The mission of the board of trade representatives tonight will be useless so far as having an estimate included in the 1898 appropriation ordinance is oncerned. The estimates now ar \$75,000 above the amount appropriated last year and the 1898 revenue will al low only \$10,000 more to be appropri-ated than in 1897. This \$10,000 must be divided proportionately among the va rious departments. It is the genera

pinion that the street departments 1857 appropriation of \$5,000 for repair ing asphalt pavements will not be maerially increased, While the board of trade agitation

Bazaar eems bound to fail regarding the appropriation, the work of the board's committee and its conference with the estimates committee may help toward

having a large sum for pavement re pairs included in the proposed bond of dinance.
