CRAZE FOR PUBLIC DOCUMENTS 100,000,000 Pounds a Year Carried Free in the Mails.

The average of the "free matter" in the form of documents carried through the mails in a year, and chiefly made up of federal, state, or municipal records, amounts annually to nearly 100,-000,000 pounds, and the expense of this form of transportation, if paid for at ordinary postal rates, would leave a large margin of profit to the government each year, instead of loss, as at present, the weight of documents carried being actually in excess of the weight of all the letters carried. THE ELK CAFE, 125 AND 127 FRANK-lin avenue, Rates reasonable. P. ZIEGLER, Proprietor.

The Congressional Record, though ery much more interesting to the reader than is the usual public docu-ment, is not such a periodical as might be expected to have a widespread circulation, but the most vigorous efforts out short lines in today's market. to reduce the number of copies printed have resulted merely in this: To the vice-president and each senator, forty- over 100,000 shares changed hands durfour copies; to the secretary and sergeant-at-arms of the senate, twenty copies each; to the secretary, for office 300 shares.

THE MARKETS.

Wall Street Review.

New York, March 19 .- The action or lack of action of today's stock market can only be interpreted as the accurate reflection of the overshadowing uncertainty of the Cuban question. Last Saturday the threatening aspect of the situation coupled with the recollection of the developments of the preceding Sunday, in the suggestion for the recall of General Lee, led to reckless short selling by the traders, driving the market to a point even lower than the Monday market suc-ceeding the Lee incident. The pinch-ing administered to the reckless bears in the rebound of last Monday made them extremely cautious about putting out short lines in today's market. The Man Who Propos Three Municipal From the New York Sur

A plan for creating states" is proposed and Joseph H. Irwin in the The increasing tendent concentrate in extern argument. At the ti tional census in 1790 h of the population lived 1890 It had increased to near and in 1929, Mr. Irwin estimate half will be urban. Already of the population of New York cities and towns of 5,000 inhabita over; 45 per cent. in Pennsylvania towns, and 41 per cent. in Hilipo 37 towns, Mr. Irwin estimates that next census these three states will jointly a ratio of about 65 per co cities and only 25 per cent. in the

districts." The three municipal states for creation Mr. Irwin argues are the t cities of the Union having over one i ion inhabitants, or New York, with 3 000 in 1600; Chicago, with the some exuberant estimate of 2.100.060, and Pladeiphia, with 1.400.060. He would have each take in adjoining counties to "fur-nish sufficient territory to form a state and protect its maritime interests." thus increasing their population in 1900 to 4,-009.000, 2.550,000, and 2.150,000 respectively. and thinks that there "should be no diffi-culty in obtaining the approval of the states concerned and the consent of con-gress." Finally, he would have the no "municipal states" cut off in time to p (leipate as such in the next presiden election Chicago. March 19 .- May wheat broad-

ned into an active market today. An in-distent demand from the shorts sent the price up to \$1.07 during the early part of the section, but heavy sales by Leiter broke the price badly toward the close. Final prices showed a decline of 2%c. In Mr. Irwin is evidently a sanguine
