# MARTIN CASE

### The Sick Juror Is Again Able to Sit in the Box.

Lack of Exercise Injurious to at their head," said Oberrender. Members of the Panel.

Many Witnesses Are Produced Who the Mob -- Sheriff Martin's Instruc- | no afraid. tions Were of a Nature That Should It Was Necessary to Save the Lives of the Deputies -- The Strikers Were Armed in Many Instances.

Wilkes-Barre, Feb. 25.-In consequence of the illness of Juror A. W. Washburn, who had an attack of stomach trauble, the Martin trial did not go on until this afternoon.

Juror Washburn, who was unable to leave his bed this morning, was much improved at noon and when court was called at 2 o'clock this afternoon he was able to take his place in the jury box and the trial was resumed. Eli Weaver. No. 1, is also affected with in-digestion and is far from well. The physician who attended them says the jurors have not enough exercise. Most of them are hard working men and not accustomed to three weeks of such idleness as they have experienced.

The first witness, George Denek, of West Hazleton, said he was working on the dump there when the strikers came up and ordered him to march with them. He refused, whereupon they cut his head open with a stone and kicked him in the ribs, bruising him severely. He was in the hospital for four days.

John Shulenberger, of West Hazleton, was forced with two other men to join the strikers and marched with them to Harwood, where he heard them

West Hazleton on Sept. 3. They were armed with clubs, were noisy and threatening and chased several men into the brush.

Otto Reichting, a 16-year-old driver boy, at Crystal Ridge, was pulled along by several strikers, who said if he did not march with them they would knock

A. M. Graham, who was driving to Yorktown, gave a man whom he did not know a ride and the strikers struck the man in the mouth with a club. Rev. C. H. Hurst, pastor of St. Paul's Reformed church, at West Hazleton, saw the strikers in that town on Sept. They were armed with clubs and stones and seemed very determined. John J. Fitler was sure he saw s striker with a double-barrelled gun at West Hazleton on the tenth of September and so was M. J. Oswald.

### TEN WERE ARMED.

Edward Meier, a constable at West Hazleton, said that on September 10 the strikers threatened to take him with them to Lattimer. Ten of them were armed with revolvers and he saw them fire three shots at the crowd. The sheriff met them there and told

them to go home, saying the ten days which the Pardee company had taken to consider the advisability of granting the strikers' demands were not up yet and they should wait. The strikers were much excited and one of them picked up a stone to throw at the

"Around my gate," he said, "were a lot of strikers armed with clubs, they were very boisterous"

The star witness of the day was Milton Sellzer, the sheriff of Carbon county. He said he was called out by the coal companies to protect their property and on September 6 had a consultation with Sheriff Martin at Hazleton where they had proclamations printed and posted in conspicuous places around the coal companies' various works throughout the region. "On September 8," he said, "I swore in about thirty deputies at Mauch Chunk and took them to Audenreid. There was no disturbance there. The next day hearing the strikers were going to make an attack on Coxe's breaker at Beaver Meadow, I drove over there and told my deputies to follow. When reached Beaver Meadow I found Sheriff Martin and his deputies there. The strikers were approaching and as the breaker is just inside the Carbon county line it was my duty to protect Accordingly I called on Sheriff Martin and his men to act with me and they did. There were five or six hundred strikers and, they charged upon

night when the soldiers came.' MARTIN'S INSTRUCTIONS.

After an objection by the commonwealth he was allowed to tell what Sheriff Martin's instructions were. He "Martin told them to be very careful not to shoot anybody, that we did not intend to do any harm unless it was necessary to save our lives."

Oberrender, manager of several of the Coxe estate properties, said that fear-OTHERS ARE BECOMING ILL ing the strikers would damage the estates properly at Drifton, sent on Sept. 6 for Sheriff Martin. The sheriff reached there on the ninth of September and swere in 56 deputies." I was placed "That same day a crowd of about two thousand strikers surrounded the breaker. They were armed with clubs and many carried revolvers. They were very excited and shouted and waved their clubs. Several fired in the air and some threw open their coats and cried Testify as to the Lawless Spirit of to us "you no fire, you no soldiers, we

danger of their lives.

John Wagner, outside foreman at Drifton, corroborated this testimony. Charles Mulhern said he had been subpocuaed by the commonwealth and was at court ien days but was not called because he would not promise to swear that he had not seen any arms

on the strikers at West Hazleton. Fred Zerby, superintendent of the Jeansville colliery, ordered his men home when he heard the strikers were coming and when they did arrive he read the sheriff's proclamation and dispersed them. The next day I was with the sheriff at Crystal Ridge and arrested a boisterous fellow. One striker tried to hit A. P. Platt with a stone but I covered him with my revolver and he desisted.

Mrs. Mary Faust, of Lattimer, said that a lot of strikers were there on Sept. 7 and frightened all the people so and that when they heard the strikers were coming on the tenth many families left their homes and went to Freeland for the night of the ninth. This cloved the testimony of the day and court adjourned.

agree to go to Lattimer.

Enoch Howell saw the strikers enter sistants and a large quantity of wreck-

ing machinery. Mr. Carlos Yznga, United States consular agent at Trinidad de Cuba, is also a passenger. He left Havana two weeks ago on a three months' leave, but is now hurrying home from New York to protect his wife and children she was also the only daughter of her at Trinidad, as he fears the Spaniards now doubly bereft and widowed there will provoke a rlot. After consultation with Consul General Lee, Mr. sent to them from the society, and a Yznga will decide whether to take his tribute of flowers also, every one feelfamily out of Cuba. ### SPNATOD HANNA TALKS

He Believes the Loss of the Maine Was an Accident.

New York, Feb. 25 .- Senator Hanna in an interview to-day said: "A serious condition is confronting us, but so far as I know there will be

no hasty action. "I have my belief that the destruction of the Maine was due to accident, on the same information possessed by the public. I have no information other than that, and so far as I know, any private citizen is as well informed as the government concerning the

cause of the accident." On the policy of administration Mr.

"The policy of the administration seems to be wisely conservative. I cannot say what congress will do in the event of decisive action by the president, but as for myself, he will have my enthusiastic support."

To a question the senator replied that he did not believe any hasty action would be taken even if the board of inquiry should decide that the Maine was wrecked by other cause than accident.

"The policy of the administration will, I think, receive the support of the country," concluded the senator. "This is a time when patriotism and judgment should be combined.'

### **GUARDING THE FAST RIVER.**

Torpedoes Are Being Planted at Willet's Point.

New York, Feb. 25.-The Brooklyn Eagle today said: "At Willets Point precaution is be ing taken to make the East river entrance to New York invulnerable. A so-called skirmish line of torpedoes is projected from the Willetts Point shore across the channel to Fort Schuyler. The torpedoes will be anchored so close together that it may be made impossible for a hostile ves-sel to cross the line without being blown up. The torpedoes will be connected with electric wires, and to make doubly sure that their plans cannot be frustrated, the engineers have arranged to have batteries located at each end of the line so that in case an apparatus was used by the enemy to sever the connecting wires and break the circuit, the torpedoes could be still exploded from either end of the line. The channel is already protected from the Willetts Point shore to the center of the channel by two groups of submarine mines. Each group of mines consists of twenty-two torpedoes, forty-four together containing 120 pounds of giant powder. "At Fort Schuyler, directly opposite Willetts Point, considerable engineering has been done. A torpedo maga-

in Order for Service. Trenton, N. J., Feb. 25.-Men have been put to work placing the seacoast batteries at Sea Girt in order for service. At the quartermaster general's office it was denied, however, that this has any significance, as this work is usual at this time of the year. Captain Armstrong, the chief clerk of this department, says that no orders have been received asking the National Guard to be put in readiness for mill-

tary service. The circular of the navy department asking for an in-spection of vessels which might be of use of the event of war has been re-ceived at the adjutant general's of-

### BIG ORDERS FOR COAL.

The Government Agrees to Pay of Bonus on 300,000 Tons to Be Delivered Within a Specified Time.

Fittsburg, Feb. 25.-The Post tomorw will say: "It was learned today in Pittsburg through an officer of one of the larg-

est coal corporations doing business in this district that the navy department has closed contracts with the incorporated firm of Castner, Curran & Bullitt, of Philadelphia, for the delivery at Key West, Sandy Keys, Dry Tortugas, Savannah, Charleston and Fortress Monroe, of 250,000 tons of Pecahontas coal, and with the Rhodes and Beidler Coni company of Cleveland, for the delivery of 50,000 tons of the Goshen coal of that company. The stipulations of the contracts just placed are that the coal so ordered shall be delivered as it is possible to do so and that the utmost secrecy be observed about the

In carrying out these contracts the railroads play a most prominent part, and for the purpose of moving every thing as expeditiously as possible. President M. E. Ingalls, of the Chesapeake and Ohio railroad; Receiver Os car G. Murray, of the Baltimore and Ohlo, and General Manager I. F. Toree, of the Pennsylvania, went to Washington last week and consulted with Secretary Long of the navy, and Assistant Secretary Meiklejohn, of the war department, on the matter. Contracts and all arrangements for the rapid handling and shipping of the coal were made and the government, it is understood, agrees to pay a bonus to both the coal miners and the railroad if the 300,000 ters were delivered within a specified time.

### DUNMORE.
