### HORSE RACING.

### Fine Weather Tempts Horsemen to

Violate a City Ordinance." The fine weather of the past few

days has tempted several owners of speedy steeds to race on the principal thoroughfares of the city. There is a city ordinance against the practice and timely hint may save the over-enthusiastic a fine of \$5 or \$10 which will surely be imposed if care is not exercised.

In this connection many will be glad to hear that the Gentlemen's Driving association which gave the residents of this city and vicinity so much legitimate sport last summer is not a thing of the past, by any means, but that it is awakening from is winter inactivity and will again cater to the public wants this senson.

The two days' meet of last fall was not a remunerative one to the association and from the expressions of the managers at that time it was feared that the scheme of further race meets in this city had been given a death

The members of the association realize the disadvantages under which they rested on that occasion and profiting by their experience will probably only give three meets this year. Anthracite park has been again taken by them and races will probably be arranged for Memorial day, Fourth of July and Labor day.

A larger and faster class of horses will be secured for the different events and the contests between the recent importations of speedy "nags" to this city will give to the meets a still greater interest than heretofore. The association is being revived with much enthuslasm.

### MANVILLE IN PARTICULAR.

Superintendent Refused to Negotiate with City's Representative. The following communication re-

ceived by select council explains itself: "Select and common council, gentle-In pursuance of a resolution passed by the councils and approved by the mayor I called on C. R. Manville, superintendent of the Delaware and Hudson Canal company, in regard to the building of new bridges on Church street across No. 1 plane and Racket

brook. "After the general statement that the Delaware and Hudson Canal company would bear one-third of the cost of the abutments and bridges that rest on them, thereby excluding from the company's one-third the cost of retaining walls and filling rendered necessary, by the proposed widening of Church street also the pavement that crosses the bridge, Mr. Manville refused to be interrogated in regard to the details, and after being asked several questions stated that he did not care to talk any more with me about the matter, and requested that the city send some other representative to him to complete the arrangement.

# Helped by an Honest Doctor.

Determined to restore health to a man stricken with paralysis, the physician prescribed the remedy that has proved most powerful in such cases and effected a complete cure. A warning and a lesson for hard workers.

This is a plain, straightforward account of a farmer who worked too hard, who became helpless through a stroke of paralysis, but who had the good fortune to

The case in question was that of L. Phillips, of Petersville. "In all I took nine boxes of the pills. I

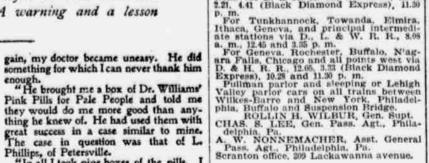

need not go over my gradual recovery in detail, but you must imagine my joy and relief when, after two months of helpless-ness, I felt life and strength return day by day to my dead limbs. When I had taken the ninth box I was completely cured. "I am hale and hearty to-day, with no

traces of my awful experience, and I give all the credit to Dr. Williams' Pink Pills for Pale People. They probably saved me

for rate People. They provedly saved the from the grave." Mr. Stimpson, to give more strength to his story, made affidavit to its truth before Abner Norman, a Notary Public at Rugby. The power of Dr. Williams' Pink Pills for Pale People in the vast number of dis-

eases due to impure or poisoned blood or to derangements of the nervous system, has been demonstrated in thousands of in-stances as remarkable as the one related above. No one who is suffering can rightfully neglect this way to restore health. Druggists everywhere sell Dr. Williams' Pink Pills for Pale People.

#### Repairs on the Building Will Have to Wait for Funds.

The hospital trustees have decided to suspend all repair work now being done on the building. This was found to be absolutely necessary as the finan-cial straits in which the institution is placed at present show little prospects of brightening. The hospital is \$1,600 in debt at present even after the subscriptions recently received are considered.

staggered when I While it would not be policy on the walked, I was part of the directors to put any greater load on the institution it is unfortunate that the repairs now under way must be stopped. The painting of the exterior bottles of Pe-ruis finished but that within is still to be na I began work completed and the walls in many places again and have not felt better in ten are sadly in need of patching.

There are many other small jobs about the building which it would be economy in the end to attend to now but under stress of circumstances further outlay is impossible.
