday of next week.

There was a large attendance at the Catholic festival in Music hall on Monday evening.

Norway's Quaint Vehicles. As every tourist is aware, the vehicle is a most comfortable little car on two wheels for one passenger.

A Grateful Mother Writes this Letter. Tells all about Her Troubles when Baby Broke out with Scrofula Sores.

At the age of two months, my baby began to have sores break out on his right cheek. We used all the external applications that we could think of or hear of, to no avail.

The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sores were gone. But to my surprise in two weeks more another scrofula looking sore appeared on baby's arm.

It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned.

He is now four years old, but he has never had any sign of those scrofula sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine, Mrs. S. S. WOODS, Farmington, Delaware.

Get only Hood's. Hood's Pills are prompt, efficient and easy to effect. 25 cents.

It's very curious," said Mr. Clincher, as he read the statement of his account with the family physician. "I don't understand it at all."

"What don't you understand?" inquired his wife. "How the doctor managed to improve so much in his cryptography since he wrote that last prescription?"

Special to The Tribune.

Susquehanna, Feb. 22.—Tom Walker and Abe Crandall, of Great Bend township, were out hunting one day in October, when, in a small clearing, they came upon a huge rattlesnake. As ammunition was scarce, Crandall suggested that he would look for a big stone, while Walker held the snake in check. Walker undertook the task, and finding that he would get into the lair bushes, he fired at it. The ball struck and cut up the ground a few inches above the reptile, but the charge seemed to change its entire disposition. It wriggled to a small sweet fern bush, growing on a rock, and coiled itself tightly around it. By this time Crandall had returned with a large stone, which he threw at the snake. It struck the ground a few inches beyond it, but the snake never moved. A second stone was thrown, and this one hit it with the same result. With some fear, they touched it with a stick. As the snake lay motionless, they cautiously unrolled him from his coil around the bush. It was dead, yet there was not a bruise on it. In its fright when fired at it had bitten and killed itself.

THE NEWS RECORD.

Today, being an anniversary of the birthday of George Washington, who was born on this day in 1732, the last to get a monument, the Erie shops, the schools and banks are closed.

After an illness of a few days, of acute kidney disease, Charles Eognon, a highly esteemed resident, for many years employed in the Erie carmenet shop, died at his home on Washington street on Sunday afternoon. He is survived by the widow (nee Miss Mattie Hayward), and a son by a former marriage. The funeral occurred this afternoon at the family residence, Rev. E. L. Sutherland, pastor of the Presbyterian church, officiating. The Masonic fraternity attended in a body.

The body of the late William H. Tinsman, a native of Susquehanna, has been buried in the cemetery at Jackson. Tinsman was the husband of Mrs. Tinsman, nee Miss Mattie Hayward, and a son by a former marriage. The funeral occurred this afternoon at the family residence, Rev. E. L. Sutherland, pastor of the Presbyterian church, officiating. The Masonic fraternity attended in a body.

The great majority of our warlike citizens are arranging for an early enrollment in the home guard.

The board of trade and the common council will hold conferences looking to sewerage for some of the principal streets.

IN SUSQUEHANNA COUNTY.

And is it appreciated in Auburn, this county? Grant Warner, a schoolboy, has been sent to the county jail for carving a figure near the school house door.

The hero emerged from a large bunch of purple flowers and as soon as she perceived him she fell upon him, stabbed him twice and sank half-conscious into a very handsome slumber. The hero then rose and, in the face of the hero, he didn't remove her hat, and that's how it looked."—Washington Star.

THE HEN'S STRANGE BROOD.

Farmer Woodbridge, of Herrick, has a hen with a fondness for setting. Last October the hen had an idea that some winter chickens would be nice, but Mrs. Woodbridge had a contrary opinion, and faithfully took every egg out of the nest as soon as they were laid.

After a while some strange-looking eggs were seen in the box, and the farmer's wife, out of curiosity, allowed them to remain. Some weeks later Mrs. Woodbridge one morning heard an unusual noise in the henery and hurrying out to investigate, she was horrified to see a dozen little snakes in the box. The hen had carried the eggs, one by one, from the woods and patiently hatched them out. For a few days the hen appeared to be pleased with her strange brood, but one day she fell upon them and destroyed them all. Biddy is now setting upon a few door knobs and chunks of coal. What'll the harvest be?

THIS AND THAT ARE THOSE.

Dr. C. R. Newton, late of Montrose, has entered upon the practice of medicine in Susquehanna.

A Dublin newspaper before us has an advertisement of "Susquehanna Pills," which is funny.

Susquehanna clerks are discussing the early-losing movement. Some of the merchants omit the "dis."

And now Forest City desires a county bridge. She has Susquehanna's best wishes.

Recently a Deposit young man, named Damm, was wedded. His relatives in New York, on the evening of the wedding, wired: "The whole Damm family send congratulations."

Susquehanna has pedophobia in a chronic form.

The Republican county nominating convention will be held in Montrose, March 10, to nominate candidates for president, judge, congress, two representatives, a district attorney and surveyor.

The congressional campaign is opening quietly. But there's a brisk contest ahead among the Republican candidates in this district.

There are indications that the Oakland will have two Methodist churches. This may be fought on the two coming pastors. Unhappily, ministers cannot give wholly upon promises, prayers and puns.

France's Willard is dead! Oen of America's very ablest, purest women, the world is better for her having lived in it. Millions of the best people in America and Europe sincerely mourn her death. Green be her memory forever!

From various parts of Susquehanna county wide-awake young men are preparing to go to the Klondike country to find gold—and perhaps a grave. "To risk is to have."

WHITHIN AN INCH OF DEATH. The Reptile Let Its Poison in the Man's Vein.

A correspondent of the Detroit Free Press relates a peculiar experience that happened to a friend of his during a stay in Farmington.

We were sitting on the veranda of our bungalow one evening, enjoying our after-dinner chat. Finally my friend arose and sauntered into his bedroom. Usually lights were placed in all the bedrooms, but this evening, for some reason—probably the moonlight—the servant had not performed his duties. I could hear my friend fumbling about his dressing-table, and then suddenly he gave a cry of horror and rushed out to the light.

First Mortgage Collateral Trust 5 PER CENT. GOLD BONDS OF THE New Mexico Railway and Coal Co.

A Limited Number of These Bonds Are Now Offered for Sale. The mortgage securing these bonds covers the railroad now under construction and rapidly nearing completion. From El Paso, Texas, about 100 miles north to the Salado Coal Fields, in New Mexico. The road traverses a country rich in minerals, including gold, silver, copper and iron, and will open up the largest bodies of coal and timber in the Southwest. For its traffic resources, the road will rely on the deposits of coal now owned by the company, and situated covered by its mortgage as well as on extensive timber properties, all situated nearly 400 miles nearer to the markets of Arizona, Texas, New Mexico and Old Mexico than any other source of supply, and with favorable grades for transportation as against heavily adverse grades on the route of every possible competition. THE COAL AND TIMBER ALONE ASSURE A MOST PROFITABLE BUSINESS FOR THE ROAD. The road will also be an outlet for a vast fruit-growing, farming, and stock-raising district, one of the most favored in the world, and now being rapidly taken up by homesteaders and other settlers. The country has wonderful possibilities for mineral development. Hundreds of prospectors, some of them arranging for the development of the mineral properties in anticipation of the outlet thus to be afforded for the ores to smelters and stamp mills. Reports have been made on the traffic resources of the country by experts, W. A. Lathrop, Esq., Superintendent of the Lehigh Valley Coal Company; R. C. Hills, Esq., Geologist and Mining Engineer, of Denver, Colorado, and others, copies of which will be furnished on application.
