

WELSH CALVINISTIC QUARTERLY SESSION

Began Saturday in the Wayne Avenue Church.

SIX DEACONS WERE ADMITTED

Rev. Mr. Jones, of Wilkes-Barre, was Chosen Moderator and Rev. W. J. Jenkins, of the Same City, Vice President. Three Services Were Held Yesterday and Each was Attended by a Large Audience.

The Welsh Calvinistic churches of Northeastern Pennsylvania began their first quarterly session of the year 1898 on Saturday in the Welsh Calvinistic church of Wayne avenue.

The first business was the selection of a moderator for the sessions. The name of Rev. Mr. Jones, of Wilkes-Barre, was proposed for that position. He was chosen without a dissenting voice.

The next business was the election of a vice-president of the conference, a vacancy having been occasioned by the removal of Rev. Hugh Hughes, of Ashley, from the district.

SIX DEACONS WERE ADMITTED INTO THE CONFERENCE. The questions prior to their admission were presented to the candidates and after answering satisfactorily each of them, they were declared members of the body.

TEMPERANCE CAUSE. The afternoon session opened at 2 o'clock. At this meeting nothing of a business nature was transacted.

Yesterday the morning, afternoon and evening services were well attended. The church's normal seating capacity has to be increased by a large number of chairs.

On behalf of the committee Rev. T. J. Rea made a report concerning the interview with President Maxwell and Vice President Garrison.

COMMITTEE FROM THE MINERS. Interviewed L. and W. Officials and Gained Their Point.

The committee which left Sugar Notch Tuesday recently from New York city to see President J. Rogers Maxwell, of the Lehigh and Wilkes-Barre Coal company in an effort to induce him to resume work at No. 9 colliery, returned home Thursday.

On behalf of the committee Rev. T. J. Rea made a report concerning the interview with President Maxwell and Vice President Garrison.

HUNGARIANS ARE LEAVING. Many Depart from the Hazleton Region for Europe.

The exodus of Hungarians to their native land increases steadily, says the Hazleton Sentinel. Thirty of this class from the surrounding towns left Hazleton Friday morning for New York.

Dr. Agnew's Catarrhal Powder. Rev. W. H. Main, pastor of the Baptist Emanuel church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder.

BAPTIST PASTORS' MEETING. Paper Will Be Read by Rev. A. B. Browe, of Waverly.

form at least two belt lines in that section of the city. The actual work on the extensions will not begin before the latter part of April or later, owing to the uncertainty of the weather. When operations are started, however, they will be pushed rapidly to completion.

SCRANTON PUSH IS THERE. Electric City Men Head a Pomeroy, O., Water Company.

Thomas A. Dunn, of Dunn Bros. contractors, and George McDonald have organized a water works company at Pomeroy, O. The town has a population of about 5,000 and very primitive water facilities.

The plan of the company headed by the Scrantonians is to use the Ohio river as a water source and build a tower for storage. A filter system will be established in the tower which will give a sufficient fire pressure. The town has heretofore been obliged to depend on steamers and a very unsatisfactory pressure.

300,000 TONS OF PEACOCK ICE

That Has Been the Harvest in the Monroe County Region.

CROP IN OTHER SECTIONS IS LOW

Ice Men Near Stroudsburg Rejoicing Over a Good Season—Biggest Crop Is at Tobyhanna and Gouldsboro Where 185,000 Tons Are Stored—Conveyors at Three Houses with a Total Daily Loading Capacity of 400 Cars.

Ice dealers are in high spirits over the report that the coming summer will be hotter than usual and consequently more of their product will be needed, says the Stroudsburg Times.

A gentleman from Tobyhanna Mills, who comes in close contact with the ice men of this section, estimates that the harvest in this county and vicinity is probably about 200,000 tons, divided up as follows:

Peacock Ice Co., about 15,000; Pocono Summit, one house, seven rooms, 13,500; Naomi Pines, one house, eight rooms, 29,000; Gouldsboro, two houses, sixteen rooms, Gouldsboro Ice Co., 22,500; Tobyhanna and Gouldsboro, five houses, fifty-six rooms, the Pocono Mountain Ice Co., 18,500; Hawkey Pond and Gouldsboro, two houses, D. L. & W. R. H. Co., 10,000; their own use, 10,000.

THE houses at Houser Mills and Naomi Pines are on the Wilkes-Barre and Eastern, the remainder on the Delaware, Lackawanna and Western railroad. At Naomi Pines, Tobyhanna and Gouldsboro there are conveyors for loading cars directly from the ponds, with a total capacity of about 400 cars per day.

Shipment from the ponds can only be made during the winter when the ponds are covered with ice of sufficient thickness. Shipments from the houses are made during the remainder of the year, from spring till fall, or the formation of the next crop of ice.

BEFORE BREAKFAST. The East Coast of Florida justly deserves the reputation of being the Riviera of America. The millions of dollars that have been spent during the past few years in the development of winter tourism are appreciated, as is evinced by the enormous travel over the Florida East Coast railway to the numerous resorts at which are located the hotels of the East Coast System.

YOU MAY NOT REALIZE IT.

Few People Do, and That is Why a Great Man Has Written This Note of Warning.

Below is the synopsis of an address given by Professor Marshall: "It is a fact that, today, thousands of people are within a foot of the grave and they do not know it. Very many people who read these lines realize that at times they are unusually tired and cannot account for it. They feel dull and indefinite pains in various parts of the body and do not understand it.

"Now, all the symptoms above described and many more of a similar nature indicate the coming on of the worst physical trouble that has ever been known to the human race. These symptoms are, in fact, nothing less than the forerunners of that dread malady, Bright's disease of the kidneys which so often fastens itself upon the constitution before the victim is aware. It is dangerous to both men and women, especially women, is nearly as hereditary as consumption, quite as common, and fully as fatal.

"But recently it has always been considered incurable, but a few years since much excitement was caused among scientists and the medical profession by a discovery which actually cured this fearful disease even in its last stages. Doctors were amazed at a remedy so simple as that which this discovery is known among men of science the world over as Warner's Safe Cure, and it is no exaggeration to state that it has accomplished more in the field of health than anything which has ever been brought to the attention of the medical profession or the general public.

"But the great popularity of Warner's Safe Cure is due not so much to the fact that it has rescued the victims of Bright's disease from the brink of the grave, as that it drives away the first symptoms of this dread malady whenever they appear and restores the sufferer to perfect health. I do not hesitate to implore everyone who reads these words not to neglect the slightest symptoms of kidney difficulty. Certain suffering and probably death will be the sure result of such neglect and no one can afford to hazard such chances."

The cleverness of the management of the Journal, the Wilkes-Barre edition of the World remained locked in the Delaware and Hudson station until the complete edition of the Journal was sold. Yesterday the Journal management had another trick up its sleeve. The scheme was well laid. The Journal people communicated with the Erie officials and had the train stopped several blocks away from the station under the pretext that an early start up the valley was desired.
