### WOMEN DO NOT TELL THE WHOLE TRUTH.

Modest Women Evade Certain Questions When Asked by a Male Physician, but Write Freely to Mrs. Pinkham.

An eminent physician says that "Women are not truthful, they will lie to their physicians." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders pecu-

liar to their sex. There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women. This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To this good woman they can and do give every symptom, so that she really knows more about the true condition of her patients through her correspondence than the physician who personally questions them. Perfect confidence and candor are at once established between Mrs.

Pinkham and her patients. Years ago women had no such recourse, Nowadays a modest woman asks help of a woman who understands women. If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge. And the fact that this great boon which is extended freely to women by Mrs. Pinkham, is

appreciated, the thousands of letters which are

received by her prove. Many such grateful letters as the following are constantly pouring in: "I was a sufferer from female weakness for about a year and a half. I have tried doctors and patent medicines, but nothing helped me. I underwent the horrors of local treatment, but received no benefit. My ailment was pronounced ulceration of the womb. I suffered from intense pains in the womb and ovaries, and the backache was dreadful. I had leucorrhœa in its worst form. Finally I grew so weak I had to keep my bed. The pains were so hard as to almost cause spasms. When I could endure the pain no longer I was given morphine. My memory grew short, and I gave up all hope of ever getting well. Thus I
