AFTER THE PLUMS.

Elections Will Soon Occur for Clerk of Common Council, Sanitary Police and Secretary of the Health Board.

On the first Monday in April elections will be held for clerk of the common council, sanitary policeman and secretary of the health board. These offices which yield a few dollars to the holders are sharply contested for each year about this time.

The board of health which was organized in 1890, after council action, has been re-elected. The members are Mayor O'Neill's recent appointments—Democrat for the first time. For nearly eight years M. F. Barrett, formerly chief of police of the city, has ably performed the duties of sanitary policeman. A share of the credit for the excellent sanitary condition which Carbondale now enjoys is due him.

Hon. S. S. Jones, who was largely instrumental in organizing the board, was its secretary for more than five years, embracing the period during which most opposition to the work was manifested. He held the place until a state law made the office incompatible with that of alderman.

His successor is the present secretary, C. R. Munn, who will continue his second term on the first of April.

However, on the ground that to the victors belong the spoils, the Democrats intend electing new officers at the annual meeting. It is understood that Thomas Missett will be the sanitary policeman and George H. Bank will be the secretary.

As the office does not pay enough to warrant the hourly presence of a secretary at the permit books will be kept at Mr. Collins' cigar manufactory, which is conveniently situated on Salem avenue.

As to the office of clerk of the common council, the incumbent, George Evans, is a candidate for reelection. His is the only name which has yet been mentioned in connection with the place.

That office is worth about \$150 a year. The sanitary policeman gets \$100 annually, and the secretary of the board of health \$60.

Many more aspirants are likely to spring up between now and April 1.

HAS HYDROPHOBIA.

Little Italian Boy of Electric Alley Suffering the Awful Disease.

Emilio Manescu, a little Italian boy three years of age, is suffering with the well developed case of hydrophobia and while alive at a late hour last night it is feared he cannot survive long. The boy's parents, Mr. and Mrs. Luigi Manescu, live at No. 2 Electric alley, the former being a cask maker. About five weeks ago Emilio had been left alone for a moment, came running to his parents and said that he had been bitten by a dog.

The wound was inflicted just below the knee on the right leg. It was dressed and the parents thought little about it, although the child has complained from time to time that the member pained him. Monday the child became feverish. It grew worse rapidly and Dr. Bailey was called yesterday. The symptoms indicated hydrophobia and the doctor at once questioned the parents to learn if the child had been bitten. They had almost forgotten the incident which they had not connected with the present illness.

The little fellow suffered intense fever by convulsions which racked his pain. He was unable to drink, made attempt to swallow water being followed.

CLEAN THE STREETS.

The paved streets of this city ought to be cleaned without delay. The work can be done as easily as in midsummer and by it the public will be saved a great deal of muddy annoyance which will follow the spring rains.

Street Foreman Kitchin thinks it would be a good plan to have a steam street cleaner and then clean the catch basins which can be done for less than ten dollars.

MR. BARNES OF NEW YORK.

The Van Ostern Three Star Comedy company played "Mr. Barnes of New York" in the presence of a large audience at the Grand last night. The good dramatic work of the company is being appreciated and its popularity promises to increase. The matinee was

largely attended. "Miss Galatea" delighted all who saw her.

MUST RUSH MATTERS.

The select council will meet in special session this evening and hear the report of the estimates committee. The council will also have a session within the next few weeks, and they will have to rush matters soon.
