The Commonwealth Also Closes Its Evidence.

NEWSPAPER MEN ON THE STAND

T. P. Ryder, I. H. Strauss and C. E. Keck Claim That They Saw No Marks of Violence on the Sheriff's Face on the Night of the Riot. Counsel for Defense Submits Requests to the Court.

Wilkes-Barre, March 4 .- The defense in the Martin trial closed today, the commonwealth's rebuttal witnesses were heard, and the case is rapidly nearing conclusion. Before closing the defense called the two Andrew Sivars, John Langhran and Frank Kupa, witnesses for the commonwealth, to ascertain whether at the preliminary hearing last September they testified that at the meeting of the strikers at Harwood on the night before the shooting they all agreed not to carry clubs or weapons of any kind,

Andrew Sivar No. 1 and not think he said anything about this feature. Sivar No. 2 said he had sworn that they agreed not to carry clubs.

Langhran did not remember anything he said last September and neither did Kupa.

Ario Pardee Plett, the last witness, was asked if Chief of the Coal and Iron Police Hampion was at Lattimer at the time of the shooting. He said he was This was for the purpose of contradicting some of the commonwealth's witnesses.

commonwealth's witnesses in rebuttal began their testimony at 12 o'clock. T. P. Ryder, I. H. Strauss and C. E. Keck, who met the sheriff a few minutes after he reached this city from the scene of the shooting, said they saw no mark, discoloration or bruise on the sheriff's face.

Joseph Costello was then recalled by the commonwealth for the purpose of showing additional facts in regard to the threats of violence made by Deputy E. Hess against Costello, who was helping a wounded striker. Counsel for the defense obtected to this evidence. but the objection was overruled by Judge Woodward.

"I was helping a wounded striker." said the witness, "when Hers came up, I said: 'It's a d--- shame to freat these poor fellows this way.' 'Shut up,' crics liess, 'or I'll treat you the some way,' and he leveled his gun at D10. "Did you write me a letter during this

trial?" asked Judge Woodward. "No, sir." replied the witness.

COMMONWEALTH CLOSED.

The commonwealth closed its case at 3 o'clock this afternoon, after hearing a few witnesses in rebuttal on unimportant points, for most of the testimony they hoped to thus get before the jury was ruled out by the court. Judge Woodward before adjournment said that owing to many ladies attending the trial he had ordered the first two rows of seats and the extra jury box reserved for them.

The defense submitted the following points for the consideration of the Counsel for defendants respectfully re-

quest the court to charge the jury as follows: The sheriff is the chief conservator of the public peace within his bulliwich and is bound, ex officio, to the performnce of this duty. For this purpose he may command the For this purpose he may command the posse comitation, or power of the county, and every male over the age of fifteen years is bound to obey this call under pain of fine and imprisonment. If it is made to appear to him that tumult of riot is threatened he may make In the determination of this fact, he exercises a judicial power, and his judg-ment cannot be examined into and reviewed in ulterior proceedings against him, in the light of subsequent events. Evidence that each one, or particular ones, acted illegally or maliciously, is not proof of a conspiracy. There is no evidence in this case which would warrant a finding that the de-fendants were an unlawful assemblage. The question of whether it was nec-essary to resort to the extreme means of firing on the strikers in order to disperse them, was one of judgment which cannot be questioned even though it shall appear that the firing was not neces-sary, if the judgment was honestly formed and executed.

THE MARKETS. Third National Bank Wall Street Review. New York, March 4.-Prices of stocks show losses of from 1 to 3 per cont. today

on a very small business. The market was guite inaminate at times and what business there was, was concentrated in a few leading stocks. All of these showed weakness but the downward course was pursued in a very desultory manner until the final hour when the bears made quite a determined drive. They broke the price of Reading first preferred four points and carried the general list to the lowest of the day, but covering in special stocks induced some sharp rallics, notably in Reading first preferred. New York Cen-tral and Metropolitan Street rallway. A large part of the selling was known to be for Washington account and inquiry was very keen for news to account for it Significant news was scarce and in its absence numerous rumors were set afloat, and to the effect that purchases of warships abroad had been made by the United States government. The renewed depression of Spanish securities abroad and the news of the purchase in England

of two warships by the Spanish government helped on the feeling of uneasincss over the Cuban question. Total sales were 301,500 shares. Furnished by WILLIAM LINN ALLEN & CO., stock brokers, Mears building, room 795-706.

The annual society meeting of the Primitive Methodist church convened this week for the purpose of electing a pastor for another year and a unanimous call was extended to Rev. J. J Jones to serve them for the next year. This church has enjoyed unparalleled prosperity under the pastorate of Mr Jones and it was the generally expressed sentiment that the present pastor grew in their estimation the longer remained. The pastorate maintains the increased rate of salary to Mr

Jones. The miners and laborers who are employed in the drift of the Avoca col-liery struck on Tuesday morning. They were previously allowed \$1.29 for standing cross timbers and the surplus was afterward removed by company men at the expense of the company. Two months ago a reduction of fifty cents was made for standing cross timbers, making the price seventy-five cents in-stead of \$1.25. The men claim that they were not notified of the reduction, so after a consultation they decided to remain out until the grievances are adjusted.
