## RAISED A TWO DOLLAR BILL.

It Made a Bad Twenty and Raisers Were Arrested.

Two men, Hungarians, were brought before United States Commissioner Charles DuP, Breck yesterday aftersoon and charged with counterfeiting. They had "raised" a two-dollar bill to a twenty, but the job was a bad one and when they tried to shove the bill for a net profit of \$18 they got themselves promptly arrested.

Anthony Duch entered Fidler & Hale's hotel, on West Market street, late Thursday evening and ordered drinks for himself and John Noack, latter immediately detected the fraud, left his two customers for a moment and sent for Patrolman John Saltry, who arrested them. They appeared before Alderman Fidler yesterday morn-The alderman referred the men and the case to Commissioner Breck. Each could offer no defense other than stupid accusations that he procured the bill from the other and neither could tell where it originally came from.

Duch and Noack in default of \$1,000 bail each were committed to jail to await the next session of United States court, which begins in this city March

The job was a very crude one. The back of the bill might escape detection if glanced at carelessly, but the face of it showed a bungling attempt at raising that couldn't deceive anyone.

## OPINION IN A SCRANTON CASE.

Given to Auditor General Mylin by

Deputy Reeder. Attorney General Reeder yesterday gave Auditor General Mylin an opinion in fixing the value of life estates to the effect that they are to be appraised at their cash value in the same manner as annuities. The opinion grew out of the effort to fix that portion of the estate of Justus Von Storch, of this city, subject to collateral inheritance tax. The estate was valued at \$75,000, the widow to enjoy the income for life, and it was then to go to collateral heirs.

By the rule laid down for computing life estates Mrs. Von Storch's Interest is valued at \$43,000 as the remaining \$32,000 is subject to tax, if the collateral hairs want to pay it now. If they prefer to wait until the widow dies they will pay tax on the \$75,000.

The judgments were secured before Alderman Donovan on orders issued by the township to Michael G. Cusick and J. T. Brown, auditors; M. J. Donahoe and C. Comegys, attorneys, and William Conry, laborer. Mr. Samter recites that he tendered the orders for redemption to the supervisors but they refused to pay them. The constable who tried to collect on them returned them "nulla bona." There are about \$50,000 worth of these rders affoat at present, it is said, and there is talk of court ordering a special evy to meet them.

## CREDIT IS DUE TO MR. THOMAS

Democrats Placed a Lot of Confidence

in His Figures.

An 1898 Appropriation Ordinance Drafted by Him Was Accepted by the Joint Estimates Committee -- It Was Cut Down Over \$9,000 Net; from an Original Total of \$295,. 000, the Same as the Available

Revenue.

The joint estimates committee of councils last night came to a realization of the fact that partisanship had to be thrust aside and the consequence was an energetic session of three hours in which time the draft of an ordinance and in payment tendered Hale what presented by Mr. Thomas was cut seemed to be a twenty-dollar bill. The down to \$9,692 below the estimated revenue of \$295,100. Mr. Thomas' ordinance originally provided for an expenditure of \$295,027,23,

Colonel F. L. Hitchcock and E. S. Williams of the streets and highways committee of the board of trade were present and submitted a typewritten communication in reference to the resurfacing of Lackawanna and Washington avenues. The communication was supplemented by an address by each of the board representatives. Following was the communication which was read by Colonel Hitchcock: The committee appointed by the Scran-

ton board of trade to examine Lacka-wanna and Washington avenues, and as-certain what portion thereof needs resurfacing, and bring the matter to your at-tention, respectfully submit the following for your consideration, viz.: Lackawanna avenue from Washington avenue to the bridge was most of it paved in 1896, Washington avenue, from Lackawanna to Gibson, was paved the same year. These streets, with Franklin avenue, from Spruce to Lackawanna, were the first asphalt pavements laid in our city. This was the begining of the paving en-terprise which has done so much for our city during the past decade. These pave-ments are now twelve years old. Be-tween the points named on both avenues. there are, taking out the street railway tracks, upwards of 26,000 square yards of

THE COST FOR REPAIRS. During the first five years there

were no cost of repairs, that period being covered by the contractors' guar-During the next two years the city paid six cents per square yard or about \$1,500 per year. During the next four years the cost was five cents per square yard or about \$1,300 per year. The cest of repairs on these streets for 1897, we have not ascertained, but we believe t was done by the square yard of actual repairing. If the cost in 1897 was as great is in the four preceding years, the total cost to the city for these splendid streets, the main business thoroughfares of our busy city, has been 49,590. It will be remembered that the property owners on these streets paid for the pavement orig-inally. Therefore the cost to the city has been for maintenance alone. Surely this is not a heavy outlay considering what these pavements have done for the city. These payements are now in a danger

ous condition, and rapidly growing worse. The cushion is practically gone and in many places the depth of the holes show that the concrete has been attacked. In a very short time, unless prompt atten-tion is given them, the whole pavement tion is given them, the whole pavement will be ruined and the streets will be impassible. There is now danger to horse and vehicle in driving over them, especially in the night. This condition of things mean possible damage suits against the city. We have made a careful examination of these pavements, in conection with the city engineer, and fine that there is but one way to save them, viz., resurface both streets with the pos-sible exception of 1,000 yards. This will make about 25,000 square yards to resur-We understand this can no one with a ten-year guarantee for \$1 per

square yard.

If this can be accomplished before further damage is done, the pavements will be better than when first laid. Plumbing, ditching, gas and water main litching, steam heat and telephone confuit ditching all being done, the new surface would have a chance to live and having now a prospect of some little care should be good for twenty years at least. We believe this will be a matter of de-cided economy to the city. It will relieve the city of all expense for repairs for ten years, which at the figures paid for the past five years would amount to \$12,000— or more than half the cost of resurfacing. The pavement being required to be in erfect condition at the end of the ten ears' guarantee, should require very litthe expense for the next five years. So that the actual out-go in the end would e no greater than the ordinary cost of

DR. PAINE HEARD.

Dr. W. E. Paine, president of the coard of health, addressed the commitee on the needs of the health department and made a special plea that the appropriations include at least \$500 for repairing the crematory which last year consumed 30,000 barrels of garbage and 160 dead animals and was low in no condition to be operated. H. E. Paine, president of the Providence and Abington Turnpike company, made a plea that the committee provide for repairs of West Market

wish of the committee. His ordinance was not a Republican nor other factional measure: it favored no department and no individual, but he was unwilling to present it unless the members would agree to consider it on non-partisan grounds, agreement was made and Mr. Thomas presented the ordinance. During the subsequent proceedings there was no spirit of partisanship. In all the risng votes the Democratic and Republi-The Thomas ordinance was read and

WHERE CUTS WERE MADE.

The treasurer's department was reduced by striking out an appropria-tion of \$1,500 for three clerks. The controller was given an additional \$300 for clerk hire, and \$75 was taken from the incidental account. From the city building and grounds account an iten \$1,500 for renovating the first floor

was expunged. A big slash was made in the street mmissioner's department. Last year its appropriation was \$48,265.71, and Mr Thomas' measure provided for \$50,407, but it was reduced last night to \$44 207. This reduction was made as fol-

New deficiencies found by the city controller were added at his suggestion to the total amount of \$4,402.72 Departments appropriations were left the same as in 1897, as follows: Mayor's, solicitor's, clerk's, engineer's, building inspector's, parks'. Domestic Troubles of Mr. and Mrs. John Rodney, of Elmhust, Take on a New Aspect.

From 9 o'clock yesterday morning until nearly nightfall, two teams at- the captive's eyes as he was marched tached to wagons loaded ten feet high with furniture stood on the northerly side of Lackawanna avenue, opposite lly he had along with him a letter from Alderman Howe's office.

The furniture belonged to John Rodney, of Elmhurst, or his wife, now a resident in this city. The question of their proprietorship was what kept the

Mr. and Mrs. Rodney recently had a falling out and she left him and came to this city, at the same time filing an application for divorce. She lays claim to the ownership of the furniture and yesterday morning, while the husband was out in the fields, her son, Ira Rodney,together with two hired men, Perry Wesser and John Phillips, entered the house and, loading up two wagons with the furniture and ten bushels of potatoes taken from the cellar, started cityward to turn them over to Mrs.

Neighbors brought word to Rodney senior of what had happened, and an hour after the wagons had started across the mountain he was in hot pursuit in a light spring wagon behind his best team. On reaching Elmhurst village and

finding that he had not yet come in sight of the caravan, he recklessly threw aside all regard for the extra toll of the boulevard and started in to by the old, longer and less expensive pike. He was successful. With Constable

J. C. Moran and a warrant charging trespass, he halted his wife's emissaries as they were about to enter the gates of the city, "Follow me," commanded Constable Moran, and in a brief time the party was in the august presence of the Seventeenth ward court.

Then it began. There was jawing and lawing from that time on until after 6 o'clock. Finally Alderman Howe, sick and tired of their inability to get together, issued a decree that the goods must be returned whence they were taken by the parties who took them, and that same before they went to bed that night. This would be a hardship on the teams, it was shown, so it was arranged that the constable should care for the turnouts and furniture until morning and that the defendants should furnish ball tomorrow to answer at court.

Moral: Advertise in The Tribune. Sol Goldsmith, the genial junior mem-ber of the firm of Goldsmith brothers proprietors of the Bazaar bearing their name, was arrested at St. Augustine Fla., as a Spanish spy, Wednesday, and effected his release with the aid of copy of The Scranton Tribune. Mr. Goldsmith is now making a

southern tour for recreation and pleas ure and at present is visiting the ancient and historic town of St. Augus tine. Wednesday last, as he described in a letter to his brother, Aaron, he went out to Fort Marion, taking along a pocket camera in order to carry away with him some indelible impressions of the picturesque place.

Events proved that the camera was unnecessary for that purpose. He will never forget Fort Marion.

While engaged in taking snap-shots of the big guns and battlements he was surprised to find himself made a pris oner. Two men in citizen's clothes, whom he had noticed strolling along might happen to show himself there-abouts.
