Russian Warships at Port Arthur Is Beneficial to China and Favorable to Peace in the Orient -- Russia's Attitude Regarded with Suspicion.

Pekin, March 6 .- On Friday last Yano Fumio, the Japanese minister to China, demanded an official signed assurance of the payment of the indemnity due next May. The Chinese government instructed Yang Yu, the Chinese minister at St. Petersburg, to urge Russia to evacuate Port Arthur. Russia deferred a decision, alleging that the presence of Russian warships at Port Arthur was beneficial to China and favorable to peace in the Orient.

Russia is now or losing the Anglo-German loan, M. Payloff, the Russian charge d'affaires, lodged a formal protest last Thursday and demanded a quid pro quo. The details of the Russian demand are not yet made public, but Russia's attitude is regarded as inimical to peace in the far east.

On Friday M. Gerard, the French minister to China, made a similar complaint, with corresponding demands for compensation in the south.

England and Germany are now regarded as having obtained their legitimate aspirations, and Russia and France desire to secure theirs.

The Chinese acknowledge that the British late loan negotiations were disinterested and calculated to advance China's welfare and to maintain her independence.

### **NEGROES SHOOT TO KILL.**

to the Cuban reconcentradoes on th cruiser Montgomery and gunboat Nashville, to which suggestion the United States had given a like answer in the negative. The first intimation of these steps came in a brief and explicit cable dispatch from Madrid. Prior to its receipt, however, the authorities here had been fully conversant with the facts, although no intimation had been allowed to get to the public on either subject. The disclosure from Madrid left no further ground for reticence in Washington, and after a conference at the White House between the president, Assistant Secretary Day, of the state department, and Secretary Long. of the navy department, the following authorized statement was handed to the Associated Press by Judge Day as comprising everything that was to be said by the administration on the subject:

The president will not consider the recall of General Lee. He has borne himself throughout the crisis with t, fidelity and courage, to the judgi presi s ontire satisfaction.

As to the supplies for the Cuban peo ple all arrangements have been made to carry a consignment this week from whichever may be best adapted and Key West by one of the naval vessels, whichever may be best adapted and most available for the purpose to Matanzas and Sagua. Although the offlcials here are non-committal on the subject it is believed that the request for Gen. Lee's recall was made at leash a day or two ago and that the Spanish clearly disclose the grounds for the regovernment, after receiving the reply of call, although it is not known that the state department has not insisted Spain has made any exact specificaeither unon Lee's recall or upon its contention that the relief supplies should not be sent to Cuba in naval vessels.

Beyond the foregoing, those who had participated in the conference at the white house would not discuss the subject, and it was stated positively that rid, attributing such views to General the authorized statement comprised everything that would be given to any

#### CONFIRMATION AT MADRID.

The advices from Madrid, together with the authoritative statement here, left no room for doubt as to what had occurred. The request for General Lees recall is understood to have come within the last few days, and doubtless since the last cabinet meeting on Friday, as no reference was made to it at that time. It came through Minister Woodford, a somewhat unusual procedure, as the common mode of requesting the withdrawal of a minister or a consul is through the representative of the government making the request, which in this case, is Senor du Bose, the Spanish charge d'affaires. Mr. du Bose had received no instruc tions on the subject, and was in complete ignorance of the demands made through Minister Woodford. The other suggestion of the Spanish government-that relief supplies should not be sent in war vessels-did not come ough Minister Woodford, as the Lee. Madrid dispatches state, but was presented by Senor du Bose 'o the state department last Friday.

The responses in both cases went direct to Minister Woodford. There was no loss of time, 1 owever, in assembling

the first public mention shortly after the arrival of the Maine has been made of the Fern in connecat Havana. At this time General Lee tion with carrying the supplies it escorted Captain Sigsbee on his round might be inferred that she will make of official calls. These were made with the trip. due formality, but the Spanish officials

ority for the state ficers in London several years ago a caya is in a constant state of readiness for emergencies and that picket boats are on the alert day and night inside the harbor and outside the haror at night.

It is pointed out that the men of war Viscaya and Almirante Oquendo, when the latter arrived, might be caught in a blockade and fall an easy prev to a United States fleet. The cruiser Alfonso XII is without boilers and would be of no use. All this discussion of the probability of war among the Americans and Spanlards proves nothing, and only shows the state of feeling here.

## ACTIVITY AT LEAGUE ISLAND.

#### Workmen Busily Engaged on Cruisers and Monitor.

Philadelphia, March 6 .- Today was a repetition of last Sunday in the general activity at League Island navy yard. Workmen were busily engaged upon the cruiser Minneapolis, the monitor Miantonomoh and the ram Katahdin. In addition, work was going on were in operation in the blacksmith shop. The utmost reticence prevailed among the officers, sailors and work-

men at the yard and it was impossible to obtain any official information as to the details of the work. It was evident, however, that all work was being pushed as rapidly as possible. The work on the Minneapolis and Miantonomoh was all below decks and was said to consist of repairs and inspection weight in determining the future policy on the machinery. On the Katahdin the standards for the rapid firing guns were being erected and some small in Matanzas, and highly indignant at repairs were going on blow. The work what he calls the 'inhumanity of the in the mould loff consisted of attention to small boats and spars.

The immense crowds which flocked francs. sands of reconcentrados, who refused to the navy station last Sunday were largely increased today, but no one was vidently of a class accustomed to allowed to get close to the warships. make their own living and unwilling Sentries were posted at the entrance to a become paupers. He saw thousands the wharves and only workmen and of acres of the best tobacco and banana those on business were allowed inside the lines.
