# A TALK WITH MRS. PINKHAM

### About the Cause of Anemia.

Everybody comes into this world with a predisposition to disease of some particular tisrue; in other words, everybody has a weak spot. In ninety-nine cases out of a hundred the weak spot in women is somewhere in the uterine system. The uterine organs have less resistance to disease than the vital organs; that's why they give out the soonest.

Not more than one woman in a hundredney, in five hundred-has perfectly healthy organs of generation. This points to the stern necessity of helping one's self just as soon as the life powers seem to be on the wane.

Thomas' church, Excessive menstruation is a sign of physical weakness and want of tone in the uterine organs. It saps the strength away and produces anemia (blood turns to water).

If you become anemic, there is no knowing what will happen. If your gums and the inside of your lips and inside your eyelids look pale in color, you are in a dangerous way and must stop that drain on your powers. Why not build up on a generous, uplifting tonic, like Lydia E. Pinkham's vegetable Compound?

MRS. EDWIN Ennio, 413 Church St., Bethlehem, Pa.,

"I feel it my duty to write and tell you that ShVS: I am better than I have been for four years. I used Lydia E. Pinkham's Vegetable Compound, one package of Sanative Wash, one box of Liver Pills, and can say that I am perfectly cured. "Doctors did not help me any. I should have been

in my grave by this time if it had not been for your medicine. It was a godsend to me. I was troubled with excessive menstruation, which caused womb trouble, and I was obliged to remain in bed for six weeks. Mrs. / Pinkham's medicine was recommended to me, and,

after using it a short time, was troubled no more with flooding. I also had severe pain in my kidneys. This, also, I have no more. I shall always recommend the Compound, for it has cured me, and it will cure others. I would like to have you publish this letter." (In such cases the dry form of Compound should be used.)
